Representations of India, 1740-1840 Sep 24 2020 Chatterjee analyzes how writing over the period of a century justified and was affected by the introduction and extension of British domination of India, demonstrating the link between written representations and the ideological, economic and political climate and debates. By showing how the representations of Britons in India, Indian religion and society and government evolved over the period 1740 to 1840, the author fills the gap between the early colonial 'exotic East' and the later 'primitive subject nation' perceptions.

The Coins of Haidar Ali and Tipu Sultan (Classic Reprint) May 01 2021 Excerpt from The Coins of Haidar Ali and Tipu Sultan This account of the coins of Haidar Ali and Tipu Sultan is largely based on the collection of the Madras Government Museum, which, so far at least as the copper issues are concerned, is probably one of the most complete in existence. I have, however, also taken other sources into account, such as the works of previous writers, the large collections of the British Museum, London, and the Mysore Government Museum at Bangalore, as well as private collections. I regret that the notes which I took on the occasion of my visits to the two institutions just referred to are not as complete as I could have wished, and I have not been able to revisit these collections in recent years. The letter M following the number of a coin indicates that it is represented in the collection of the Madras Museum. In cataloguing the somewhat complicated issues of Tipu Sultan, I am convinced that, if confusion is to be avoided, the only safe course is to arrange the coins according to mints. In leaving the size of the coins to be inferred from the plates, and making comparatively little reference to their weight, I have perhaps laid myself open to adverse criticism; but as most of the coins

were roughly struck there are frequent variations in their size, and to some extent also in their weight. I have tried to indicate the chief variations in weight, without giving unnecessary details in regard to individual specimens. In an attempt to indicate the relative scarcity or abundance of the different coins, I have perhaps ventured on an innovation in works of this kind. I have, however, attempted to do so on account of exceptional opportunities for forming such an opinion; during a period of over quarter of a century many thousands of these coins, collected from all parts of Southern India, have passed through my hands. Sultan: The Legend of Hyder Ali Feb 16 2020 It is the eighteenth century, and turmoil is brewing all over India. In the country's south, Hyder Ali, an ordinary soldier, rises through the ranks to take over Mysore, a small kingdom that is in danger of being swallowed by the Marathas and the Nizam of the Deccan. Despite overwhelming odds, Hyder Ali forges an empire right under their noses through tact, bravery and unparalleled military strategy. Before long, he holds sway over a kingdom that spans from the dry lands near the Krishna River to the lush forests of the Malabar. But the angry Marathas are thirsting for revenge, and the English are fast gaining ground. Will the Sultan of Mysore be able to crush these formidable enemies? Will his son Tipu come to his aid? Or will he be forced to surrender the vast and powerful kingdom he has so passionately built?

Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

**TipuSultan- The Tyrant of Mysore** Nov 14 2019 This book is part of a series of books aimed at disseminating the accurate history of India drawn from the primary sources. History writing, especially about the medieval Muslim rule has been fraught with political correctness, controversy, and in several cases, downright falsification. This has occurred mostly with official state patronage. As a result, any attempts to correct this course has been virulently opposed with the result that most urban-educated Indians have now internalized a politically correct version of Indian history. The history of Tipu Sultan too, stands as a glaring instance of this distorted historical narrative. Indeed, we have seen, read, and heard about a lot of people claiming to be freedom fighters and receiving pensions from the Government. Several of these worthies would not have been born before Independence yet they succeed in such blatant manipulations. There are instances of portraying certain rulers and chieftains as true heroes who fought against the British Empire. One such ruler happens to be Tipu Sultan. Tipu Sultan is widely known as the Tiger of Mysore. Indeed, the image of Tipu battling a tiger barehanded crosses the mind whenever his name is mentioned. But is this the truth? Was Tipu Sultan truly the warrior as he has been portrayed? What exactly is his record of fighting the British? Was he really a freedom fighter as is widely claimed? Sandeep Balakrishna in this well-researched book, explores both the myths and the truth surrounding Tipu Sultan. A must-read for those who wish to learn the true story of Tipu Sultan.
