Legislating for an ecosystem
approach to fisheries (EAF) is
complex, due to the holistic
nature of EAF involving
multiple factors that underpin
the social, economic,
environmental, and
institutional aspects of
fisheries sustainability. These
factors include ecosystems
integration, risks, inter-sectoral
collaboration, research,
participatory processes,
monitoring, control,
surveillance, and enforcement,

among others. To assess how
an EAF is being implemented
through national policy and
legal frameworks, FAO
developed A diagnostic tool for
implementing an ecosystem
approach to fisheries through
national policy and legal
frameworks. The present legal
report on the EAF used the
diagnostic tool to assess the
alignment of selected policy
and legal instruments of Gabon
with an EAF. This assessment
analysed the extent to which
82 EAF legal requirements,
which are considered the
minimum standards in
legislating for an EAF, are
reflected in Gabon's policies
and legislation relevant to the
fisheries sector of the country
and other relevant sectors
(such as environment, wildlife,
ecosystems, and maritime
affairs). Based on this
preliminary diagnosis, gaps
were identified in the assessed
instruments, and
recommendations were made
for improving the
implementation of an EAF. This
report was elaborated
following a participatory

approach with the involvement of the national competent authorities of Gabon. Drafted in July 2021, the report was submitted to the national authorities of Gabon in October 2021. The Ministry of Fisheries and Maritime Economy of Gabon endorsed this EAF Legal Report of Gabon in May 2022. The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week. Wildlife Research in Australia: Practical and Applied Methods is a guide to conducting wildlife research in Australia. It provides advice on working through applications to animal ethics committees, presents general operating procedures for a range of wildlife research methods, and details animal

welfare considerations for all Australian taxa. Compiled by over 200 researchers with extensive experience in field-based wildlife research, teaching and animal ethics administration, this comprehensive book supports best practice research methods and helps readers navigate the institutional animal care approval process. Wildlife Research in Australia will help foster a national approach to wildlife research methods, and is an invaluable tool for researchers, teachers, students, animal ethics committee members and organisations participating in wildlife research and other activities with wildlife. These proceedings provide an overview of the ongoing research and management activities on polar bears in the circumpolar arctic. Together with the previous 12 proceedings, they provide an historic record of international efforts in protecting polar bears from over-harvest and document more recent concerns of threats arising

from increased human activities in both the Arctic and in regions far beyond the realm of polar bears. More proactive management is needed to address limitations in the knowledge of population dynamics. New information indicates that the greatest future challenges to polar bear conservation may be ecological change in the Arctic due to climate change and pollution. The complex, global nature of the issues requires international cooperation and development of diverse, new approaches to address them. The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week.
