Research Paper (postgraduate) from the year 2020 in the subject Leadership and Human Resources - Leadership, , language: English, abstract: The purpose of this research is to explain the effect of the current pandemic on employee retention and, also, to evaluate the performance of the management and human resource development. This business report has been prepared and focused only on three strategic management theories that can be employed in order to minimize employee turnover during these unprecedented times. The main objective being targeted in this research is to assess how to ensure that employees are contributing efficiently and effectively to organizational goals through a virtual workplace and the techniques that the human resource department can employ in order to keep workers motivated and loyal to the organization. The project

discusses the use of motivation theories such as Maslow's hierarchy of needs, EVP; Resource based view and achievement of socio political goals of a corporation. "A valuable contribution to the existing literature on Anglo-American relations in general and on the International Relations of the Middle East in the 1950s in particular. The 'special relationship' between Britain and the United States has been a persistent theme in public discourse since the Second World War but it is rarely treated with analytical rigour. It is refreshing therefore to come across a critical and unsentimental account of how this relationship works out in practice." Avi Shlaim, St. Antony's, Oxford --

This edited volume explores Canada's foreign policy relationship with the Palestinians and broader Middle East Peace Process (MEPP). Canada was intensively involved from 1992 to 2000 in peacebuilding as a mediator in the multilateral part of the MEPP, as chair of the Refugee Working

Group, and sponsor of Track II negotiations. This all changed after a significant mid-2000s discursive and policy shift when Canada withdrew from the politics of Israel-Palestine peacebuilding and took a strong partisan stance in favour of Israel. Through 10 chapters by current and former government insiders and academics with extensive field experience, this unique edited volume offers insight into decades of evolution in Canadian policy toward the Palestinians, MEPP and the Middle East. It arrives at an important time when the international community is reconsidering how it views Israel's entrenched occupation of the Palestinians, after three failed decades of United States-led efforts to find peace through a negotiated two-state model. Today, peace may never have appeared further away after the Trump Administration adopted policies directly contradictory to the MEPP. This proved a test to Canada's own official policy toward Israel and Palestine, its longest running and most important region of engagement in the Middle East. The chapters were originally published as a special issue of the Canadian Foreign Policy Journal, guest edited by Jeremy Wildeman and Emma Swan. A series that looks at the key countries involved in the breaking news stories in the volatile region of the Middle East. The history of the Middle East is examined to explain how the region has developed over the last century, and to explore the causes of conflicts. It includes maps, charts, and images to help illustrate the content. The Committee's report examines the eighth annual report by the Foreign

and Commonwealth Office ('Human Rights Annual Report 2005', Cm. 6606, ISBN 0101660626) published in July 2005. Issues discussed include: the international legal framework and the work of international institutions; the war against terrorism and treatment of detainees in Guantanamo Bay, extraordinary rendition and the use of information derived from torture, the situation in Iraq and the trial of Saddam Hussein; the arms trade and military assistance, and corporate social responsibility; and states of concern. The Committee welcomes the report as making a substantial contribution to the transparency and visibility of the Government's work on human rights matters. However, concerns are raised over the fact that the Minister responsible for human rights issues is also the Minister of State for Trade, roles which are often contradictory. The decision to subsume human rights work into the more general category of sustainable development is also criticised, since it would suggest that human rights issues are not being given sufficient strategic priority within UK foreign policy. This book focuses on range and intensity of social changes that have occurred in the Middle East, examining specific issues important to an understanding of contemporary Middle Eastern politics, up to and including events in the twenty-first century. Using a case study approach, Kay explores Canada's response to key issues such as the recognition of the new state of Israel, the status of Jerusalem, the Palestinian refugee problem, arms sales to Israel,

particularly the sale of F-86s in 1956, and the Suez war. He also provides a thorough account of domestic politics in Canada that influenced foreign policy and the effectiveness of pro-Israeli lobby groups in influencing policy decisions. Kay concludes that although Canada was a major middle power in terms of its policy towards Israel, the government tended to defer to the policy positions of greater powers, such as the United States and Britain, but maintained an independent mediatory role that was instrumental in quelling a prospective global conflagration, as witnessed during the Sinai-Suez crisis and its aftermath. *The Diplomacy of Prudence* brings new insights to the study of Canadian foreign policy during Canada's coming of age as an international force. The Liberty Incident Revealed is the complete and final story about the Israeli Air Force and Navy attack on the USS Liberty during the Six Day War in June 1967. Cutting through all of the controversy and conspiracy theories about Israel's deadly attack, Cristol revises his well-regarded book about the event with an expanded and in-depth analysis of all of the sources, including the released tapes of the National Security Agency (NSA) intercepts. When Cristol's first book on the subject, The Liberty Incident, was published in 2002, there remained many unanswered questions about Israeli Air Force audio tapes. The NSA intercepts tapes had not yet been released in 2002. Some conspiracy theorists alleged the NSA tapes would prove that the Israeli attack was premeditated. Cristol's successful Freedom of Information Act lawsuit against the

NSA, while resulting in the release of those tapes, has been greeted by anti-Israel sources insisting that the NSA tapes are fraudulent and are part of a larger conspiracy to deceive the American public. After a quarter of a century of intensive research in both Israel and the U.S., researching all relevant archives from NSA, CIA and the State Department, reviewing both formerly classified and open source documents, and interviewing all then-living individuals directly involved in the incident, the factual and documentary record is clear. Cristol maintains that despite the fact that all of the official records and transcripts are now available for review, the truth has proven to be of no interest to those individuals and organizations who are motivated by hidden agendas, wish to keep conspiracy theories alive, or are trying to feed sensational stories to the media. Documenting his findings in six new chapters, Cristol establishes definitively that the Israeli attack was a tragic mistake and presents a convincing argument that will be regarded as the final chapter in the long-simmering debate about this incident. The fourth edition of Marilyn Friend's *Special Education: Contemporary Perspectives for School Professionals* gives the most authentic, current, research-based introductory account on the field of special education to date. Advocating real teachers, real families and students, real classrooms, and real research, this comprehensive resource emphasizes contemporary concepts and evidence-based practices that prepare teachers and other education professionals for their evolving

roles in education and the well-being of students with disabilities. Combining current research with practical information, the text offers structure and predictability for novices to the field of special education and for educators working in this challenging age of high standards and accountability. Thoroughly revised and updated and throughout to provide a multi-dimensional view of the field, with a mix of key concepts and immediately applicable information, the new edition emphasizes: the specific disability areas, the historical background and characteristics of special education students, prevalence data, assessment, service delivery, research-based instructional practices, parent perspectives, issues related to the disability area, curriculum access, inclusive practices, professional collaboration, student diversity, RTI, technological advancements, and now the text is written to reach a broader range of professionals working in the field. Because special education is made up of real children and real professionals, the author helps to put a "face" on the field to enliven and authenticate the information for novices. Each chapter features stories of individuals with disabilities, from the parents of children with disabilities, and from professionals who work in the field. In fall 1956, Canadas Lester B. Pearson brought the world back from the brink of war, for which he was awarded the Nobel Prize for Peace. The North Atlantic Treaty Organization (NATO) is a military alliance established by the signing of the North Atlantic Treaty on April 4, 1949. The treaty was signed by Belgium, the Netherlands, Luxemburg, France, United Kingdom, United States, Canada, Portugal, Italy, Norway, Denmark and Iceland. Today there are a total of 26 countries that belong to NATO. This book also covers other related regional organizations with

security responsibilities in Europe and worldwide where they interact with NATO, either currently (e.g. ANZUS, ASEAN, European Union, Organization of African Unity, Organization of American States, Organization on Security and Cooperation in Europe, and United Nations) or in the past (e.g. CENTO, European Defence Community, SEATO, Warsaw Pact, and Western European Union).

Analyzes the ancient Mediterranean and Middle East in social and cultural contexts The Ancient World, 8/e, presents a comprehensive analysis of the cultures and societies of the ancient Mediterranean world from prehistoric times to the rise of Islam. It offers a multi-perspective and integrated chronicle of the history of the ancient world, from Sumer to the fall of Rome. This title challenges purely narrative accounts of the ancient past, offering in-depth

analysis of such key events and institutions as: the origins of agriculture and the rise of urban civilization in the Middle East; household and gender roles in the Middle East, Greece, and Rome; slavery throughout the Mediterranean; and how the Romans built, maintained, and lost their empire. MySearchLab is a part of the Nagle program. Research and writing tools, including access to academic journals, help students understand ancient history in even greater depth. To provide students with flexibility, students can download the eText to a tablet using the free Pearson eText app. The second volume of the official history of the 'Department of External Affairs, Coming of Age' covers a period of remarkable expansion and achievement in the history of Canadian external relations. This edition presents an intensive update of facts, figures and events. It contains extensive discussion of democracy and contains an abundance of visual aids and maps. Handbook of Canadian Foreign Policy is the most comprehensive book of its kind, offering an updated examination of Canada's international role some 15 years after the dismantling of the Berlin Wall ushered in a new era in world politics. Highlighting both well-known and understudied topics, this handbook presents a marriage of the familiar and the underappreciated that enables readers to grasp much of the complexity of current Canadian foreign policy and appreciate the challenges policymakers must meet in the early 21st century. Sir John Seeley once wrote that the British Empire was acquired in "a fit of

absence of mind." Whatever the truth of this comment, it is certainly arguable that the Empire was dismantled in such a fit. This collection deals with a neglected subject in post-Confederation Canadian history -- the implications to Canada and Canadians of British decolonization and the end of empire. *Canada and the End of Empire* looks at Canadian diplomatic relations with the United Kingdom and the United States, the Suez crisis, the changing economic relationship with Great Britain in the 1950s and 1960s, the role of educational and cultural institutions in maintaining the British connection, the royal tour of 1959, the decision to adopt a new flag in 1964, the efforts to find a formula for repatriating the constitution, the Canadianization of the Royal Canadian Navy, and the attitude of First Nations to the changed nature of the Anglo-Canadian relationship. Historians in Commonwealth countries tend to view the end of British rule from a nationalist perspective. *Canada and the End of Empire* challenges this view and demonstrates the centrality of imperial history in Canadian historiography. An important addition to the growing canon of empire studies and imperial history, this book will be of interest to historians of the Commonwealth, and to scholars and students interested in the relationship between colonialism and nationalism. A longtime bestseller, *Politics and Change in the Middle East* employs a multidisciplinary approach to comprehensively and evenhandedly study the region's past, present, and future. Through politics, economics, culture, and

history, this text offers a rugged analytical framework that familiarizes students with the Middle East and helps them to critically evaluate contemporary developments. Thematically organized, *Politics and Change in the Middle East* introduces students to the primary actors and issues that define the region and its role in world politics. In 1957, Lester Pearson won the Nobel Peace Prize for creating the United Nations Emergency Force during the Suez crisis. The award launched Canada's enthusiasm and reputation for peacekeeping. *Pearson's Peacekeepers* explores the reality behind the rhetoric by offering a detailed account of the UNEF's decade-long effort to keep peace along the Egyptian-Israeli border. While the operation was a tremendous achievement, the UNEF also encountered formidable challenges and problems. This nuanced account of Canada's participation in the UNEF challenges perceived notions of Canadian identity and history and will help Canadians to accurately evaluate international peacekeeping efforts today.
