Robert Louis Stevenson (1850-94) is widely known for his novels *Dr. Jekyll and Mr. Hyde*, *Treasure Island*, and *Kidnapped*. His reputation as a "romantic" writer and children's author, however, reflects only a portion of his literary achievement. This collection of stories features an introduction by Stevenson scholar Barry Menikoff which places Stevenson's writing in a new context. Menikoff argues that Stevenson is misunderstood by academic readers and critics and presents him as a writer whose subjects and methods are clearly modernist. Included in this volume for the first time are versions of the stories "Markheim" and "The Isle of Voices" as they appear in Stevenson's holograph manuscripts, plus his classics *The Suicide Club*, *The Rajah's Diamond*, "The Bottle Imp,"

"The Pavilion on the Links," "A Lodging for the Night," "The Merry Men," and "Thrawn Janet." This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. This allows us to preserve the book accurately and present it in the way the author intended. Since the original versions are generally quite old, there may occasionally be certain imperfections within these reproductions. We're happy to make these classics available again for future generations to enjoy! As the number of community pools and waterparks grows nationwide, participation in aquatic activities is also growing. Lifeguards must receive proper and effective training, and maintain their skills to ensure their ability to work effective with others as a part of a lifeguard team. This is the first of two volumes that together provide an integrated picture of the Montenegrin Adriatic coast, presenting the natural components of the system as well as the chemical composition and chemical processes in the extended area. This book describes the biology and ecology of the high seas of the Montenegrin coast, with a special focus on their biodiversity, flora and fauna, fisheries, mariculture, marine reptiles and mammals. The data has been collected through national and international projects over the last few decades and provides the reader with models and recommendations for the protection of this vital region of the Adriatic coast, as well as scientific recommendations for the sustainable use of its biological resources. Given the breadth and depth of its coverage, the book offers an invaluable source of information for researchers, students and environmental managers alike.

A practical and delicious field guide to cooking and healing with adaptogens from wellness expert and former chef Amanda Chantal Bacon, founder of Moon Juice and author of *The Moon Juice Cookbook* In *The Moon Juice Manual*, Amanda Chantal Bacon lays out the blueprint for the next level of mind-body health. This is the quintessential guide to adaptogens, the stress-busting super-herbs and -mushrooms that Bacon introduced to the wellness world with her cult-followed Moon Dust collection. As the name suggests, adaptogens are plants

that can help us adapt to and protect ourselves from the daily stress of modern life. From cordyceps (a mushroom to elevate energy and libido) to ashwagandha (a shrub to tame anxiety and reduce inflammation), adaptogens are a powerful, edible antidote to today's stressed-out, high-speed world. A plant-fueled survival guide to modern life, *The Moon Juice Manual* explains the way chronic stress impacts the mind and body and provides simple and delicious ways to incorporate adaptogens into daily life. The book offers prescriptive recommendations and functional recipes for optimizing beauty, brain, spirit, sex, sleep, or mood. Readers will understand how to make grain-free and practical recipes with adaptogens along with easy, decadent treats like Horny Goat Weed Brownies and Schisandra Sleeping Beauty Balls. *The Moon Juice Manual* makes cooking and healing with adaptogens fun, approachable, and truly transformative.

Illustrated with antique pictures by some well-known children's book illustrators. Vols. for 1871-76, 1913-14 include an extra number, The Christmas bookseller, separately paged and not included in the consecutive numbering of the regular series. Originating from the age-old belief that water springing from the depths was endowed with healing properties, spas, which first blossomed in the West during the heyday of the Roman Empire, again gained importance and fame in the 18th and 19th centuries, as the increasing medicalisation of thermal water drew crowds to the best-sited or best-organised watering places of European economically developed countries. As, in most cases, none but the social elites could afford to spend time and money in such spots, investment followed, both in terms of architecture and of leisure, since visitors, after having been convinced by their physicians, high society journals or word of mouth, had to be kept happy as well as made fit. Simultaneously competition grew as spas vied for patronage, both within national borders and across Europe, the alleged quality of their waters being flaunted in the jingoistic battles of words which served as forerunners to the grislier actions of WW1. Being the major lieus of high society leisure and pleasure, spas underwent the same decline as the prewar moneyed classes which patronized them and lost ground, both to

more exotic destinations and to seaside resorts, which, likewise, promoted health and well-being, but in a less elitist environment and at a cheaper price.

Thalassotherapy, grafting on the success of the latter and making much of the relaxation and physical fitness derived from natural elements such as seawater or seaweeds, is the latest avatar of that long story which the papers of the conference held in Brest (France) in May 2005 here purport to tell. Doing research can make all the difference between a great design and a good design. By engaging in competitive intelligence, customer profiling, color and trend forecasting, etc., designers are able to bring something to the table that reflects a commercial value for the client beyond a well-crafted logo or brochure. Although scientific and analytical in nature, research is the basis of all good design work. This book provides a comprehensive manual for designers on what design research is, why it is necessary, how to do research, and how to apply it to design work. Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with

the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact

us directly to enquire about our tailored bulk rates.
