Polin: Studies in Polish Jewry Volume 16 Nov 15 2021

Scholarship on the civilization of Polish Jews has tended to focus on elite culture and canonical literature. Even modern Yiddish culture has generally been approached from the perspective of 'great works'. This special issue on Jewish popular culture focuses on relatively less explored but historically vital forms of culture that have previously been relegated to the margins of scholarly interest. Most of the articles look at the period before the Second World War, but there are also several studies of the traces of this culture in the contemporary world. The volume is intended to help reconfigure our understanding of Polish Jewish civilization in its true richness and variety.

Volume 16, Tome II: Kierkegaard's Literary Figures and Motifs Jan 24 2020 While Kierkegaard is perhaps known best as a religious thinker and philosopher, there is an unmistakable literary element in his writings. He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with. This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians, but at the same time it has made their interpretation more complex. Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew, but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions. The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard. The volume is arranged alphabetically by name, with Tome II covering figures and motifs

from Gulliver to Zerlina.

The Papers of Thomas Jefferson: Retirement Series, Volume 16

May 29 2020 This volume’s 571 documents cover both Jefferson’s opposition to restrictions on slavery in Missouri and his concession that “the boisterous sea of liberty is never without a wave.” Seeking support for the University of Virginia, he fears that southerners who receive New England educations will return with northern values. Calling it “the Hobby of my old age,” Jefferson envisions an institution dedicated to “the illimitable freedom of the human mind.” He infers approvingly from revolutionary movements in Europe and South America that “the disease of liberty is catching.” Constantine S. Rafinesque addresses three public letters to Jefferson presenting archaeological research on Kentucky’s Alligewi Indians, and Jefferson circulates a Nottoway-language vocabulary. Early in 1821 he cites declining health and advanced age as he turns over the

management of his Monticello and Poplar Forest plantations to his grandson Thomas Jefferson Randolph. In discussions with trusted correspondents, Jefferson admires Jesus's morality while doubting his miracles, discusses the materiality of the soul, and shares his thoughts on Unitarianism. Reflecting on the dwindling number of their old friends, he tells Maria Cosway that he is like "a solitary trunk in a desolate field, from which all its former companions have disappeared."

The Papers of Ulysses S. Grant Oct 15 2021 Ulysses S. Grant as symbol became as important in peace as he had been in war. The nation rewarded Grant with the rank of full general, the first U.S. officer to hold the rank since George Washington. Disliking politics, Grant sought to avoid the growing controversy over Reconstruction policy. Although he faced growing pressure to take a stand, he maintained public silence, firmly believing it wrong for an army officer "to take part in elections." Grant also worked hard to reorganize the army to meet postwar needs. Increased friction between settlers and Indians, Fenian activity in Canada, and the French in Mexico required a larger army than customary. Reconstruction and the French presence in Mexico increasingly conspired to draw Grant into the political arena.
