[Cochrane Handbook for Systematic Reviews of Interventions](#) Feb 25 2020 Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library (www.thecochranelibrary.com). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods

described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.

Oxford IB Course Preparation: Economics for IB Diploma Course Preparation Mar 27 2020 This book has been created to give students and teachers a solid introduction to the big questions in the study of Economics. Following the IBDP curriculum and using a concept-based approach this resource will

mean that students can begin their DP course with a firm foundation of subject area content. An emphasis will be placed on getting students to make connections to their real world observations so that the learning is authentic and applicable outside of the classroom. The focus for this resource is to build understanding of the key concepts and skills and use the DP content to introduce and articulate the bigger concepts and skills so that students are prepared for their Diploma course. Topics and concepts will be introduced and covered using real world examples, case studies and applications. Content will be formally scaffolded to help students both build skills and content knowledge so that they are well prepared for their course and absorb DP knowledge more effectively. The resource is to be used on pre-DP courses at the end of the MYP, IGCSE or other course school year before starting DP, in summer break before DP, or up to a year before DP or even during the start of the DP course to learn necessary skills. These books do not replace the course book content for DP but are in line with the latest DP syllabus updates including assessment details, subject terminology and syllabus content
