*Sport and South Asian Diasporas* Aug 20 2022 This original collection demonstrates the importance of sporting practices, spaces and leisure affiliations to understanding issues around identity, (post-) migration, diaspora and transnationalism for global South Asian populations. The chapters provide a critical (re-) examination of the roles that sport plays within and in relation to South Asian groups in the diaspora, and raises a series of pertinent questions regarding the multifarious relationships between sport and South Asianness. The chapters range across a wide variety of disciplines, regions, sports and identifications. They are in conversation with each other while showing the particularity of each diasporic context and relationship to sport. The book encompasses a number of global contexts from the "homeland" (India, Pakistan, Afghanistan) to the diaspora (Fiji, Norway, the US, the UK), and addresses a broad range of sporting contexts, including basketball, boxing, cricket, cycling, field hockey, soccer and golf. The chapters combine a range of qualitative methods, including ethnography, auto-ethnography, participant observation, memoir, interview and textual analysis (film, television and print media). This collection comprises the latest cutting edge research in the field, and will be essential reading for scholars and students both of sport and South Asian diasporas. This book was published as a special issue of South Asian Popular Culture.

Oracle and Open Source Jul 27 2020 Oracle & Open Source is the first book to tie together the commercial world of Oracle and the free-wheeling world of open source software. As this book reveals, these two worlds are not as far apart as they may seem. Today, there are many excellent and freely available software tools that Oracle developers and database administrators can use, at no cost, to improve their own coding productivity and their system's performance. Moreover, many of the finest Oracle developers are now making their source code freely available so their peers can build upon this code base. Oracle Corporation is even porting its RDBMS to Linux and starting to incorporate a growing number of open source tools in the company's own software. Oracle & Open Source describes close to 100 open source tools you can use for Oracle development and database administration, from large and widely known open source systems (like Linux, Perl, Apache, TCL/Tk and Python) to more Oracle-specific tools (like Orasoft, Orac, OracleTool, and OraSnap). You'll learn how to obtain the software and how to adapt it to best advantage. The book abounds with code examples, download and installation instructions, and helpful usage hints. Not only does it tell you how to find and use existing open source code; Oracle & Open Source gives you the details and the motivation to build your own open source contributions and release them to the Oracle community. **Disciple IV** Jul 19 2022 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

*Odes* Jan 01 2021 'Interspersed with acts of breathtaking linguistic daring.' Charlotte Mendelson, Observer Book of the Year Opening with a powerful and tender 'Ode to the Hymen', Sharon Olds uses this age-old poetic form to address many aspects of

herself, in a collection that is centred around the female body and female pleasures, and touches along the way on parts of her own story which will be familiar from earlier works, each episode and memory now burnished by the wisdom and grace of looking back. In such poems as 'Ode to My Sister', 'Ode of Broken Loyalty', 'Ode to My Whiteness', 'Blow Job Ode', 'Ode to the Last 38 Trees in New York City Visible from This Window', Olds treats us to an intimate self-examination that, like all her work, is universal and by turns searing and charming in its honesty. From the early bodily joys and sorrows of her girlhood to the recent deaths of those dearest to her – the 'Sheffield Mountain Ode' for Galway Kinnell is one of the most stunning pieces here – Olds shapes her world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

The Odditorium May 17 2022 'I LOVE THE BOOK... A BRILLIANT READ' Chris Evans, Radio 2 Breakfast Show 'This book, that I approached with caution, turns out to be magnificent. Tested it with the Moondog entry. Passed A+' Danny Baker, Radio 5Live A CELEBRATION OF CURIOSITY AND OBSESSION Step into a world of gloriously unpredictable characters such as Ivor Cutler, Quentin Crisp, Joe Orton, Reginald Bray, Ken Campbell, Screaming Lord Sutch, Sun Ra, Buckminster Fuller, Timothy Leary and Ayn Rand. The Odditorium is a playful re-telling of history, told not through the lens of its victors, but through the fascinating stories of a wealth of individuals who, while lesser-known, are no less remarkable. Throughout its pages you'll learn about the antics and adventures of tricksters, eccentrics, deviants and inventors. While their stories range from heroic failures to great hoaxes, one thing unites them - they all carved their own path through life. Each protagonist exemplifies the human spirit through their dogged determination, willingness to take risks, their unflinching obsession and, often, a good dollop of eccentricity. Learn about Reginald Bray (1879-1939), a Victorian accountant who sent over 30,000 singular objects through the mail, including himself; Muriel Howorth (1886-1971), the housewife who grew giant peanuts using atomic energy; and Elaine Morgan (1920-2013), a journalist who battled a tirade of prejudice to pursue an aquatic-based theory of human evolution,

which is today being championed by David Attenborough. While many of us are content to lead a conventional life, with all of its comfort and security, The Odditorium reminds us of the characters who felt compelled to carve their own path, despite risking ostracism, failure, ridicule and madness. Outsider artists, linguists, scientists, time travellers and architects all feature in The Odditorium, each of whom risked ostracism, ridicule and even madness in pursuit of carving their own esoteric path, changing the world in wonderful ways.
