Word Freak Nov 20 2022 This "marvelously absorbing" book is "a walk on the wild side of words and ventures into the zone where language and mathematics intersect" (San Jose Mercury News). A former Wall Street Journal reporter and NPR regular, Stefan Fatsis recounts his remarkable rise through the ranks of elite Scrabble players while exploring the game's strange, potent hold over them—and him. At least thirty million American homes have a Scrabble set—but the game's most talented competitors inhabit a sphere far removed from the masses of "living room players." Theirs is a surprisingly diverse subculture whose stars include a vitamin-popping standup comic; a former bank teller whose intestinal troubles earned him the nickname "G.I. Joel"; a burly, unemployed African American from Baltimore's inner city; the three-time national champion who plays according to Zen principles; and the author himself, who over the course of the book is transformed from a curious reporter to a confirmed Scrabble nut. Fatsis begins by haunting the gritty corner of a Greenwich Village park where pickup Scrabble games can be found whenever weather permits. His curiosity soon morphs into compulsion, as he sets about memorizing thousands of obscure words and fills his evenings with solo Scrabble played on his living room floor. Before long he finds himself at tournaments, socializing—and competing—with Scrabble's elite. But this book is about more than hardcore Scrabblers, for the game yields insights into realms as disparate as linguistics, psychology, and mathematics. *Word Freak* extends its reach even farther, pondering the light Scrabble throws on such notions as brilliance, memory, competition, failure, and hope. It is a geography of obsession that celebrates the uncanny powers locked in all of us, "a can't-put-it-down narrative that dances between memoir and reportage" (Los Angeles Times). "Funny, thoughtful, character-rich, unchallengeably winning writing." —The Atlantic Monthly This edition includes a new afterword by the author.

Mystery at the Masquerade: An M/M Cozy Mystery May 02 2021 Love is in the Salt Sea Air—and So is Murder! Ellery Page, aspiring screenwriter, reigning Scrabble champion, and occasionally clueless owner of the village's only mystery bookstore, the Crow's Nest, is both flattered and bemused when he's invited to the annual Marauder's Masquerade, the best and biggest social event of the season in the quaint seaside village of Pirate's Cove, Rhode Island. The event is hosted by the wealthy Marguerite Bloodworth-Ainsley—a descendant of the famed pirate Tom Blood. Ellery doesn't even know Mrs. Bloodworth-Ainsley—nor, it turns out—does Mrs. Bloodworth-Ainsley know him. But Marguerite's son, Julian wants to know Ellery. Julian, handsome, rich and engaging, is a huge mystery buff. In fact, he's bought quite a few books at the Crow's Nest bookstore, but never quite worked up the nerve to ask Ellery out. As his relationship with Police Chief Carson seems to be dead in the water, Ellery is grateful for a little flattering attention from the village's most eligible bachelor, but any hopes of romance hit the shoals when Julian is accused of murdering his mother's unlikable second husband during the Masquerade's annual ghost hunt in the family's spooky cemetery.

There are updates throughout the book as well. These take into account important advances in cognitive psychology and the science of design while confirming and extending the book's basic thesis: that a physical symbol system has the necessary and sufficient means for intelligent action. CATALYST 13 points noun: a substance that speeds up a reaction without itself changing When Najwa Bakri walks into her first Scrabble competition since her best friend's death, it's with the intention to heal and move on with her life. Perhaps it wasn't the best idea to choose the very same competition where said best friend, Trina Low, died. It seems that even though Najwa is trying to change, she's not ready to give up Trina just yet. But the same can't be said for all the other competitors. With Trina, the Scrabble Queen herself, gone, the throne is empty, and her friends are eager to be the next reigning champion. Seven Games: A Human History Nov 08 2021 A group biography of seven enduring and beloved games, and the story of why—and how—we play them. Checkers, backgammon, chess, and Go. Poker, Scrabble, and bridge. These seven games, ancient and modern, fascinate millions of people worldwide. In Seven Games, Oliver Roeder charts their origins and historical importance, the delightful arcana of their rules, and the ways their design makes them pleasurable. Roeder introduces thrilling competitors, such as evangelical minister Marion Tinsley, who across forty years lost only three games of checkers; Shusai, the Master, the last Go champion of imperial Japan, defending tradition against “modern rationalism”; and an IBM engineer who created a backgammon program so capable at self-learning that NASA used it on the space shuttle. He delves into the history and lore of each game: backgammon boards in ancient Egypt, the Indian origins of chess, how certain shells from a particular beach in Japan make the finest white Go stones. Beyond the cultural and personal stories, Roeder explores why games, seemingly trivial pastimes, speak so deeply to the human soul. He introduces an early philosopher of games, the aptly named Bernard Suits, and visits an Oxford cosmologist who has perfected a computer that can effectively play bridge, a game as complicated as human language itself. Throughout, Roeder tells the compelling story of how humans, pursuing scientific glory and competitive advantage, have invented AI programs better than any human player, and what that means for the games—and for us. Funny, fascinating, and profound, Seven Games is a story of obsession, psychology, history, and how play makes us human.

The End of the Affair Apr 20 2020 Graham Greene's masterful novel of love and betrayal in World War II London is "undeniably a major work of art" (*The New Yorker*). Maurice Bendrix, a writer in Clapham during the Blitz, develops an acquaintance with Sarah Miles, the bored, beautiful wife of a dull civil servant named Henry. Maurice claims it's to divine a character for his novel-in-progress. That's the first deception. What he really wants is Sarah, and what Sarah needs is a man with passion. So begins a series of reckless trysts doomed by Maurice's increasing romantic demands and Sarah's tortured sense of guilt. Then, after Maurice miraculously survives a bombing, Sarah ends the affair—quickly, absolutely, and without explanation. It's only when Maurice crosses paths with Sarah's husband that he discovers the fallout of their duplicity—and it's more unexpected than Maurice, Henry, or Sarah herself could have imagined. Adapted for film in both 1956 and 1999, Greene's novel of all that inspires love—and all that poisons it—is "singularly moving and beautiful" (Evelyn Waugh).
