*Recent Research in Pāṇinian Studies* Nov 03 2020 The present volume is a continuation of the bibliography and study presented in Panini, A Survey of Research, first published in the Netherlands (The Hague: Mouton & Co., 1976), subsequently published in India (Delhi: Motilal Banarsidass, 1980) and reprinted in 1997. The basic format adopted for the first survey is observed here: a bibliography of major work done since 1975, including materials which came to the author's knowledge up to December of 1997, is followed by his appraisal of this work with extensive references to primary sources which are the bases of scholarly discussions and notes.

**Language Processing in Bilinguals (RLE Linguistics C: Applied Linguistics)** Sep 13 2021 For decades, bilingualism has resisted definition. If bilingualism is defined as habitual, fluent, correct and accent-free use of two languages, few individuals would qualify as bilinguals. A more viable approach may be to concede that 'bilingual' can be seen instead as a range of points on a continuum that allows for differences. The psychological study of bilingualism encompasses a wide range of phenomena including the organization and representation of the grammar, the perception and production of language mixing, cerebral lateralization of language functions, and patterns of recovery of aphasic patients. This book collects together an international array of researchers in experimental psychology, linguistics and neuropsychology, who bring their expertise to bear on the critical issues that are raised by the bilingual phenomena.

**The Indo-Aryan Languages** Jun 10 2021 In his ambitious survey of the Indo-Aryan languages, Colin Masica has provided a fundamental introduction which will interest not only general and theoretical linguists but also students of one or more of these languages who want to acquaint themselves with the broader linguistic context. Generally synchronic in approach, concentrating on the phonology, morphology and syntax of the modern representatives of the group, the volume also covers their historical development, areal context, writing systems and aspects of sociolinguistics. The survey is organised not on a language-by-language basis but by topic, so that salient theoretical issues may be discussed in a comparative context.

**The Power of Place** Jan 18 2022 Frazier's comparative study of popular protest in twentieth-century Shanghai and Mumbai highlights recurring debates over migration and citizenship.

*AKASHVANI* Dec 29 2022 "Akashvani" (English) is a programme journal of ALL INDIA RADIO, it was formerly known as The Indian Listener. It used to serve the listener as a Bradshaw of broadcasting, and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in English, which was published beginning in July 16 of 1927. From 22 August, 1937 onwards, it used to be published by All India Radio, New Delhi. From 1950, it was turned into a weekly journal. Later, The Indian listener became "Akashvani" (English) w.e.f. January 5, 1958. It was made fortnightly journal again w.e.f. July 1, 1983. NAME OF THE JOURNAL: AKASHVANI LANGUAGE OF THE JOURNAL: English DATE, MONTH & YEAR OF PUBLICATION: 09 AUGUST, 1981 PERIODICITY OF THE JOURNAL: Weekly NUMBER OF PAGES: 64 VOLUME NUMBER: Vol. XLVI, No.32 BROADCAST PROGRAMME SCHEDULE PUBLISHED (PAGE NOS): 19-62 ARTICLE: 1. *Relational Grammar* Dec 17 2021

*Language, Identity, and Power in Modern India* Jan 06 2021 This book is a historical study of modern Gujarat, India, addressing crucial questions of language, identity, and power. It examines the debates over language among the elite of this region during a period of significant social and political change in the late nineteenth and early twentieth centuries. Language debates closely reflect power relations among different sections of society, such as those delineated by nation, ethnicity, region, religion, caste, class, and gender. They are intimately linked with the process in which individuals and groups of people try to define and project themselves in response to changing political, economic, and social environments. Based on rich historical sources, including official records, periodicals, literary texts, memoirs, and private papers, this book vividly shows the impact that colonialism, nationalism, and the process of nation-building had on the ideas of language among different groups, as well as how various ideas of language competed and negotiated with each other. *Language, Identity, and Power in Modern India: Gujarat, c.1850-1960* will be of particular interest to students and scholars working on South Asian history and to those interested in issues of language, society, and politics in different parts of the modern world.

**Stigmas of the Tamil Stage** Aug 01 2020 A study of the lives of popular theater artists, *Stigmas of the Tamil Stage* is the first in-depth analysis of Special Drama, a genre of performance unique to the southernmost Indian state of Tamilnadu. Held in towns and villages throughout the region, Special Drama performances last from 10 p.m. until dawn. There are no theatrical troupes in Special Drama; individual artists are contracted "specially" for each event. The first two hours of each performance are filled with the kind of bawdy, improvisational comedy that is the primary focus of this study; the remaining hours present more markedly staid dramatic treatments of myth and history. Special Drama artists themselves are of all ages, castes, and ethnic and religious affiliations; the one common denominator in their lives is their lower-class status. Artists regularly speak of how poverty compelled their entrance into the field. Special Drama is looked down upon by the middle- and upper-classes as too popular, too vulgar, and too "mixed." The artists are stigmatized: people insult them in public and landlords refuse to rent to them. Stigma falls most heavily, however, on actresses, who are marked as "public women" by their participation in Special Drama. As Susan Seizer's sensitive study shows, one of the primary ways the performers deal with such stigma is through humor and linguistic play. Their comedic performances in particular directly address questions of class, culture, and gender deviations—the very issues that so stigmatize them. Seizer draws on extensive interviews with performers, sponsors, audience members, and drama agents as well as on careful readings of live Special Drama performances in considering the complexities of performers' lives both on stage and off.

For example, a person suffers from an illness that cannot be cured, and in order to be healed he performs a ritual involving prosecution and defense, a judge and witnesses. Divine beings give evidence through human oracles, spirits possess their human victims and are exorcized, and local gods intervene to provide healing and justice. Such practices seem to be the very antithesis of modernity and many modern, secular states have systematically attempted to eliminate them. Why are such rituals largely absent from modern societies, and what happens to them when the state attempts to expunge them from their health and justice systems, or even to criminalize them? Despite the prevalence of rituals involving some or all of these elements, *The Law of Possession* represents the first attempt to compare and analyze them systematically. The volume brings together historical and contemporary case studies from East Asia, South Asia, and Africa, and argues that, despite consistent attempts by states to discourage, eliminate, and criminalize them, such rituals persist and even thrive because they meet widespread human needs.

*Innovations in Computer Science and Engineering* Sep 01 2020 This book features a collection of high-quality, peer-reviewed research papers presented at the 9th International Conference on Innovations in Computer Science & Engineering (ICICSE 2021), held at Guru Nanak Institutions, Hyderabad, India, on September 3-4, 2021. It covers the latest research in data science and analytics, cloud computing, machine learning, data mining, big data and analytics, information security and privacy, wireless and sensor networks and IoT applications, artificial intelligence, expert systems, natural language processing, image processing, computer vision, and artificial neural networks.

*The Indo-Aryan Controversy* Mar 20 2022 For the first time in a single volume, this book presents the various arguments in the Indo-Aryan controversy. It also provides a template for the basic issues addressing four major areas: archaeological research, linguistic issues, the interpretation of Vedic texts in their historical contexts, and ideological roots. The volume ends with a plea for a return to civility in the debates which have become increasingly, and unproductively, politicized, and suggests a program of research and inquiry upon which scholars from all sides of the debate might embark.

**Marathi** Jul 24 2022 A complete grammatical description of Marathi, which belongs to the Indo-European family and is spoken in Maharashtra State in India.
