Aliens & Strangers? Jan 29 2021 In this work of qualitative sociology, Anna Strhan offers an in-depth study of the everyday lives of members of a conservative evangelical Anglican church in London. 'St John's' is a vibrant church, with a congregation of young and middle-aged members, one in which the life of the mind is important, and faith is both a comfort and a struggle - a way of questioning the order of things within society and for themselves. The congregants of St John's see themselves as increasingly counter-cultural, moving against the grain of wider culture in London and in British society, yet they take pride in this, and see it as a central element of being Christian. This book reveals the processes through which the congregants of St John's learn to understand themselves as 'aliens and strangers' in the world, demonstrating the precariousness of projects of staking out boundaries of moral distinctiveness. Through focusing on their interactions within and outside the church, Strhan shows how the everyday experiences of members of St John's are simultaneously shaped by the secular norms of their workplaces and other city spaces and by moral and temporal orientations of their faith that rub against these. Thus their self-identification as 'aliens and strangers' both articulates and constructs an ambition to be different from others around them in the city, rooted in a consciousness of the extent to which their hopes, concerns, and longings are simultaneously shaped by their being in the world.

The Kraken Wakes May 01 2021 An “ingenious, horrifying” (The Guardian) first contact story by one of the twentieth century's most brilliant—and neglected—science fiction and horror writers, whom Stephen King called “the best writer of science fiction that

England has ever produced.” “Few books capture the obscure, elliptical way that threats move from the background to the foreground of reality like *The Kraken Wakes*. . . . Feels all too familiar in today’s age of anti-vaxxer disinformation and QAnon conspiracists.” —Alexandra Kleeman, from the Introduction *What if aliens invaded and colonized Earth’s oceans rather than its land?* Britain, 1953: It begins with red dots appearing across the sky and crashing to the oceans’ deeps. At first, many people believe that these aliens are interested in only what’s down below. But when the polar ice-caps begin to melt, it becomes clear that these beings are not interested in sharing the Earth and that humankind might just be on the brink of extinction. . . .

Picturing Extraterrestrials Aug 16 2022 In this witty, erudite, and thoroughly researched book, art historian John Moffitt discusses the popular iconography depicting alleged extraterrestrial (ET) visitors and the widespread appeal of this New Age craze as a mass cultural phenomenon. A thorough skeptic, Moffitt is interested in kitschy ET portraiture, not as evidence of aliens among us, but for what this imagery reveals about contemporary culture. By brilliantly placing the present cultural moment in historical context, he demonstrates how typical portrayals of aliens reflect long-running (even ancient) cultural motifs. Whether we realize it or not, among ET’s precursors are the ecstatic maenads of ancient Greek art, early depictions of Christ in Byzantine icons, the religious visions shown in 15th-century Spanish paintings, and the popular images of witches and incubi from the 18th and 19th centuries. Today, in our postmodern space age, these timeless figures of imagination and art have taken on the otherworldly trappings of alien creatures. By the same token, centuries-old beliefs, whether in nature gods and goddesses, demons, witches, Satan, or saints, have evolved into the current New Age mythology that often surrounds the stories and pictures connected with aliens. Fueled by a huge entertainment industry, mass media, and the relentless profit drive of capitalism, alien imagery has become ubiquitous, and in the process the line between fantasy and reality ever harder to discern. This sweeping and above all entertaining perusal of popular culture presents a sophisticated yet very accessible and often funny dissection of our current obsession with the possibility that we are not alone. John F. Moffitt (Las Cruces, NM) is professor emeritus of art history at New Mexico State University. He is the author of many books on art history including *Art Forgery: The Case of the Lady of Elche*.

Suzan Jul 23 2020 Is it aliens ... or madness? John feels as though he's slowly going insane. He must be. Aliens don't exist. There is certainly no alien life force that is capable of taking over the world-or is there? "Suzan" is the epic tale of struggle between men and monsters of an entirely new variety. As John battles to understand what is happening to him, he must control his remarkable new abilities, figure out whom he can trust, and protect his family and his new love interest. As his own adventure unfolds, so too does the epic history of an ancient alien race ruled by despotic leaders determined to annihilate those whom they deem inferior. Events lead to a mighty final battle, as Suzan pits John against someone he thought he could trust.

UFOs and Abductions Jun 02 2021 Examining the nature of UFO "evidence", the authors present a primer for scholars, skeptics, and others uneasy about investigating the field of UFOs. The volume also brings together three bestselling authors--David M. Jacobs, Budd Hopkins, and Pulitzer Prize winner John Mack--widely known for their

writings on the controversial "alien abduction" phenomenon.

Passport to the Cosmos May 13 2022 In his groundbreaking follow-up to the bestselling *Abduction*, Pulitzer Prize-winner John E. Mack powerfully demonstrates how the alien abduction phenomenon calls for a revolutionary new way of examining the nature of reality and our place in the cosmos. Harvard professor Mack stunned the world when he published the astonishing results of his extensive research involving clients who claimed they had had encounters with alien life-forms. Writing with the authority and insight that have marked his distinguished career as a psychiatrist and writer, Mack used the remarkable stories to show how the abduction phenomenon has the vast potential to transform the foundation of human thought. In *Passport to the Cosmos*, Mack, who has done additional research with abductees in the United States and around the world, provocatively asserts that this phenomenon is part of a new age in human consciousness, a time in which we must be willing to embrace the idea that alien visitation is real on some level. Drawing on the rich tradition of non-Western and indigenous cultures, which are more accepting of the idea that we live in a multidimensional universe, Mack persuasively shows that by broadening our definition of "what is real" we can begin to explore a phenomenon that has deep and lasting implications for humanity. In *Passport to the Cosmos*, John Mack further solidifies his reputation as a brave pioneer on the forefront of the science of human experience with an authoritative voice that takes us into the twenty-first century.

Abduction Oct 18 2022 THE PROVOCATIVE BESTSELLER--THE MOST RIVETING ACCOUNT EVER PUBLISHED ON ALIEN ABDUCTION PULITZER PRIZE-WINNER John E. Mack, M.D. "Fascinating, suggestive, and even inspiring." -- The New York Times Book Review "A TRANSCENDENT, LANDMARK WORK...An extraordinarily rich and strange mind-expanding book.--Boston Herald When respected Harvard psychiatrist John E. Mack, M.D., first published these astonishing results of four years of intensive research and investigation into alien abduction, he unleashed a

firestorm of controversy. Now, in this paperback edition, Mack answers his critics, both believers and skeptics. Mack focuses on thirteen ordinary Americans (from nearly one hundred case studies) who tell dramatic, inspiring, and remarkably similar stories: repeated visits from large-eyed beings, mysterious machines, telepathy, invasive medical procedures, hours missing from their lives, and startling messages about the future....

"Provocative...This book is a challenge to any reader. It raises questions about how we live on this planet and with each other that the Western mind and culture will not be able to ignore for too much longer. It also raises questions about the nature of reality; of time, space, energy and the true nature of humanness. It opens the door to a very serious redefinition of life as we know it." --Los Angeles Times Book Review "Strange and disturbing...Something is powering this rash of abduction claims, making it worth the kind of serious investigation Mack presents here.--San Francisco Chronicle "A groundbreaking study...Credible and thought-provoking." --Publishers Weekly A FEATURED SELECTION OF THE LITERARY GUILD

The Believer Dec 20 2022 The Believer is the weird and chilling true story of Dr. John Mack. This eminent Harvard psychiatrist and Pulitzer Prize-winning biographer risked his career to investigate the phenomenon of human encounters with aliens and to give credibility to the stupefying tales shared by people who were utterly convinced they had happened. Nothing in Mack's four decades of psychiatry had prepared him for the otherworldly accounts of a cross section of humanity including young children who reported being taken against their wills by alien beings. Over the course of his career his interest in alien abduction grew from curiosity to wonder, ultimately developing into a limitless, unwavering passion. Based on exclusive access to Mack's archives, journals, and psychiatric notes and interviews with his family and closest associates, The Believer reveals the life and work of a man who explored the deepest of scientific conundrums and further leads us to the hidden dimensions and alternate realities that captivated Mack until the end of his life.

The UFO Phenomenon Sep 24 2020 Written by an acclaimed occult scholar, this book is a through are credible exploration of the UFO phenomenon - from Kenneth Arnold's 1947 sighting of the first 'flying saucers' to present-day sightings.

UFOs and ALIENS Sep 05 2021 John Philip Hunter discusses in "Ufos and Aliens: Should You b e Afraid?" a subject that is coming up in discussions more often. Should you be afraid? Maybe. There is much misinformation about UFOs and the aliens connected with them. Much of the data can be ridiculed, yet, there is actual proof that there are unidentified flying objects or craft in our skies. Some of these may be military secret craft. However, that other part is the mysterious section we want to question. For thousands of years, much information has piqued our interest. Some of the data is scary, some not. This book hopes to help you formulate your own questions and determine your

answers.

Operation Trojan Horse Dec 08 2021 OUR SKIES ARE FILLED WITH TROJAN HORSES... "The real UFO story must encompass all of the many manifestations being observed. It is a story of ghosts and phantoms and strange mental aberrations; of an invisible world that surrounds us and occasionally engulfs us; of prophets and prophecies, and gods and demons. It is a world of illusion and hallucination where the unreal seems very real, and where reality itself is distorted by strange forces which can seemingly manipulate space, time, and physical matter; forces that are almost entirely beyond our powers of comprehension." John A. Keel (March 25, 1930 - July 3, 2009) was an American journalist and influential UFOlogist best known as the author of "The Mothman Prophecies." In the mid-1960s, he took up investigating UFOs and assorted fortana and published his first knockout UFO book, *Operation Trojan Horse*, in 1970. The book shredded the then trendy nuts-and-bolts extraterrestrial hypothesis for UFOs in favor of one that linked UFOs to a variety of paranormal and supernatural phenomena that have taken place throughout history. Keel was one of the first to note that the UFO phenomenon appears in different disguises; and that one could not begin to decipher this great mystery without first taking into account its many and varied deliberate deceptions.

The Invasion of Earth Aug 24 2020 Updated June 14, 2019 UFOs with Aliens (Extraterrestrials) have been visiting earth for over 100 + years. This book is prepared to tell you the truth about the UFOs and our contact with Aliens / Extraterrestrials across the globe. John Chace has researched thousands of declassified military UFO records, newspaper articles and filmed his UFOs while in Connecticut. This book is prepared to tell you the truth about the reality of UFOs visiting all continents of Earth. Through 32 chapters we discuss many topics including the various forms of evidence (e.g., physical, radar and visual); actual military and civilian UFO case histories as well as alien contact. The stories are compelling and include the typical "cat and mouse" games the Alien pilots use when confronting our jets. On the one hand, our police and military jets chase the UFOs. On the other hand, UFOs pursue our military and commercial planes. You will come away understanding the reasons why they are here, what they are doing, and the ships they use. John Scott Chace is the author of *UFOs In U.S. AIRSPACE*. He is the son of Colonel Chaplain Alston R. Chace (USAF Retired) and Nephew of Colonel Frank C.

Chace (U.S.M.C.). A Christian and military brat, who lived on many of the U.S. Air Force bases where the better known UFO incidents have taken place. John became a witness to his own UFO sightings in Connecticut from 2011 to 2013. He then became a researcher, and historian to educate the masses on the UFO reality and paradigm shift needed to understand this worldwide phenomenon. This book contains USAF Project Blue Book Case and more.

Alien People Apr 12 2022 A message from across the galaxy. A journey to a distant world. Will first contact bring new understanding ? or death? Calandra Menankar dreams of becoming her planet's top astronomer. So when a probe from a place called Earth rockets into her solar system, she's determined to uncover its secrets. And when the foreign craft transmits a message of peace, Calandra secures permission to voyage to the unknown orb despite brittle bones that could make space travel fatal. Teaming up with her boyfriend pilot, Xtra Oogan, the two cross the stars towards the mysterious blue-green globe unaware one of their crew hides a sinister agenda. And when they translate the Earthian communications, Calandra and Xtra fear the probe may have led them into a deathtrap far from home? Will traversing the Milky Way to a dangerous, new planet make both explorers wish they never left home? *Alien People* is a thrilling and captivating science-fiction novel from bestselling author John Coon. If you like nail-biting action, high adventure, and ambitious characters, then you'll love this immersive tale set in the same fictional universe as *Under a Fallen Sun*.

The Extra-Dimensionals Nov 07 2021 Extra-Dimensionality is the key to understanding everything... By everything, we mean all the areas in which we have been deceived to believe the physical world is the beginning and end of all things. "The Extra-Dimensionals" is the stark revelation of where Alien Visitors are actually coming from and to where they are returning. Understanding Extra-Dimensionality is the way to unfold the truth of the paranormal, the spiritual and even the physical world. These Visitors have been with us since time immemorial and their messages to us are everywhere around us. The truth will eventually explode into our field of vision. If we refuse to listen then we are only delaying the inevitable to a time when an alarm will be sounded that is so loud that it will consume everything upon the Earth. Once the black swans arrive, once we awaken to numerous mile long shadows cast by these ancient ships-hanging over our major cities, soundless, motionless, maddening; it will be too late. It is in these final moments that we can still, with open minds and clear hearts, decipher that which has been intentionally hidden from humanity for so long-the truth of Extra-Dimensionality. That comprehension will, in turn, illuminate every hidden truth of our material existence. Then, we will find that for the first time, we will finally have the key to understanding everything.

Steel Egg Feb 27 2021 Someone on Earth knew about the aliens. Someone battled them, and survived. Before Ripley, there was a first encounter. Aliens and humans have fought before! When a human spaceship discovers a vast egg-shaped vessel in Saturn's orbit, the

crew powers in to investigate. Thinking the ship might contain usable metal for Earth, they force their way aboard. Three teams split up to explore the ship. Already the aliens have awoken. The first of all the battles unfolds.

Other Worlds Aug 04 2021 Who hasn't asked: "What happens to me after I die?" and/or "Are we alone in the universe?" *Other Worlds: UFOs, Aliens, and the Afterlife* takes readers on a journey into other galaxies and into a different time—a time after all of their tomorrows. How are the societies organized on other planets and in the afterlife? This book answers this question with a new approach in the UFO and the Near-Death Experience fields. As readers take this trip, they will wonder if there are universal laws governing the societies of intelligent beings regardless of where they reside in existence. Are humans projecting into foreign forms their own beliefs about how societies should be arranged on Earth? Why study such ethereal and controversial material? We always learn about ourselves when we study those who are different from us, whether those beings are real or not. Anyone who has read a good book of fiction knows the validity of this point. Consider how many teenagers identify with the characters in the *Hunger Games* books. What follows is the sociological perspective. We will explore institutions, such as marriage and the family, social classes, and culture. We will determine the sex of alien travelers as well as the occupations of their human witnesses. We will learn what the afterlife looks like, and discover what messages deceased beings deliver to humans.

The Legacy of Pnomos : Book 2 of the Family of Man Series Dec 28 2020 When the Family of Man receives a mysterious message from an unknown brother ship somewhere in the galaxy, a set of actions is set into motion that will lead Earth into a final battle for its own existence. Lisa and John, the original discoverers of the Family of Man discover the message and along with Pnomos, the leader of the Family of Man on Earth, begin setting plans to protect Earth from the eventual arrival of these aliens. John discovers a forgotten mechanism on the obelisk, the communication device of the Family of Man which had been forgotten and never used. The device, the Legacy of Pnomos, was a protector only to be used in a dire emergency if being attacked. As Lisa, John and the Family of Man decipher its use and its significant power, the alien race begins its approach to Earth.

UFOs Jun 14 2022 Foreword by Jacques F. Vallee Introduction by Burt Rutan Commentary by Tom Clancy A never-before-heard firsthand account of a government insider's experience on the cutting edge of UFO exploration While still on active duty in the U.S. Army during the 1980s, Colonel John B. Alexander, Ph.D., created an interagency group to explore the controversial topic of UFOs. Participants came from the Army, Navy, Air Force, CIA, NSA, DIA, and the aerospace industry. All members held Top Secret clearance. What they discovered was not at all what was expected. *UFOs* covers the numerous cases they saw, and answers questions like: • What was really in Hanger 18? • Did a UFO land at Holloman Air Force Base? • What happened at Roswell? • What is Majestic 12? • What is the Aviairy? • What does the government know about UFOs? • What has happened with disclosure in other countries? • Has the U.S. reverse engineered a UFO? • Why don't presidents get access to UFO info? *UFOs* is at once a complete account of Alexander's findings, and a call to action. There are no conspiracy theories here—only hard facts—but they are merely the beginning. Serious research is

needed in order to understand and anticipate the workings of UFOs, and John Alexander is leading the charge.

The Invasion of Earth Nov 19 2022 New Abridged Version - February 2020 "The Invasion of Earth" (Edition 2 - Abridged) is not a Science Fiction Novel; in fact, it is real-life stories of UFO encounters from around the world. Over 400 pages, it is packed with UFO incidents from Europe, South America, Africa, Australia, the United Kingdom, Russia, the United States, and Asia. Research shows for, over the last 100 + years, UFOs and their occupants have been monitoring this planet. This book is prepared to tell you the truth about the reality of UFOs and our contact with Aliens / Extraterrestrials. The author has researched thousands of declassified military UFO records, and newspaper articles and brings these stories to you. Through 26 chapters, we discuss many topics, including the various forms of evidence, actual military and civilian UFO case histories as well as alien contact. The stories are compelling and include the typical "cat and mouse" games Alien pilots use when confronting our jets. It is diabolical in that, on the one hand, our police and military jets chase the UFOs. Yet, on the other hand, UFOs pursue our military and commercial planes. You will come away understanding the reasons why they are here, what they are doing, and the ships they use. The Author: John Scott Chace is the author of "UFOs In US AIRSPACE" and "Project Blue Book." He is the son of Colonel Chaplain Alston R. Chace (USAF Retired) and Nephew of Colonel Frank C. Chace (USMC). A military brat, he lived on many of the US Air Force bases where several UFO incidents have taken place. John became a researcher and historian on the UFO phenomenon after sightings in Connecticut. This book contains US Air Force Project Blue Book Case and more.

Aliens in the Bible Oct 06 2021 To get more information on this book and my other books, check out my website at www.AliensInTheBible.com. When reading the Bible, readers usually find moral guidance; sometimes they perceive a sense of poetic beauty. But how often do readers fall into the pages, and swim among the ancient Hebrew characters? How many people transcend the eons of time within the ancient text of the Bible, then look up from their reading, and consider for a moment that they are mysterious beings, immersed in a mysterious creation? How odd this current world must have looked, we with our televisions, space-shuttles, and computers, in the visions of the prophets of old; and how odd the world of antiquity looks to us today a world of giants, magicians, and sorcerers; a world of legendary gods coming from the heavens. Aliens in the Bible is a book of possibilities. No claim of supreme knowledge in biblical interpretation is made rather, scripture is presented, and with it, the pondering mind of the author. Some pondering may be perceived as utterly preposterous, despite the fact that science and historical literature other than the Bible may also support some suggested theories. Nevertheless, this book should be a healthy read; it should touch the unseen eyes of the soul, which delight in the revelations of the invisible realm. Aliens in the Bible is researched information that places paranormal subjects into three categories: supernatural entities, realms of existence, and phenomenon. Within the scope of paranormal phenomenon, unlike the title of this book may suggest, a host of topics are covered. Along with the existence of aliens ghosts, thought-forms, artificial intelligence, monsters, and mythical beings are also discussed all with a biblical interpretation. The realms of

heaven and hell are explained in depth. Other paranormal phenomenon, such as reincarnation, PSI, astral projection, stigmata, and more, are also elaborated upon. Some of the theories presented in this book might make the average Christian laugh. Indeed, they could be embossed on the front page of a tabloid. Some of them are as follows: 1. The beast spoken of in the book of Revelation might actually be an artificial intelligent life form. 2. The giants of Genesis chapter 6 were genetically engineered hybrids of humans, and fallen angels. Dinosaurs and other monstrous prehistoric beasts were the results of precursory genetic experimentation leading up to the Nephilim giants. 3. Astral projection was practiced at the Tower of Babel. This ability aided in the growth of exponential knowledge. 4. Satan once ruled a host of planets; his home world was called Rahab. God destroyed this world; it became what is now known as the asteroid belt. 5. The heaven reported by many non-Christians that have had NDEs (Near-Death-Experiences) isn't really heaven at all. It's actually a vacated paradise located within the midst of Hades, ruled by demonic entities. 6. What people perceive as reincarnation is actually possession of the deceased. This book may be accused of not being focused on the primary message of the Bible. The heart of scripture is the heart of God; that He imbed Himself inside the body of a human being by the name of Jesus, and willingly allowed Himself to be murdered. Why did He do this? Because He demands perfect justice yet seeing that we can never pay this price, He paid it for us, if only we accept Him on His terms. Instead, this book's focus is on items that may be deemed a value of secondary importance in comparison with the essentials of the Christian faith, such as the love of God, the immaculate conception of Christ, His work of salvation on the cross, moral absolutes, etc. To all Christian readers, I humbly request you humor this work, for this book should serve a valuable twofold purpose. First of all, it will witness to seekers who often immerse

UFOs Oct 14 2019 A never-before-heard firsthand account of a government insider's experience on the cutting edge of UFO exploration; includes a new afterword "Forget everything you think you know about UFOs - this insider's account exposes the reality... Packed with top grade information, insightful analysis and fascinating anecdotes, Alexander's interesting and controversial book sets the gold standard for titles on this subject." —Nick Pope, author of *Open Skies, Closed Minds* "Changes the playing field for both true believers and skeptics alike. Alexander strongly warns, be careful what you wish for when asking for presidential intervention. Success could set the field of ufology back decades." --George Noory, host of *Coast to Coast AM* While still on active duty in the U.S. Army during the 1980s, Colonel John B. Introduction by Burt Rutan Commentary by Tom Clancy

Aliens and the Antichrist Feb 16 2020 Aliens and the Antichrist is a riveting prophetic Bible commentary highlighting over seven hundred scriptures documenting the existence, relevance, and significance of extraterrestrial life. While unfolding the enigma of extraterrestrial life, learn the facts about the fall of Lucifer and his angelic kingdom that once existed on Earth before Adam and Eve; the rapture of the church; the rise and fall of the Antichrist; the second coming of Christ; and the millennial reign of Christ; the Nephilim human/angel hybrids of Genesis 6 and their relationship with the Antichrist; the realms of heaven and hell; and the origin of dinosaurs, Cro-Magnon, and Neanderthal. Numerous other topics are also touched upon, such as civilizations on Mars and elsewhere in the universe; the unique topic of cosmic salvation; the existence of Atlantis; psychic abilities; astral projection; the existence of ghosts; artificial intelligence; and more. We of Earth are on the verge of the conclusion of an ancient war amid countless beings of unfathomable power—a war that has spanned across the eons, across innumerable galaxies, across dimensions; and it's all coming to an end on this little planet! Soon the world will know that aliens are real, but the truth about their existence is only the beginning. For those interested in receiving the full revelation from the Bible about who they are, where they come from, why they come, and what they want, this is the book to read!

Aliens in America Apr 19 2020 Discusses the social and political implications of widespread belief in unidentified flying objects, extraterrestrials, and government cover-ups, and considers what they reveal in a culture of mass media and conflicting evidence.

Abducted Jan 17 2020 Clancy argues that abductees are sane, intelligent people who have unwittingly created vivid false memories from a mélange of nightmares, culturally available texts, and a drive for meaning that science is unable to satisfy. This book is not only a subtle exploration of the workings of memory, but a sensitive inquiry into the nature of belief.

Icons and Aliens Feb 10 2022 In Icons and Aliens, John Costonis looks at such pairings and probes why they evoke outrage, why the outraged seek the protection of the legal system to prevent the pairings, and what the law can - and cannot - do in response. Bridging the fields of law and design, Costonis discards conventional rationales for aesthetics policymaking in favor of a compelling account of the psychological forces driving America's support for historic preservation, neighborhood conservation, and environmentalism. Numerous New Yorker cartoons and black-and-white photographs accompany the text, depicting the strength and foibles of legal aesthetics.

Aliens in the Backyard Jul 03 2021 Aliens live among us. Thousands of species of nonnative flora and fauna have taken up residence within U.S. borders. Our lawns sprout African grasses, our roadsides flower with European weeds, and our homes harbor Asian, European, and African pests. Misguided enthusiasts deliberately introduced carp, kudzu, and starlings. And the American cowboy spread such alien life forms as cows, horses, tumbleweed, and anthrax, supplanting and supplementing the often unexpected ways "Native" Americans influenced the environment. Aliens in the Backyard recounts the origins and impacts of these and other nonindigenous species on our environment and pays overdue tribute to the resolve of nature to survive in the face of challenge and

change. In considering the new home that imported species have made for themselves on the continent, John Leland departs from those environmentalists who universally decry the invasion of outsiders. Instead Leland finds that uncovering stories of alien arrivals and assimilation is a more intriguing—and ultimately more beneficial—endeavor. Mixing natural history with engaging anecdotes, Leland cuts through problematic myths coloring our grasp of the natural world and suggests that how these alien species have reshaped our landscape is now as much a part of our shared heritage as tales of our presidents and politics. Simultaneously he poses questions about which of our accepted icons are truly American (not apple pie or Kentucky bluegrass; not Idaho potatoes or Boston ivy). Leland's ode to survival reveals how plant and animal immigrants have made the country as much an environmental melting pot as its famed melding of human cultures, and he invites us to reconsider what it means to be American.

Flying Saucer to the Center of Your Mind: Selected Writings of John A. Keel Mar 31 2021 New Saucerian proudly presents "Flying Saucer to the Center of Your Mind," a collection of magazine articles and lectures by John Keel, the man many consider to have been the 20th Century's premiere investigator of all things unusual and "Fortean." Many of the articles in this anthology and its companion volumes, "The Outer Limits of the Twilight Zone" and "Searching For the String," were revolutionary, and explored ideas popularized in Keel's classic books. Written in Keel's engaging trademark style, they are sure to delight fans with their fresh, unparalleled insights into the nature of reality. In these pages, John Keel displays the keen observational skills and investigative tenacity that made him the enfant terrible of ufology for decades. In this no-holds-barred analysis - some of which was written almost 50 years ago - Keel shreds most of the sacred-cow beliefs still held by many in ufological and "cryptozoological" circles today, presenting theories so radical that they are only now becoming accepted: the "4-D" or "interdimensional" thesis; the "breakaway civilization" theory; the possible role of "ancient aliens" in human history; the synthetic and/or hallucinatory nature of many "alien abduction" and "Men in Black" encounters; the role of spy agencies in paranormal research; and the alarming connection between UFOs, animal mutilations, and attacks on unsuspecting humans. In short, "Flying Saucer to the Center of Your Mind" is witty, incisive, impassioned, and prescient, and cohesively brings Keel's message into focus in a way that perhaps no other book has. This 2013 edition features illuminating forewords by noted writers Gray Barker and Tessa B. Dick (widow of science-fiction writer Philip K. Dick), as well as an introduction by the editor, Andy Colvin (author of "The Mothman's Photographer" and "Mothman Speaks"). "Provides the foundation for a clear view of the phenomenon..." -Kenn Thomas, Steamshovel Press "The consummate cryptozoologist..." -Ron Patton, Paranoia Magazine "Turns Forteana and ufology upside down..." -Doug Skinner, johnkeel.com "The key to unraveling many mysteries..." -Ted Torbich, The Stench of Truth "Far ahead of its time..." -Keith Hansen, Vyzygoth's Grassy Knoll

The Real Cowboys & Aliens Dec 16 2019 When you first saw this book, you probably assumed it was fiction, right? Wrong! As it turns out, America's Old West cowboys did encounter UFOs and also creatures that they believed were "aliens." This happened not in comic books and films but in real life. In this book, you will read actual eyewitness accounts describing strange objects seen in the skies, and, in some cases, the even stranger occupants of those UFOs! Did you know that many years before the reported crash of a UFO near Roswell New Mexico, another weird object fell out of the sky in Aurora, Texas, in 1897? The citizens of Aurora said the dead pilot was "not of this world," and they buried him in the local cemetery, where he may still remain today. You will also learn about the flying alien monster of Crawfordsville, Indiana; the "underwater UFO" that electrocuted two men near Tacoma, Washington; a Bigfoot creature the local Native Americans said came to earth in a "small moon;" a UFO that exploded over a Texas cotton gin; and many other bizarre UFO encounters of the Old West!

Year Zero Mar 11 2022 NEW YORK TIMES BESTSELLER Low-level entertainment lawyer Nick Carter thinks it's a prank, not an alien encounter, when a redheaded mullah and a curvaceous nun show up at his office. But Frampton and Carly are highly advanced (if bumbling) extraterrestrials. The entire cosmos, they tell him, has been hopelessly hooked on American pop songs ever since "Year Zero" (1977 to us), resulting in the biggest copyright violation since the Big Bang and bankrupting the whole universe. Nick has just been tapped to clean up this mess before things get ugly. Thankfully, this unlikely galaxy-hopping hero does know a thing or two about copyright law. Now, with Carly and Frampton as his guides, Nick has forty-eight hours to save humanity—while hoping to wow the hot girl who lives down the hall from him.

Alien Incident Jan 09 2022 John Trentwood, philosophy teacher becomes unwittingly involved in a UFO cult. He later lands on a parallel planet called Death, becomes a Dragon-slayer, and wishes to get back to his regular planet Earth.
