**PHP & MySQL: The Missing Manual** May 21 2020 If you can build websites with CSS and JavaScript, this book takes you to the next level—creating dynamic, database-driven websites with PHP and MySQL. Learn how to build a database, manage your content, and interact with users. With step-by-step tutorials, this completely revised edition gets you started with expanded coverage of the basics and takes you deeper into the world of server-side programming. The important stuff you need to know: Get up to speed quickly. Learn how to install PHP and MySQL, and get them running on both your computer and a remote server. Gain new techniques. Take advantage of the all-new chapter on integrating PHP with HTML web pages. Manage your content. Use the file system to access user data, including images and other binary files. Make it dynamic. Create pages that change with each new viewing. Build a good database. Use MySQL to store user information and other data. Keep your site working. Master the tools for fixing things that go wrong. Control operations. Create an administrative interface to oversee your site.

**PHP in Action** Nov 14 2019 To keep programming productive and enjoyable, state-of-the-art practices and principles are essential. Object-oriented programming and design help manage complexity by keeping components cleanly separated. Unit testing helps prevent endless, exhausting debugging sessions. Refactoring keeps code simple and readable. PHP offers all this—and more. PHP in Action shows you how to apply PHP techniques and principles to all the most common challenges of web programming, including: Web presentation and templates User interaction including the Model-View-Controller architecture Input validation and form handling Database connection and querying and abstraction Object persistence Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book.

Sams Teach Yourself Apache 2 in 24 Hours Mar 31 2021 Sams Teach Yourself Apache in 24 Hours covers the installation, configuration, and ongoing administration of the Apache Web server, the most popular Internet Web server. It covers both the 1.3 and the new 2.0 versions of Apache. Using a hands-on, task-oriented format, it concentrates on the most popular features and common quirks of the server. The first part of the book helps the reader build, configure, and get started with Apache. After completing these chapters the reader will be able to start, stop, and monitor the Web server. He also will be able to serve both static content and dynamic content, customize the logs, and restrict access to certain parts of the Web server. The second part of the book explains in detail the architecture of Apache and how to extend the server via third-party modules like PHP and Tomcat. It covers server performance and scalability, content management, and how to set up a secure server with SSL.

NET for Java Developers Migrating to C# Mar 11 2022 This text allows Java programmers to quickly begin using C# and the .NET Framework, through a meticulous comparison of Java and C#.

Urban Europe Feb 10 2022 Statistical information is an important tool for analysing changing patterns of urban development and the impact that policy decisions have on life in our cities, towns and suburbs. Urban Europe - statistics on cities, towns and suburbs provides detailed information for a number of territorial typologies that can be used to paint a picture of urban developments and urban life in the EU Member States, as well as EFTA and candidate countries. Each chapter presents statistical information in the form of maps, tables and figures, accompanied by a description of the policy context and a set of main findings. The publication is broken down into two parts : the first treats topics under the heading of city and urban developments, while the second focuses on the people in cities and the lives they lead. Overall there are 12 main chapters, covering : the urban paradox, patterns of urban and city developments, the dominance of capital cities, smart cities, green cities, tourism and culture in cities, living in cities, working in cities, housing in cities, foreign-born persons in cities, poverty and social exclusion in cities, as well as satisfaction and the quality of life in cities.
