*This bibliographic study of the output of the Petrucci presses includes a study of technique and house-style, and provides a catalogue of editions and copies. First published in 1931, this book represents an attempt to study the psychological basis of the institution of property. There had been many psychological and social studies of marriage and religion prior to publication of this title but none which considered the problems which arise when the institution of property is viewed from the angle of social psychology. Some of these problems are set out in the first chapter. In the remaining chapters the author discusses the problems in the light of evidence drawn from the various branches of psychology and sociology of the day. The final chapter indicates the importance of the author's conclusions for political and social theory at the time. Guitar World magazine and Alfred Publishing have teamed up to present an exciting new series. In this book John Petrucci details the patterns and techniques that have made Dream Theater the most amazing and important guitar band of our generation. Includes over 130 music examples, transcribed solos, and techniques to help expand vocabulary, creativity, and chord knowledge. It detoxifies your body, heals your gut, and heals your joints. It's antiinflammatory and helps fight off infection. #4 The reason people get fat is because they're following doctors' orders and eating lots of highcarb foods like bread, yogurt, cereal, and pasta. They're also eating lots of soy, which is a hormone disruptor that may cause their thyroid to become underactive. A description, reconstruction and discussion of the repertory of an exceptional musical source, the French manuscript made at Lyons c. 1520-1525 as the private collection of a music copyist. The book contains 280 compositions, sacred and secular, from the period 1450-1524 with Loyset, Compère, Alexander Agricola, Antoine de Févin, Claudin de Sermisy and Clément Janequin as the prominent composers. Besides discussing the many-faceted repertory, the book studies the circulation of music in the early sixteenth century and the relationships between popular songs and courtly chansons and between provincial music and the music of the musical centres. -- The manuscript has been in the Royal Library of Copenhagen since 1921. This is the first comprehensive study of it. Please note: This is a companion version & not the original book. Sample Book Insights: #1 Bone broth is not just broth and not just soup. Confined by behavioural norms and professional restrictions, women in Renaissance Italy found a welcome escape in an alternative world of play. This book examines the role of games of wit in the social and cultural experience of patrician women from the early sixteenth to the early eighteenth century. Beneath the frivolous exterior of such games as occasions for idle banter, flirtation, and seduction, there often lay a lively contest for power and agency, and the opportunity for conventional women to demonstrate their intellect, to achieve a public identity, and even to model new behaviour and institutions in the non-ludic world. By tapping into the records and cultural artifacts of these games, George McClure recovers a realm of female fame that has largely escaped the notice of modern historians, and in so doing, reveals a cohort of spirited, intellectual women outside of the courts. The book looks at how people, things, and new forms of knowledge created "publics" in early modern Europe, and how publics changed the shape of early modern society. The focus is on what the authors call "making publics" — the active creation of new forms of association that allowed people to connect with others in ways not rooted in family, rank or vocation, but rather founded in voluntary groupings built on the shared interests, tastes, commitments, and desires of individuals. By creating new forms of association, cultural producers and consumers challenged dominant ideas about just who could be a public person, greatly expanded the resources of public life for ordinary people in their own time, and developed ideas and practices that have helped create the political culture of modernity. Coming from a number of disciplines including literary and cultural studies, art history, history of religion, history of science, and musicology, the contributors develop analyses of a range of cases of early modern public-making that together demonstrate the rich inventiveness and formative social power of artistic and intellectual publication in this period. Manuscript Florence, Biblioteca Nazionale Centrale, Magliabechiana XIX, 164-167 (FlorBN Magl. 164-7) has been the subject of considerable scholarly attention. The prevailing assumption had been that it was a Florentine source of the early sixteenth century. More recently, it has been argued that its provenance is not as easily determined as it first appears, and that there are Roman connections suggested by one of its codicological features. This monograph provides as full a bibliographical and codicological report on FlorBN Magl. 164-7 as is currently possible. Such evidence suggests that the earlier thesis is more likely to be correct: the manuscript was copied in Florence c.1520. After a review of the evidence for provenance and date, the repertory of the manuscript is placed in its historical and cultural context. Florence of the early sixteenth century is shown to have an organized cultural life that was characterized by the activities of such institutions as the Sacred Academy of the Medici, the famous group that met in the garden of the Rucellai, and others. FlorBN Magl. 164-7 is an exceedingly interesting and important source; an eclectic repository not only of compositionally advanced settings of Petrarchan verse by Rucellai-group intimate Bernardo Pisano but also of sharply contrasting works, popular in character. It is almost a manifesto of the sensibilities of preeminent Florentine cultural figures of the sort who frequented the garden of the Rucellai and as such is a revealing document of Florentine musical taste during those crucial years that witnessed the emergence of the new secular genre we know as the Italian madrigal. In a not so distant future, our world returns to feudalism. Only this time, the powerful control the servant class with the very thing that once inspired revolution—music. Not the music of old. A new music engineered entirely by machines. But one person fights back with music as a human expression. That fight brings pain. And perhaps redemption. As you heal your belly from the inside out, you'll feel younger, happier, and lighter than you thought possible. Somewhere Nicky realized from the truth that telling lies was much more fun. They never ended. Nicky made them up and changed the rules as he went along. It was so much easier than dealing with the truth. On the outside, twelve-year-old Nicky Palmieri is just a little different from the average kid who loves baseball. Several surgeries on his cleft palate have left noticeable bumps and scars on his lip. He desperately wants to look like the other kids, but the doctors' empty words and promises set bad examples about lying. On the inside, Nicky dreams of reaching the major leagues. His baseball glove, an expensive professional model, is an extension of his left hand. Nicky knows where his glove is at all times. Then one day he secretly places his prized possession in an unusual place. When his family and closest friends ask him about the glove's whereabouts, Nicky follows with a long string of lies. Most are harmless fibs-but one falsehood leads to a catastrophe that changes Nicky's life. Join Nicky and the Kelsey Avenue Crew for a series of wild events that teach him about the power of the truth. -- "Elementary-school teacher and former sports reporter Petrucci weaves a poignant tale of a young boy with a cleft palate, who finds respite from the harsh realities of small-town life by playing baseball. A lengthy yet endearing treat for young sports fans." - Kirkus Review The first book-length study in any language dedicated specifically to lute, guitar, and vihuela.*
