In this entertaining and engaging book, ace naming consultant Alexandra Watkins explains how anyone—even noncreative types—can create memorable and buzz-worthy brand names. No degree in linguistics required. The heart of the book is Watkins's proven SMILE and SCRATCH Test—two acronyms for what makes or breaks a name. **The Brand Gap, Revised Edition** Jan 18 2020 THE BRAND GAP is the first book to present a unified theory of brand-building. Whereas most books on branding are weighted toward either a strategic or creative approach, this book shows how both ways of thinking can unite to produce a “charismatic brand”—a brand that customers feel is essential to their lives. In an entertaining two-hour read you'll learn: • the new definition of brand • the five essential disciplines of brand-building • how

branding is changing the dynamics of competition • the three most powerful questions to ask about any brand • why collaboration is the key to brand-building • how design determines a customer's experience • how to test brand concepts quickly and cheaply • the importance of managing brands from the inside • 220-word brand glossary From the back cover: Not since McLuhan's THE MEDIUM IS THE MESSAGE has a book compressed so many ideas into so few pages. Using the visual language of the boardroom, Neumeier presents the first unified theory of branding—a set of five disciplines to help companies bridge the gap between brand strategy and customer experience. Those with a grasp of branding will be inspired by the new perspectives they find here, and those who would like to understand it better will suddenly “get it.” This deceptively simple book offers everyone in the company access to “the most powerful business tool since the spreadsheet.”
