Published By: The Math Notion www.mathnotion.com Sum Fun Maths Assessment is a series of 3 books full of puzzle worksheets for assessing children's progress in maths. Each sheet is self-correcting - children use their mathematical skills to solve a series of questions, then use the code to find the answers to the silly jokes, puns and riddles. Children will love riddles such as 'What would happen if all the ducks in the world jumped up and down at the same time? (an earth quack) and 'What is the best way to communicate with a fish? (drop it a line). Each sheet assesses a particular skill, all linked to year group objectives from the new September 2014 curriculum. There are several sheets for each objective, allowing for assessment at different points in the year if necessary. The assessment checklist will help you to keep track of children's progress. In addition to being invaluable for assessing children's learning, the sheets can be used as: evidence of children's learning; extension activities; differentiated group/individual activities; plenary tasks; fun time fillers! Topics covered in the series include: number and place value; addition and subtraction; multiplication and division; fractions; decimals and percentages. Correlates with the Student Workbook; Reviews the assessed Texas Essential Knowledge and Skills (TEKS) for Mathematics; Provides correct answers and analyses for the Assessments; Correlation charts and skills charts help educators track students' strengths and weaknesses with STAAR. Assess student knowledge of the national Common Core State Standards (CCSS) for Reading and Mathematics with two full-length Assessments for each subject. Questions provide students with the necessary practice needed to achieve academic success with the CCSS. Chapters on test-taking strategies and test anxiety build students confidence and test-taking skills. Glossaries familiarize students with vocabulary terms and concepts found on state proficiency tests. This collection of sample assessment items contains items compiled from many sources, including state and provincial assessments, sorted into the strands of number and operations, algebra, geometry, measurement and data analysis and probability. Because students are assessed on standardised tests with multiple-choice items, the writing team chose samples of such items as well as explanations for those problems designed to give students opportunities to demonstrate their skills and understanding. " Teacher notes " to suggest ideas for making multiple-choice items more meaningful and a variety of rubrics, are also included. In addition, the professional development chapter is designed to help in-service and preservice teachers understand and use levels of complexity for particular problems, use and adapt multiple-choice items, use assessment tasks as an in-service topic, employ scoring rubrics, use technology in assessment and design their own assessment items. Correlates with the Student Workbook; Reviews the Common Core State Standards (CCSS) for Reading and Mathematics; Provides correct answers and sample responses for the Assessments; Correlation charts and skills charts help educators track students strengths and weaknesses with the CCSS. Are current testing practices consistent with the goals of the reform movement in school mathematics? If not, what are the alternatives? How can authentic performance in mathematics be assessed? These and similar questions about tests and their uses have forced those advocating change to examine the way in which mathematical performance data is gathered and used in American schools. This book provides recent views on the issues surrounding mathematics tests, such as the need for valid performance data, the implications of the Curriculum and Evaluation Standards for School Mathematics for test development, the identification of valid items and tests in terms of the Standards, the procedures now being used to construct a sample of state assessment tests, gender differences in test taking, and methods of reporting student achievement.
