Excerpt from Manual of the New Zealand Coleoptera: Parts III. And IV This is a further instalment of the work descriptive of the coleopter ts insects indigenous to Jew Zealand, by Captain Thomas Broun, of vvhich a first volume was issued by this department in 1880, and a second in 1881. A portion of the descriptions in the present volume - viz, Nos. 1322 to 1557 - have already been printed in the Journal of Science, but the author desired the incorporation of these in the present work in order to render it complete for the purpose of refer ence. The alphabetical Index has been rearranged so as to refer to the whole work as if it were one volume, and thus supersedes the Index given With Part II. Includes proceedings of member institutes of the Society and of the Society's Science Congress through v. 84, 1956/57. This Special Issue on the Systematics and Phylogeny of Weevils presents 31 new research papers on one of the most diverse and successful groups of animals on Earth, the beetle superfamily Curculionoidea. It was in part inspired to commemorate the extraordinary life and scientific achievements of Guillermo ("Willy") Kuschel (1918-2017), who shaped this field of science over the last century like no other weevil systematist. The papers in this memorial issue span weevil faunas from all over the globe, including South and Central America, Africa, Europe and the Near East, South-East Asia, New Guinea, Australia and New Zealand. They include major advances on the phylogeny and classification of the "broad-nosed" weevils (Entiminae), on the weevils associated with American cycads and on the unique extinct weevil fauna preserved in the 100-million-year-old Burmese amber, when weevils started to diversify alongside the oldest angiosperm plants. They comprise a tribute to Willy Kuschel, the proceedings of a weevil symposium held in his honor in 2016 in Orlando, Florida, 24 systematic studies (including seven phylogenetic analyses) and five other contributions on the diversity, biology, distribution, evolution and fossil history of weevils. In the papers collated in this volume, 30 new genera and 92 new species of weevils are described and a new family of extinct weevils is recognized. This book describes an astounding feat of constitutional writing and publication. For a number of decades, officials working across different branches of the United Kingdom (UK) constitution have been engaged in a series of separate projects. Taken in their totality, they amount to a vast enterprise. Yet, until now, no-one has fully recognised or critically analysed what has taken place. There has been a proliferation in the UK of publicly available codes, normally lacking a basis in statute, providing official accounts of a variety of different features of UK constitutional rules and principles. They cover institutions ranging from the Cabinet to the Civil Service to the judiciary, and relationships between entities such as central government and the devolved executives; and between the UK executive and the Westminster Parliament. Among them are prominent texts such as the Ministerial Code, the Cabinet Manual, the Guide to Judicial Conduct and the devolution Memorandum of Understanding - as well as more obscure documents that nonetheless contain important stipulations regarding the operation of the system. Similar developments have taken place in countries including Australia, Canada and New Zealand. The author explores the history of this phenomenon in the UK, how it functions today here and elsewhere in the Commonwealth, and its implications for the UK constitution. The proceedings or notices of the member institutes of the society form part of the section "Proceedings" in each volume; lists of members are included in v. 1-41, 43-60, 64- Includes proceedings of member institutes of the Society and of the Society's Science Congress. The application and interpretation of the four Geneva Conventions of 1949 and their two Additional Protocols of 1977 have developed significantly in the seventy years since the International Committee of the Red Cross (ICRC) first published its Commentaries on these important humanitarian treaties. To promote a better understanding of, and respect for, this body of law, the ICRC commissioned a comprehensive update of its original Commentaries, of which this is the third volume. The Third Convention, relative to the treatment of prisoners of war and their protections, takes into account developments in the law and practice in the past seven decades to provide up-to-date interpretations of the Convention. The new Commentary has been reviewed by humanitarian law practitioners and academics from around the world. This new Commentary will be an essential tool for anyone involved with international humanitarian law. Includes lists of donations/deposits each year and reports on specific geological topics. This book examines New Zealand's constitution, through the lens of constitutional realism. It looks at the practices, habits, conventions and norms of constitutional life. It focuses on the structures, processes and culture that govern the exercise of public power - a perspective that is necessary to explore and account for a lived, rather than textual, constitution. New Zealand's constitution is unique. One of three remaining unwritten democratic constitutions in the world, it is characterised by a charming set of anachronistic contrasts. "Unwritten", but much found in various written sources. Built on a network of Westminster constitutional conventions but generously tailored to local conditions. Proudly independent, yet perhaps a purer Westminster model than its British parent. Flexible and vulnerable, while oddly enduring. It looks to the centralised authority that comes with a strong executive, strict parliamentary sovereignty, and a unitary state. However, its populace insists on egalitarian values and representative democracy, with elections fiercely conducted nowadays under a system of proportional representation. The interests of indigenous Maori are protected largely through democratic majority rule. A reputation for upholding the rule of law, yet few institutional safeguards to ensure compliance.
