Asian Interventions in Global Shakespeare Apr 19 2020 This volume critically analyses and theorises Asian interventions in the expanding phenomenon of Global Shakespeare. It interrogates Shakespeare's 'universality' from Asian perspectives: how this has been modified or even replaced by the 'global bard' as a recognisable brand, and how Asian Shakespeares have contributed to or subverted this process by both facilitating the worldwide dissemination of the bard's plays and challenging and resisting the very templates through which they become globally legible. Critically acclaimed Asian productions have prominently figured at premier Western festivals, and popular Asian appropriations like Bollywood, manga and anime have created new kinds of globally accessible Shakespeare. Essays in this collection engage with the emergent critical issues: the efficacy of definitions of the 'local', 'global', 'transnational' and 'cosmopolitan' and of the liminalities and mobilities in between. They further examine the politics of 'West' and 'East', the evolving markers of the 'Asian' and the equation of the 'glocal' with the 'Asian'; they attend to performance and archiving protocols and bring the current debates on translation, appropriation, and world literature to speak to the concerns of global and transnational Shakespeare. These investigations analyse recent innovative Asian theatre productions, popular cinematic and manga appropriations and the increasing presence of Shakespeare in the Asian digital sphere. They provide an Asian standpoint and lens in rereading the processes of cultural globalisation and the mobilisation of Shakespeare.

Romance on a Global Stage Aug 16 2022 By the year 2000 more than 350 Internet agencies were plying the email-order marriage trade, and the business of matching up mostly Western men with women from Asia, Eastern Europe, and Latin America had become an example of globalization writ large. This provocative work opens a window onto the complex motivations and experiences of the people behind the stereotypes and misconceptions that have exploded along with the practice of transnational courtship and marriage. Combining extensive Internet ethnography and face-to-face fieldwork, *Romance on a Global Stage* looks at the intimate realities of Filipinas, Chinese women, and U.S. men corresponding in hopes of finding a suitable marriage partner. Through the experiences of those engaged in pen pal relationships—their stories of love, romance, migration, and long-distance dating—this book conveys the richness and dignity of women's and men's choices without reducing these correspondents to calculating opportunists or naive romantics. Attentive to the structural, cultural, and personal factors that prompt women and men to seek marriage partners abroad, *Romance on a Global Stage* questions the dichotomies so frequently drawn between structure and agency, and between global and local levels of analysis.

Kurdistan on the Global Stage Aug 24 2020 Anthropologist Diane E. King has written about everyday life in the Kurdistan Region of Iraq, which covers much of the area long known as Iraqi Kurdistan. Following the overthrow of Saddam Hussein's Ba'athist Iraqi government by the United States and its allies in 2003, Kurdistan became a recognized part of the federal Iraqi system. The Region is now integrated through technology, media, and migration to the rest of the world. Focusing on household life in Kurdistan's towns and villages, King explores the ways that residents connect socially, particularly through patron-client relationships and as people belonging to gendered categories. She emphasizes that patrilineages (male ancestral lines) seem well adapted to the Middle Eastern modern stage and viceversa. The idea of patrilineal descent influences the meaning of refuge-seeking and migration as well as how identity and place are understood, how women and men interact, and how "politicking" is conducted. In the new Kurdistan, old values may be maintained, reformulated, or questioned. King offers a sensitive interpretation of the challenges resulting from the intersection of tradition with modernity. Honor killings still occur when males believe their female relatives have dishonored their families, and female genital cutting endures. Yet, this is a region where modern technology has spread and seemingly everyone has a mobile phone. Households may have a startling combination of illiterate older women and educated young women. New ideas about citizenship coexist with older forms of patronage. King is one of the very few scholars who conducted research in Iraq under extremely difficult conditions during the Saddam Hussein regime. How she was able to work in the midst of danger and in the wake of genocide is woven throughout the stories she tells. Kurdistan on the

Global Stage serves as a lesson in field research as well as a valuable ethnography.

Fundamentals of Global Strategy Oct 14 2019 The globalization of the competitive landscape has forced companies to fundamentally rethink their strategies. Whereas once only a few industries such as oil could be labeled truly global, today many—from pharmaceuticals to aircraft to computers—have become global in scale and scope. As a consequence, creating a global competitive advantage has become a key strategic issue for many companies. Crafting a global strategy requires making decisions about which strategy elements can and should be globalized and to what extent.

[Flamenco on the Global Stage](#) Mar 31 2021 The language of the body is central to the study of flamenco. From the records of the Inquisition, to 16th century literature, to European travel diaries, the Spanish dancer beguiles and fascinates. The word flamenco evokes the image of a sensuous and rebellious woman—the bailaora—whose movements seduce the audience, only to reject their attention with a stomp of defiance. The dancer's body is an agent of ideological resistance, conveying a conflicting desire for subjectivity and autonomy and implying deeply held ideas about history, national identity, femininity and masculinity. This collection of new essays provides an overview of flamenco scholarship, illuminating flamenco's narrative and chronology and addressing some common misconceptions. The contributors offer fresh perspectives on age-old themes and suggest new paradigms for flamenco as a cultural practice. Instructors considering this book for use in a course may request an examination copy [here](#).

Cities on the World Stage Nov 26 2020 Cities are playing an ever more important role in the mitigation and adaptation to climate change. This book examines the politics shaping whether, how and to what extent cities engage in global climate governance. By studying the C40 Cities Climate Leadership Group, and drawing on scholarship from international relations, social movements, global governance and field theory, the book introduces a theory of global urban governance fields. This theory links observed increases in city engagement and coordination

to the convergence of C40 cities around particular ways of understanding and enforcing climate governance. The collective capacity of cities to produce effective and socially equitable global climate governance is also analysed. Highlighting the constraints facing city networks and the potential pitfalls associated with a city-driven global response, this assessment of the transformative potential of cities will be of great interest to researchers, graduate students and policymakers in global environmental politics and policy.

Beauty Queens on the Global Stage May 01 2021 Modern beauty contests were invented by P.T. Barnum in the United States, but in the 20th century pageants and contests have spread across the entire world from Nepal to Tierra Del Fuego. Why are women (and sometimes men in drag) parading on stage such a universally appealing spectacle, attracting an audience in the billions? This book is the first global comparison of pageants from different parts of the world, at the ways each contest is both intensely local and unique, and simultaneously global and remarkable repetitive. The authors use the latest tools of feminist, ethnographic, and literary scholarship to unpack and interpret one of the greatest and most universal spectacles of modern times.

Brazil on the Global Stage Jun 02 2021 In the past generation, Brazil has risen to become the seventh largest economy and fourth largest democracy in the world. Yet its rise challenges the conventional wisdom that capitalist democracies will necessarily converge to become faithful adherents of a US-led global liberal order. Indeed, Brazil demonstrates that middle powers, even those of a deeply democratic bent, may differ in their views of what democracy means on the global stage and how international relations should be conducted among sovereign nations. This volume explores Brazil's postures on specific aspects of foreign relations, including trade, foreign and environmental policy, humanitarian intervention, nuclear proliferation and South-South relations, among other topics. The authors argue from a variety of perspectives that, even as Brazil seeks greater integration and recognition, it also brings challenges to the status quo that are emblematic of the tensions accompanying the rise to prominence of a number of middle powers in an increasingly multipolar world system.

The Emergence of Brazil to the Global Stage Oct 26 2020 How do discourses about Brazil's emergence as a global actor at the beginning of the twenty-first century reinforce particular temporal and spatial formations that enable the perpetuation of international hierarchies? This volume argues that while the phenomenon of 'emergence' was celebrated as the conquest of more authority for Brazil on the global stage, especially as Brazil was presented as a leader of developing countries, discourses about Brazil as an actor who was finally arriving at its promised future as a global player were also perpetuating a spatiotemporal structure that continues to reward some societies and individuals at the expense of many others. Brazil's success or failure has depended from the beginning on how well it would perform its pre-determined role as a newly relevant or emergent 'global player'. Power and empowerment have been conceptualized in a way that discursively inhibits any form of escape from the temporal and spatial confines of a world order marked by geopolitical and geoeconomic competition. The book can be seen as an initial step towards an exploration of alternative forms of thinking, doing, and being, temporally and spatially, that are not

limited to the competition among states for geopolitical status in the international system. This work will be of great interest to students and scholars of critical international relations, international politics and Latin American studies.

The Global Stage: Selections From New Left Review 1 Sep 17 2022
Minority Theatre on the Global Stage Dec 28 2020 All over the world, in the most varied contexts, contemporary theatre is a rich source for increasing the visibility of communities generally perceived by others as minorities, or those who see themselves as such. Whether of a linguistic, ethnic, political, social, cultural or sexual nature, the claims of minorities enjoy a privileged medium in theatre. Perhaps it is because theatre itself is linked to the notions of centre and periphery, conformism and marginality, domination and subjugation - notions that minority theatre constantly examines by staging them - that it is so sensitive to the issues of troubled and conflicted identity and able to give them a universal resonance. Among the questions raised by this volume, is that of the relationship between the particular and the more general aims of this type of theatre. How is it possible to speak to everyone, or at least to the majority, when one is representing the voice of the few? Beyond such considerations, urgent critical examination of the function and aims of minority theatre is needed. To what kind of public is such drama addressed? Does it have an exemplary nature? How is it possible to avoid the pitfalls and the dead end of ghettoization? Certain types of audience-specific theatre are examined in this context, as, for example, theatre as therapy, theatre as an educational tool, and gay theatre. Particular attention is paid to the claims of minorities within culturally and economically dominant western countries. These are some of the avenues explored by this volume which aims to answer fundamental questions

such as: What is minority theatre and why does theatre, a supposedly bourgeois, if not to say elitist, art form, have such affinity with the margins? What if, particularly in contemporary society, the theatre as a form, were merely playing out its fundamentally marginal status? The authors of these essays show how different forms of minority theatre can challenge cultural consensus and homogenization, while also aspiring to universality. They also address the central question of the place and status of apparently marginal forms of theatre in the context of globalization and in doing so re-examine theatre itself as a genre. Not only do they illustrate how minority theatre can challenge the dominant paradigms that govern society, but they also suggest their own more flexible and challenging frameworks for theatrical activity.

Global Changes - Local Stages Dec 16 2019 Global Changes - Local Stages investigates the relationships between what happened the last twenty years on the 'world stage' and how theatre life developed on the local level. The subject has been approached from three different angles, each covered by one part of the book: "The Effects of Social Changes on Theatre Fields", "Values in Theatre Politics" and "Localization of Theatrical Values". The group of authors tries to find the links between these three areas. The book profits from the fact that the authors come from two sides of the former 'Wall'. Twenty years after its fall, the transitional processes in countries of the former 'Eastern Bloc' can be compared, not only mutually, but also with the changes in the Western part of Europe. With its 537 pages Global Changes - Local Stages is the most extensive research of the possible relationships between cultural change, theatre politics and theatre life in smaller European countries.
