**As a college professor, the town respected him. As a husband who  
could not pay his way - his wife despised him. As Peter Waring said  
bitterly after she walked out on him, "Maybe I'm a college teacher - but  
damn it all, I'm also a man! I want to live like a man . . . love like a man  
. . ." Yet how could he? Like most faculty members, he had to burn the  
midnight oil doing extra assignments to improve his lot in the world.  
For although his wife was rich, she wanted Peter to pay - or to  
play!When a college campus is rocked by violent revolt, it isn't always  
the students who are to blame. In this case, it started with Viviam  
Temple, a highly respectable English teacher - whose husband could  
no longer satisfy her erotic appetites. It spread quickly to Eric Bentley,  
another normally staid member of the faculty, who knew a good thing  
when he saw it - and saw Vivian at her naked best. Then it touched  
Barry Holmes, an A student who just happened to like doing nude  
studies instead of his homework! The first in a series of highly**

***practical, hands on, step-by-step photographic manuals, Replacing Your Boat's Engine fills a gap in the market for the DIY boat builder and repairer. It is a subject covered only in piecemeal fashion by the yachting press, which, like general boat repair manuals, can't go into the level of detail Mike Westin does. This is a visual, hand-holding guide, dwelling on the practical details of replacing a boat's engine and related systems as it explains each procedure rather than focussing on the theory (which is relegated to an appendix, for those who wish to go further). Anyone who wishes to upgrade their boat's engine or replace an ailing or broken engine will find this step-by-step illustrated book a hand-holding godsend. More and more sailors and powerboaters are buying and relying on electronic and electric devices aboard their boats, but few are aware of proper installation procedures or how to safely troubleshoot these devices if they go on the blink. NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In Buyology, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? Buyology is a fascinating and shocking journey into the mind of today's consumer that will captivate anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds. Filled with everything restorers are looking for including Mini history, buying information, specs, bodywork, mechanics, interiors, electrics, mods, tools, color schemes, clubs and more. Clear, step-by-step photographs and instructions make this the book for renovating your bodywork and interiors, giving new life to mechanical and electrical components, plus improved***
