The authors focus on making the key concepts of contract law, and the relationship among those concepts, easier to understand and retain. The authors have also infused the book with humor, believing there is nothing inconsistent between a rigorous academic experience and having a little fun. Each of the authors is nationally-renowned law teacher who has taught Contracts for decades. Based on that experience, in this book they have set forth understandable techniques for mastering the law governing each critical aspect of the contract relationship, including, contract formation (offer and acceptance), enforcement (consideration and defenses), interpretation, performance, breach, and remedies. This new casebook book offers thorough materials that are at the same time brief enough that the subject can be covered in a three or four credit course. These materials are meant to be self-sufficient when accompanied by a current copy of the Federal Rules of Evidence, and, where appropriate, the rules of a state. Each chapter covers an article of the Rules. Within the chapters & sections, the materials follow the sequence of the Rules--except in a few instances where logic required otherwise. Written from an advocate's perspective, this guide introduces how the courtroom operates and offers a glimpse into the environment that influences these rulings.
