Piranesi Jan 18 2022 New York Times Bestseller Winner of the

Women's Prize for Fiction World Fantasy Awards Finalist From the New York Times bestselling author of *Jonathan Strange & Mr Norrell*, an intoxicating, hypnotic new novel set in a dreamlike alternative reality. Piranesi's house is no ordinary building: its rooms are infinite, its corridors endless, its walls are lined with thousands upon thousands of statues, each one different from all the others. Within the labyrinth of halls an ocean is imprisoned; waves thunder up staircases, rooms are flooded in an instant. But Piranesi is not afraid; he understands the tides as he understands the pattern of the labyrinth itself. He lives to explore the house. There is one other person in the house—a man called The Other, who visits Piranesi twice a week and asks for help with research into A Great and Secret Knowledge. But as Piranesi explores, evidence emerges of another person, and a terrible truth begins to unravel, revealing a world beyond the one Piranesi has always known. For readers of Neil Gaiman's *The Ocean at the End of the Lane* and fans of Madeline Miller's *Circe*, Piranesi introduces an astonishing new world, an infinite labyrinth, full of startling images and surreal beauty, haunted by the tides and the clouds.

Susanna Wesley and the Puritan Tradition in Methodism Jul 12 2021
Susanna Wesley, who made such a profound impression on her son John, was a fascinating and many-sided character in her own right. She was a Puritan, an Anglican, a Methodist - at once a mystic and a superbly practical mother and homebuilder. This study offers a detailed exploration of her Puritan background, sees it as the key to her character, and uses it to illuminate the Methodism of which she has justly been termed the Mother.

A Most Unusual Duke Dec 05 2020 Bridgerton meets New Moon in this sparkling shapeshifter Regency romance mixed with humor, steamy chemistry, and fantasy. The Duke said he'd never get married... The Prince Regent insists his cousin and fellow bear shifter Arthur Humphries, the Duke of Osborn, take a mate to ensure the continuation of their species. After all, Arthur is an Alpha, so he must set a good example. The duke would very much prefer to continue his comfortable bachelor lifestyle, but the Prince Regent is not a bear to be poked.

Beatrice, the widowed Marchioness of Castleton, is in possession of a powerful secret. She knows all about Shifters, her horrible late husband being one of them. At any moment, Beatrice could reveal the secrets of the Prince and those like him—unless the Prince can make sure she marries another Shifter. A marriage between the Duke of Osborn and Beatrice is far from ideal for either one, but at least they won't fall in love...right? Witty, fantastical, and entirely unique, *A Most Unusual Duke* is perfect for readers looking for: A delicious Regency romp with a paranormal twist A devilishly handsome Alpha hero A marriage of convenience A magical world to sink your teeth into Praise for Allen's *A Wolf in Duke's Clothing*: "Sparkling wit, scrumptious chemistry!"—Grace Burrowes, *New York Times* and *USA Today* bestselling author "A playful mix of humor, fantasy, and Regency romance conventions, this genre-bending novel introduces a well-constructed world filled with distinctive and endearing characters."—*Publishers Weekly* "Sparkling dialogue and steamy chemistry...Regency romance meets shape-shifters, to great effect."—*Kirkus Reviews*

Poems on several occasions ... Second edition Jun 30 2020

By Daniel Call. Second Edition ... By J. Tate. 1797(-1818). Apr 08 2021

Blood on the Strand Mar 27 2020 Rebellion is in the air of London in the spring of 1663. Thomas Chaloner, spy for the King's intelligence service, has just returned from thwarting a planned revolt in Dublin, but soon realises that England's capital is no haven of peace. He is ordered to investigate the shooting of a beggar during a royal procession. He soon learns the man is no vagrant, but someone with links to the powerful Company of Barber-Surgeons. His master, the Earl of Clarendon, is locked in a deadly feud with the Earl of Bristol, and an innocent man is about to be hanged in Newgate. Chaloner is embroiled in a desperate race against time to protect Clarendon, to discover the true identity of the beggar's murderer, and to save a blameless man from the executioner's noose.

Roughing it in the Bush, Or, Life in Canada Jan 24 2020

Doing Media Research Aug 25 2022 Comprehensive and comprehensible, *Doing Media Research* is an accessible introduction to

both qualitative and quantitative methods in media communication. Written in a straightforward and engaging style, this text takes the student through media research step-by-step. In order to provide students with a thorough understanding of the purpose and theories behind the various methodological approaches, the text is divided into four distinct sections: Part One lays out the foundations to each approach, Part Two describes the types of research questions and data collection required, Part Three details a range of quantitative approaches, and Part Four examines qualitative methods. Author Susanna Priest concludes with a discussion of special considerations for current media research including the feminist contribution, international and intercultural perspectives and new media technology. She also invites the reader to tackle issues such as ethics, objectivity, and the interpretation of data. Useful exercises are provided at the end of each chapter and there is a glossary which defines key terms and concepts.

Seattle Walk Report Jan 06 2021 Instagram sensation Seattle Walk Report uses her distinctive comic style and eagle eye to illustrate the charming and quirky people, places, and things that define Seattle's neighborhoods. Leveraging the growing popularity of Seattle Walk Report on Instagram, this charming book features comic book-style illustrations that celebrate the distinctive and odd people, places, and things that define Seattle's neighborhoods. The book goes deep into the urban jungle, exploring 24 popular Seattle neighborhoods, pulling out history, notable landmarks, and curiosities that make each area so distinctive. Entirely hand-drawn and lettered, Seattle Walk Report will be peppered with fun, slightly interactive elements throughout which make for an engaging armchair read, in addition to a fun way to explore the city's iconic, diverse, hipster, historic, and grand neighborhoods.

Sea Creatures May 10 2021 In *Sea Creatures*, a riveting domestic drama by Susanna Daniel, a mother must make the unthinkable choice between her husband and her son. When Georgia Qullian returns to her hometown of Miami, her toddler and husband in tow, she is hoping for a fresh start. They have left Illinois trailing scandal and disappointment in their wake, fallout from her husband's severe sleep disorder. For months,

their three-year-old son has refused to speak a word. On a whim, Georgia takes a job as an errand runner for a reclusive artist and is surprised at how her life changes dramatically. But soon the family's challenges return, more complicated than before. Late that summer, as a hurricane bears down on South Florida, Georgia must face the fact that her decisions have put her only child in grave danger. *Sea Creatures* is a mesmerizing exploration of the high stakes of marriage and parenthood.

The Angry Earth Jul 24 2022 *The Angry Earth* explores how various cultures in different historical moments have responded to calamity, offering insight into the complex relationship between societies and their environments. From hurricanes, floods, and earthquakes to oil spills and nuclear accidents, disasters triggered by both natural and technological hazards have become increasingly frequent and destructive across the planet. Through case studies drawn from around the globe the contributors to this volume examine issues ranging from the social and political factors that set the stage for disaster, to the cultural processes experienced by survivors, to the long-term impact of disasters on culture and society. In the second edition, each chapter has been updated with a postscript to reflect on recent developments in the field. There is also new material on key present-day topics including epidemics, drought, non-governmental organizations, and displacement and resettlement. This book demonstrates the relevance of studying disaster from an anthropological perspective and is a valuable resource not only for anthropologists but for other fields concerned with education, policy and practice.

Discrete Mathematics with Applications Feb 28 2023 Known for its accessible, precise approach, Epp's DISCRETE MATHEMATICS WITH APPLICATIONS, 5th Edition, introduces discrete mathematics with clarity and precision. Coverage emphasizes the major themes of discrete mathematics as well as the reasoning that underlies mathematical thought. Students learn to think abstractly as they study the ideas of logic and proof. While learning about logic circuits and computer addition, algorithm analysis, recursive thinking, computability, automata, cryptography and combinatorics, students discover that ideas of discrete

mathematics underlie and are essential to today's science and technology. The author's emphasis on reasoning provides a foundation for computer science and upper-level mathematics courses. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Aeneid May 22 2022 The first comprehensive history of seventeenth-century London, told through the lives of those who experienced it The Gunpowder Plot, the Civil Wars, Charles I's execution, the Plague, the Great Fire, the Restoration, and then the Glorious Revolution: the seventeenth century was one of the most momentous times in the history of Britain, and Londoners took center stage. In this fascinating account, Margarett Lincoln charts the impact of national events on an ever-growing citizenry with its love of pageantry, spectacle, and enterprise. Lincoln looks at how religious, political, and financial tensions were fomented by commercial ambition, expansion, and hardship. In addition to events at court and parliament, she evokes the remarkable figures of the period, including Shakespeare, Bacon, Pepys, and Newton, and draws on diaries, letters, and wills to trace the untold stories of ordinary Londoners. Through their eyes, we see how the nation emerged from a turbulent century poised to become a great maritime power with London at its heart—the greatest city of its time.

Toxic Cyanobacteria in Water Mar 08 2021 Cyanobacterial toxins are among the hazardous substances most widely found in water. They occur naturally, but concentrations hazardous to human health are usually due to human activity. Therefore, to protect human health, managing lakes, reservoirs and rivers to prevent cyanobacterial blooms is critical. This second edition of Toxic Cyanobacteria in Water presents the current state of knowledge on the occurrence of cyanobacteria and cyanotoxins as well as their impacts on health through water-related exposure pathways, chiefly drinking-water and recreational activity. It provides scientific and technical background information to support hazard identification, assessment and prioritisation of the risks posed by cyanotoxins, and it outlines approaches for their management at each step of the water-use system. It sets out key practical considerations for

developing management strategies, implementing efficient measures and designing monitoring programmes. This enables stakeholders to evaluate whether there is a health risk from toxic cyanobacteria and to mitigate it with appropriate measures. This book is intended for those working on toxic cyanobacteria with a specific focus on public health protection. It intends to empower professionals from different disciplines to communicate and cooperate for sustainable management of toxic cyanobacteria, including public health workers, ecologists, academics, and catchment and waterbody managers. Ingrid Chorus headed the department for Drinking-Water and Swimming-Pool Hygiene at the German Environment Agency. Martin Welker is a limnologist and microbiologist, currently with bioMérieux in Lyon, France.

Discrete Mathematics: Introduction to Mathematical Reasoning Dec 29 2022 Susanna Epp's DISCRETE MATHEMATICS: AN INTRODUCTION TO MATHEMATICAL REASONING, provides the same clear introduction to discrete mathematics and mathematical reasoning as her highly acclaimed DISCRETE MATHEMATICS WITH APPLICATIONS, but in a compact form that focuses on core topics and omits certain applications usually taught in other courses. The book is appropriate for use in a discrete mathematics course that emphasizes essential topics or in a mathematics major or minor course that serves as a transition to abstract mathematical thinking. The ideas of discrete mathematics underlie and are essential to the science and technology of the computer age. This book offers a synergistic union of the major themes of discrete mathematics together with the reasoning that underlies mathematical thought. Renowned for her lucid, accessible prose, Epp explains complex, abstract concepts with clarity and precision, helping students develop the ability to think abstractly as they study each topic. In doing so, the book provides students with a strong foundation both for computer science and for other upper-level mathematics courses. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[Handbook of Research on School Choice](#) Apr 28 2020 Updated to

reflect the latest developments and increasing scope of school-based options, the second edition of the Handbook of Research on School Choice makes readily available the most rigorous and policy-relevant research on K–12 school choice. This comprehensive research handbook begins with scholarly overviews that explore historical, political, economic, legal, methodological, and international perspectives on school choice. In the following sections, experts examine the research and current state of common forms of school choice: charter schools, school vouchers, and magnet schools. The concluding section brings together perspectives on other key topics such as accountability, tax credit scholarships, parent decision-making, and marginalized students. With empirical perspectives on all aspects of this evolving sphere of education, this is a critical resource for researchers, faculty, and students interested in education policy, the politics of education, and educational leadership.

The Firebird Mar 20 2022 Whoever dares to seek the firebird may find the journey—and its ending— unexpected. Nicola Marter was born with a gift. When she touches an object, she sometimes sees images, glimpses of those who have owned it before. It's never been a gift she wants, and she keeps it a secret from most people, including her practical boss Sebastian, one of London's premier dealers in Russian art. But when a woman offers Sebastian a small wooden carving for sale, claiming it belonged to Russia's Empress Catherine, it's a problem. There's no proof. Sebastian believes that the plain carving—known as "The Firebird"—is worthless. But Nicola has held it, and she knows the woman is telling the truth and is in desperate need of the money the sale of the heirloom could bring. Compelled to help, Nicola turns to a man she once left and still loves: Rob McMorrان, whose own psychic gifts are far greater than hers. With Rob to help her "see" the past, she follows a young girl named Anna from Scotland to Belgium and on into Russia. There, in St. Petersburg—the once-glittering capital of Peter the Great's Russia—Nicola and Rob unearth a tale of love and sacrifice, of courage and redemption . . . an old story that seems personal and small, perhaps, against the greater backdrops of the Jacobite and Russian courts, but

one that will forever change their lives.

Encyclopedia of Modern Ethnic Conflicts, 2nd Edition [2 volumes] Apr 20 2022 An indispensable reference that will help students understand the major ethnic conflicts that dominate the headlines and shape the modern world. • Presents comprehensive coverage of ethnic conflicts that enables readers to comprehend recent events around the world • Contains updates and revisions to the first edition and new entries on more current conflicts • Features cases that are both relevant and topical, covering the vast majority of the conflicts that are spilling blood, affecting policies, and shaping the contemporary world • Includes primary documents that support the text, allowing students to use hard evidence in their research • Supports the National Geography Standards by examining cultural mosaics and conflict

Governance and Christian Higher Education in the African Context Nov 03 2020 Integrity, pastoral care and authority lie at the heart of Christian leadership and indeed, following Jesus in any capacity, and they are also critical in state governance and Christian higher education. The articles in this book, the product of the 2017 conference of the Africa Society of Evangelical Theology, address these themes and other topics relating to the spheres of government and education in Africa to enhance our understanding of the challenges faced in African contexts. A wide range of Christian scholar-leaders provide a way forward for other church and institutional leaders who are seeking to faithfully fulfill their responsibilities of stewardship and instruction. Corruption, civil disobedience, good governance and formation of Christian leaders are matters that are becoming increasingly relevant not only in many African countries but across the world, and this book is a valuable resource for thoughtful reflection and guidance on these important subjects.

Plantagenet Ancestry: A Study In Colonial And Medieval Families, 2nd Edition, 2011 Feb 04 2021

The Text of the Hebrew Bible and Its Editions Jun 10 2021 This book presents a series of essays on the past, present, and future of editions of the Hebrew Bible and its versions celebrating the Fifth Centennial of the Complutensian Polyglot as a landmark in the trajectory

of biblical scholarship..

Student Solutions Manual and Study Guide, Discrete Mathematics with Applications Aug 13 2021 A solutions manual designed to accompany the fourth edition of the text, Discrete mathematics with applications, by Susanna S. Epp. It contains complete solutions to every third exercise in the text that is not fully answered in the appendix of the text itself.

Additional review material is also provided

Student Solutions Manual and Study Guide for Epp's Discrete Mathematics: Introduction to Mathematical Reasoning Nov 15 2021

Charlotte Temple and Lucy Temple Oct 22 2019 Rowson's tale of a young girl who elopes to the United States only to be abandoned by her fiance was once the bestselling novel in American literary history. This edition also includes *Lucy Temple*, the fascinating story of Charlotte's orphaned daughter.

Teddy Bears Stay Indoors Jun 22 2022 The five Teddy Bears amuse themselves on a rainy day playing that they go into space and, mostly, eating.

Sonography Exam Review: Physics, Abdomen, Obstetrics and Gynecology Oct 27 2022 Be confident that you can answer any and all questions on your registry exams correctly when you prepare with this complete review. Mosby's Comprehensive Review for General Sonography Examinations provides study resources for all three main exams required for general ultrasound practice: physics, abdomen, and ob/gyn. Each chapter is arranged in table and outline format with 50 review questions at the end of the chapter and a mock exam at the end of each section. Access additional mock exams for each subject area on the companion CD or Evolve site. These exams give you experience with timed test taking in an electronic environment that simulates the actual registry exam experience. With this realistic preview of the exam environment and solid review of the material, you'll be prepared to ace the exams! "...no doubt that this is a worthwhile text which could provide a useful revision platform for sonography students in the UK." Reviewed by Sue Halson-Brown on behalf of RAD Magazine, February 2015

Complete preparation for the three general ARDMS exams (physics, abdomen, and ob/gyn) Content review in outline and tabular format provides a quick review of all the material you need to learn, including key terms, anatomy, functions, scanning techniques, lab values, and pathology. More than 2,500 questions in Registry format cover everything you'll be tested on in the Registry exams. Rationales for answers to mock questions help you understand why an answer is correct or incorrect and increase your comprehension. More than 350 ultrasound scans included in the abdominal and ob/gyn sections prepare you for exam questions that ask you to identify pathology on scans. Color insert with Doppler images of the liver, biliary, and umbilical cord helps you be ready to answer questions related to Doppler imaging. Companion CD provides extra timed, graded mock exams and two entertaining, interactive games: Sonography Millionaire and Tournament of Sonography.

Discrete Mathematics with Applications Jan 30 2023 Author is an alumna of Evanston Township High School, class of 1960.

Helpmates, Harlots, and Heroes, Second Edition Aug 01 2020 This best-selling book, now revised and updated, shares the work of many feminist biblical scholars who have examined women's stories for several years. These stories are powerful accounts of women in the Old Testament--stories that have profoundly affected how women understand themselves as well as men's perception of them. Here, Alice Bellis shares the research of feminist biblical scholarship during a quarter of a century, which renders a vast amount of refreshing, exciting, sometimes disturbing material.

Susanna Wesley Dec 25 2019 Susanna Wesley, long celebrated in Methodist mythology as mother of the movement's founders, now takes place as a practical theologian in her own right. This collection of her letters, spiritual diary, and longer treatises (only one of which was published in her lifetime) shows her to be more than the nurturing mother of Wesleyan legend. It also reveals her to be a well-educated woman in conversation with contemporary theological, philosophical, and literary works. Her quotations and allusions include Locke, Pascal, and Herbert,

as well as a number of now forgotten theologians. In some of her work, one can distinguish doctrinal and spiritual leanings, such as Arminianism and Christian perfection, that would later find wide expression in the spread of Methodism. Further, her writings demonstrate her readiness, for conscience's sake, to stand up to the men in her life--father, husband, and sons---and the three incarnations of English Protestantism they represented: respectively, Puritanism, the Established Church, and the new Methodist movement. Tracing these incidents in her letters and diaries, a reader can begin to understand how spirituality, even an otherwise conservative one in rather restrictive times, can serve to empower the voice of women.

The Broadview Anthology of Poetry - Second Edition Sep 01 2020
Among the poets new to this edition are such leading names as Americans Robert Pinsky, Louise Erdrich and Louise Glück; Britons James Fenton and Carol Ann Duffy; and Canadians Anne Carson, Robert Bringham, and Christian Bök. A number of names who may be new to many readers of poetry are also included among them: Ohioan Debra Allbery, Vancouverite Elise Partridge, and the Cree poet Connie Fife; as with the first edition, the editors have endeavored to include much that is fresh as well as much that is familiar. There are many additions to the selections from poets who appeared in the first edition including selections from the recent work of Leonard Cohen, Les Murray, and Margaret Atwood. As before, the anthology includes work from English-language poets throughout the world from India, Africa, and the Caribbean as well as from Britain, North America, and Australia. Although the selections from the work of poets of earlier eras are largely unchanged from the first edition, there have been some changes; among poems added for this edition are Milton's *L'Allegro and Il Penseroso*, Bradstreet's "Employment," Dickinson's "I cannot live without You," Frost's "Once by the Pacific," and Auden's "Funeral Blues." As before, the text emphasizes work of the past century; poems from 1900 or later take up more than half of the anthology's pages. In its first edition *The Broadview Anthology of Poetry* included biographical information about the poets at the back of the anthology; for the new edition, biographical

material appears in a headnote to each poet. Two other features are also new to this edition: the date of first publication is appended after each poem, and line numbering is used throughout. The numbers have been kept unobtrusive, however; as with the first edition, the designers have endeavored to give a clean look to the pages of the anthology. A substantial section on prosody, figures of speech, and so on is included as an appendix.

Learning and Teaching in Higher Education Oct 15 2021 Around the world, higher education services are challenged by increased numbers and diversity of students, tougher demands for professional accountability, increasing calls for educational relevance and thinning resources. *Learning and Teaching in Higher Education: The Reflective Professional* addresses key issues in the practice and theory of teaching and learning in the sector. The authors draw upon theory, practice and current research to provide a new way of thinking about the many aspects of learning and teaching in higher education, enabling the reader to critically reflect upon their teaching.

Outlines and Highlights for Doing Media Research Sep 25 2022 Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9781412960977 .

Solicitors Disciplinary Tribunal Oct 03 2020 The Solicitors Disciplinary Tribunal (SDT) has the power to strike off a solicitor from the roll, suspend a solicitor from practice, fine or reprimand a solicitor or make such other order as it thinks fit. Whilst over 90% of all cases brought before the SDT are brought by the SRA, it is open to anyone to bring a matter before it. This book provides a unique step-by-step guide to the law and practice of the Solicitors Disciplinary Tribunal, from the issue of proceedings through to appeal. Its practical approach will help anyone who wishes to avoid the common pitfalls faced by unfamiliar users of the Tribunal. It is the only comprehensive book available on SDT proceedings

and it contains all the leading cases on Tribunal proceedings, many of which are not available on the internet, in one handy volume.

Encyclopedia of American Women and Religion, 2nd Edition [2 volumes] Nov 23 2019 This two-volume set examines women's contributions to religious and moral development in America, covering individual women, their faith-related organizations, and women's roles and experiences in the broader social and cultural contexts of their times.

- Introduces readers to hundreds of women who became leaders within various religious faiths and denominations, including many who founded religious sects and organizations
- Provides an understanding of women's developing roles in American religious culture, which continue to the present day
- Enables readers to gain an understanding of the broad range of religions, approaches to religion, and attitudes toward religion in the United States
- Documents how life's experiences can shape one's spiritual life and future development
- Includes a timeline of the issues facing women that marks changing societal attitudes and individual women's accomplishments across history

Colonial Chesapeake Families: British Origins and Descendants 2Nd Edition Sep 13 2021 Colonial Chesapeake Families: British Origins and Descendants Harrison Dwight Cavanagh First edition awarded the Sumner A. Parker Prize by the Maryland Historical Society in 2014. The second edition of this work features all descendants of Thomas Gantt I (b. Bullwick, N. Hants; to Md. 1654; d. Calvert Co. 1692) and Ann Fielder (b. ca. 1662 Hants; d. PG Co. 1726) in the first six to ten generations. Ann Fielder is an important new addition to American colonial GATEWAY ancestors. Her parents, Capt. William Fielder (ca. 1620-1679) of Burrough Court Manor and Marjorie Cole (1628-1699) of Lyss Abbey, Hants, have proven multiple royal and magna carta ancestral lines; sixty extensive British pedigrees are documented in these volumes. The name Fielder has been inherited in multiple generations of the Beall, Belt, Berry, Bowie, Calvert, Clagett, Denwood, Dorsett, Gantt, Jones (Somerset Co.), Parker (Cal. Co.), Smallwood, Smith (Cal. Co.), and Wight (White) Maryland families. In addition, this second edition contains important new research findings on the British origins of the Hatton-

Domville and Brooke-Darnall families, as well as revealing the two lost Ann Bradfords of PG Co. Colonial Chesapeake Families details the pedigrees of eighty-eight families, historical illustrations, portraits, documents, and coats-of-arms (where proven) are included. Publication of these volumes has been subsidized to make them more widely available to the thousands of descendants listed in their pages. And thanks to print on demand, Colonial Chesapeake Families will never go out of print.

A Graphical Approach to Algebra and Trigonometry May 29 2020

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. A Graphical Approach to Algebra and Trigonometry illustrates how the graph of a function can be used to support the solutions of equations and inequalities involving the function. Beginning with linear functions in Chapter 1, the text uses a four-part process to analyze each type of function, starting first with the graph of the function, then the equation, the associated inequality of that equation, and ending with applications. The text covers all of the topics typically caught in a college algebra course, but with an organization that fosters students' understanding of the interrelationships among graphs, equations, and inequalities. With the Fifth Edition, the text continues to evolve as it addresses the changing needs of today's students. Included are additional components to build skills, address critical thinking, solve applications, and apply technology to support traditional algebraic solutions, while maintaining its unique table of contents and functions-based approach. A Graphical Approach to Algebra and Trigonometry continues to incorporate an open design, with helpful features and careful explanations of topics.

Discrete Mathematical Structures for Computer Science Dec 17

2021 This text has been designed as a complete introduction to discrete mathematics, primarily for computer science majors in either a one or two semester course. The topics addressed are of genuine use in computer science, and are presented in a logically coherent fashion. The material has been organized and interrelated to minimize the mass of

definitions and the abstraction of some of the theory. For example, relations and directed graphs are treated as two aspects of the same mathematical idea. Whenever possible each new idea uses previously encountered material, and then developed in such a way that it simplifies the more complex ideas that follow.

Understanding Latin Literature Nov 27 2022 Understanding Latin Literature is a highly accessible, user-friendly work that provides a fresh and illuminating introduction to the most important aspects of Latin prose and poetry. This second edition is heavily revised to reflect recent developments in scholarship, especially in the area of the later reception and reverberations of Latin literature. Chapters are dedicated to Latin writers such as Virgil and Livy and explore how literature related to Roman identity and society. Readers are stimulated and inspired to do their own further reading through engagement with a wide selection of translated extracts and through understanding the different ways in which they can be approached. Central throughout is the theme of the fundamental connections between Latin literature and issues of elite Roman culture. The versatile and accessible structure of Understanding Latin Literature makes it suitable for both individual and class use.

Discrete Mathematics Feb 16 2022 Note: This is the 3rd edition. If you need the 2nd edition for a course you are taking, it can be found as a "other format" on amazon, or by searching its isbn: 1534970746 This gentle introduction to discrete mathematics is written for first and second year math majors, especially those who intend to teach. The text began as a set of lecture notes for the discrete mathematics course at the University of Northern Colorado. This course serves both as an introduction to topics in discrete math and as the "introduction to proof" course for math majors. The course is usually taught with a large amount of student inquiry, and this text is written to help facilitate this. Four main topics are covered: counting, sequences, logic, and graph theory. Along the way proofs are introduced, including proofs by contradiction, proofs by induction, and combinatorial proofs. The book contains over 470 exercises, including 275 with solutions and over 100 with hints. There are also Investigate! activities throughout the text to support active,

inquiry based learning. While there are many fine discrete math textbooks available, this text has the following advantages: It is written to be used in an inquiry rich course. It is written to be used in a course for future math teachers. It is open source, with low cost print editions and free electronic editions. This third edition brings improved exposition, a new section on trees, and a bunch of new and improved exercises. For a complete list of changes, and to view the free electronic version of the text, visit the book's website at discrete.openmathbooks.org

Women from the Parsonage Feb 25 2020 This volume provides a new context for women's writing from the seventeenth through the end of the nineteenth century, highlighting the significant role of the parsonage and the parson himself for women's education in those centuries. Cindy K. Renker and Susanne Bach's collection of essays is the first of its kind on the education, lives, and works of highly accomplished daughters of Protestant clergymen. Since this volume only represents a limited number of women raised and educated in parsonages, it will surely encourage more investigation of other women writers, translators, educators, etc. with similar backgrounds. Moreover, since this book takes a comparative and transnational approach by focusing on different regions of Europe and different centuries. This collection of essays is thus aimed at scholars in multiple fields such as British literature, German studies, gender studies, the history of women's education, and social and cultural history.
