Draft Environmental Impact Statement, U.S. Mission to the United Nations, 799 United Nations Plaza, New York, NY 10017 Jan 07 2022 This statement presents the local environmental impact of the proposed action involving the demolition of the Federal building currently housing the U.S. Mission to the United Nations (located on the corner of First Avenue and 45th Street, directly across from the U.N.) and the subsequent construction of a new facility on the same site.

[The New Latin American Mission History](#) Feb 25 2021 The subject of missions-formal efforts at religious conversion of native peoples of the Americas by colonizing powers-is one that renders the modern student a bit uncomfortable. Where the mission enterprise was actuated by true belief it strikes the modern sensibility as fanaticism; where it sprang from territorial or economic motives it seems the rankest sort of hypocrisy. That both elements-greed and real faith-were usually present at the same time is bewildering. In this book seven scholars attempt to create a "new" mission history that deals honestly with the actions and philosophic motivations of the missionaries, both as individuals and organizations and as agents of secular powers, and with the experiences and reactions of the indigenous peoples, including their strategies of accommodation, co-optation, and resistance. The new mission historians examine cases from throughout the hemisphere-from the Andes to northern Mexico to California-in an effort to find patterns in the contact between the European missionaries and the various societies they encountered. The Great American Mission Jul 13 2022 The Great American Mission traces how America's global modernization efforts during the twentieth century were a means to remake the world in its own image. David Ekbladh shows that the emerging concept of modernization combined existing development ideas from the Depression. He describes how ambitious New Deal programs like the Tennessee Valley Authority became symbols of American liberalism's ability to marshal the social sciences, state planning, civil society, and technology to produce extensive social and economic change. For proponents, it became a valuable weapon to check the influence of menacing ideologies such as Fascism and Communism. Modernization took on profound geopolitical importance as the United States grappled with these threats. After World War II, modernization remained a means to contain the growing influence of the Soviet Union. Ekbladh demonstrates how U.S.-led nation-building efforts in global hot spots, enlisting an array of nongovernmental groups and international organizations, were a basic part of American strategy in the Cold War. However, a close connection to the Vietnam War and the upheavals of the 1960s would discredit modernization. The end of the Cold War further obscured modernization's mission, but many of its assumptions regained prominence after September 11 as the United States moved to contain new threats. Using new sources and perspectives, The Great American Mission offers new and challenging interpretations of America's ideological motivations and humanitarian responsibilities abroad.

Mission Failure Dec 14 2019 The end of the Cold War led to a dramatic and fundamental change in the foreign policy of the United States. In Mission Failure, Michael Mandelbaum, one of America's leading foreign-policy thinkers, provides an original, provocative, and definitive account of the ambitious but deeply flawed post-Cold War efforts to promote American values and American institutions throughout the world. In the decades before the Cold War ended the United States, like virtually every other country throughout history, used its military power to defend against threats to important American international interests or to the American homeland itself. When the Cold War concluded, however, it embarked on military interventions in places where American interests were not at stake. Somalia, Haiti, Bosnia and Kosovo had no strategic or economic importance for the United States, which intervened in all of them for purely humanitarian reasons. Each such intervention led to efforts to transform the local political and economic systems. The invasions of Afghanistan and Iraq, launched in response to the terrorist attacks of September 11, 2001, turned into similar missions of transformation. None of them achieved its aims. Mission Failure describes and explains how such missions came to be central to America's post-Cold War foreign policy, even in relations with China and Russia in the early 1990s and in American diplomacy in the Middle East, and how they all failed. Mandelbaum shows how American efforts to bring peace, national unity, democracy, and free-market economies to poor, disorderly countries ran afoul of ethnic and sectarian loyalties and hatreds and foundered as well on the absence of the historical experiences and political habits, skills, and values that Western institutions require. The history of American foreign policy in the years after the fall of the Berlin Wall is, he writes, "the story of good, sometimes noble, and thoroughly American intentions coming up against the deeply embedded, often harsh, and profoundly un-American realities of places far from the United States. In this encounter the realities prevailed."

Mission to America Feb 08 2022 Mason LaVerle is a young man on a mission—a mission to save his people's way of life. Mason was raised in a tiny, isolated Montanan sect, the church of the Aboriginal Fulfilled Apostles. But the Apostles face a dwindling membership, so Mason is sent on an outreach operation to bring back converts—specifically brides. As he discovers shopping

malls, fast food, and faster women, the forces of faith and the forces of America collide, leading Mason to the brink of missionary madness.

The Great American Rescue Mission Nov 05 2021 Fatherlessness is the #1 societal issue that is decimating the family and tearing at the very fabric of America. John Smithbaker shares how the Fathers in the Field ministry engages the local church to reach, rescue, and restore fatherless boys in their community to end the epidemic of generational fatherlessness.

The Last Division Oct 12 2019 "A brilliant paper chase—an excellent book."—Library Journal JFK, Khrushchev, Reagan, and a city divided. Berlin has played a major role in world politics since the Nazi era and continues to be in the spotlight today as the once-again-great capital of Germany. Ann Tusa presents an engaging chronicle of the Cold War partitions of this historic city, from the political strife and administrative division by the victors against Hitler, through the building and eventual destruction of the Wall. Using newly available documents, she offers by far the fullest account to date of the political, diplomatic, and military affairs of the city, with vivid characterizations of central figures like Konrad Adenauer, Nikita Khrushchev, and British Prime Minister Harold Macmillan. Tusa's account also displays the full drama surrounding the building of the Wall, from its ramifications for world politics (including John F. Kennedy's famous response that "a wall is a hell of a lot better than a war" and Ronald Reagan's iconic "Mr. Gorbachev, tear down this wall!") to the experiences of ordinary Berliners and the personal tragedies they experienced as the Wall severed a living city and sundered families for generations. The result is a startling combination of historical detail and lucid style, a story that The Sunday Times of London has hailed as "not only painstakingly researched but eminently readable."

Cases in Communication Law Sep 22 2020 Of the seventy-three cases in the fourth edition of Paul Siegel's Cases in Communication Law, twenty-eight are new to this edition. Among these are such Supreme Court decisions as *Air Wisconsin Airlines Corporation v. Hooper*, which gives those who follow the post-911 instruction, "if you see something, say something!" some special protection from libel suits; *Brown v. Entertainment Merchants Association*, which explicitly gives maximal First Amendment protection to violent video games, even when sold to minors; *U.S. v. Alvarez*, which prohibits prosecution for falsely claiming one has been awarded a Medal of Honor; and *Snyder v. Phelps*, which gave notorious minister Fred Phelps the right to mount demonstrations with rather nasty messages at funerals. Siegel has used several criteria to

select cases for inclusion in this and previous editions. He admits unabashedly that one of those criteria is the cultural significance, familiarity, and even celebrity of the controversies or the litigants. Just to cite a few examples, this edition includes cases involving such litigants as Michael Moore, Penn & Teller, Joan Rivers, and Madonna, as well as TV programs like Family Guy, CSI, Law and Order, and featured movies include Disturbia, American Gangster, American Beauty, and The Hangover, Part II.

Our Common Agenda - Report of the Secretary-General
Sep 15 2022 On the seventy-fifth anniversary of the United Nations, the world has faced its biggest shared test since the Second World War in the coronavirus disease (COVID-19) pandemic. Yet while our welfare, and indeed the permanence of human life, depend on us working together, international cooperation has never been harder to achieve. This report answers a call from UN Member States to provide recommendations to advance our common agenda and to respond to current and future challenges. Its proposals are grounded in a renewal of the social contract, adapted to the challenges of this century, taking into account younger and future generations, complemented by a new global deal to better protect the global commons and deliver global public goods. Through a deepening of solidarity—at the national level, between generations, and in the multilateral system—Our Common Agenda provides a path forward to a greener, safer and better future.

The American Mission Feb 20 2023 One of NPR's Best Books of 2014! After witnessing a devastating incident in Darfur, Alex Baines is stripped of his security clearance and relegated to a desk job. He's about to resign when his former mentor—now the current Ambassador to the Congo—offers him an opportunity to start over. But the post isn't what Alex imagined. The US company Consolidated Mining seems to be everywhere. When a hostage situation involving a survey team arises, Alex is sent in, finding himself in the middle of the conflict with a guerilla leader and Marie Tsiolo, a native geologist on the team. As violence escalates in the region, Alex struggles to balance the interests of the U.S. with the greater good of the people of the Congo—and somehow stay alive.

America's Mission Nov 17 2022 America's Mission argues that the global strength and prestige of democracy today are due in large part to America's impact on international affairs. Tony Smith documents the extraordinary history of how American foreign policy has been used to try to promote democracy worldwide, an effort that enjoyed its greatest triumphs in the occupations of Japan and Germany but suffered huge setbacks in Latin America, Vietnam, and elsewhere. With new chapters and a new introduction and epilogue, this expanded edition also traces U.S. attempts to spread democracy more recently, under presidents Clinton, Bush, and Obama, and assesses America's role in the Arab Spring.

The Perfect Horse Sep 03 2021 NEW YORK TIMES BESTSELLER • From the author of The Eighty-Dollar Champion, the remarkable story of the heroic rescue of priceless horses in the closing days of World War II WINNER OF THE PEN AWARD FOR RESEARCH NONFICTION In the chaotic last days of the war, a small troop of battle-weary American soldiers captures a German spy and makes an astonishing find—his briefcase is empty but for photos of beautiful white horses that have been stolen and kept on a secret farm behind enemy lines. Hitler has stockpiled the world's finest purebreds in order to breed the perfect military machine—an equine master race. But with the starving Russian army closing in, the animals are in imminent danger of being slaughtered for food. With only hours to spare, one of the U.S. Army's last great cavalrymen, Colonel Hank Reed, makes a bold decision—with General George Patton's blessing—to mount a covert rescue operation. Racing against time, Reed's small but determined force of soldiers, aided by several turncoat Germans, steals across enemy lines in a last-ditch effort to save the horses. Pulling together this multistranded story, Elizabeth Letts introduces us to an unforgettable cast of characters: Alois Podhajsky, director of the famed Spanish Riding School of Vienna, a former Olympic medalist who is forced to flee the bomb-ravaged Austrian capital with his entire stable in tow; Gustav Rau, Hitler's imperious chief of horse breeding, a proponent of eugenics who dreams of genetically engineering the perfect warhorse for Germany; and Tom Stewart, a senator's son who makes a daring moonlight ride on a white stallion to secure the farm's surrender. A compelling account for animal lovers and World War II buffs alike, *The Perfect Horse* tells for the first time the full story of these events. Elizabeth Letts's exhilarating tale of behind-enemy-lines adventure, courage, and sacrifice brings to life one of the most inspiring chapters in the annals of human valor. Praise for *The Perfect Horse* "Winningly readable . . . Letts captures both the personalities and the stakes of this daring mission with such a sharp ear for drama that the whole second half of the book reads like a WWII thriller dreamed up by Alan Furst or Len Deighton. . . . The right director could make a Hollywood classic out of this fairy tale."—*The Christian Science Monitor* "Letts, a lifelong equestrienne, eloquently brings together the many facets of this unlikely, poignant story underscoring the love and respect of man for horses."—*Kirkus Reviews*
