Leading Across Differences Facilitator's Guide Set Dec 25 2019 Making the Case for Leading Across Differences Despite the growing challenges and opportunities created by our interconnected world, many leaders do not know how to handle situations in which there are misunderstandings or conflicts rooted in differences -- especially differences steeped in social identities, such as gender, religion, race, ethnicity, and country of origin. Filled with practical, relevant, and usable information, Leading Across Differences includes a wealth of illustrative examples for learning what it takes to lead a wide-range and diverse group of constituents. This Facilitator's Guide provides information on how to create and facilitate a session based on the accompanying Casebook. It also includes group debriefing suggestions as well as additional exercises intended for groups. Several chapters provide practical advice from practitioners about the elements of successful facilitation and session management. Praise for Leading Across Differences "Grounded in sound academic science, yet the cases will engage even the most skeptical corporate members who may question the practical value of intercultural training." --Peter W. Dorfman, Ph.D., Bank of America Distinguished Professor, College of Business, Department of Management, New Mexico State University "The value of the casebook for diversity educators is enhanced by a facilitator's guide and an instructor's guide." --David A. Kravitz, program chair, GDO Division, Academy of Management, professor and management area chair, School of Management, George Mason University

[Casebook for Textbook of Therapeutics](#) Apr 08 2021 This casebook is designed to accompany the Seventh Edition of Textbook of Therapeutics: Drug and Disease Management. It is organized in sections that correspond to the disease and disorder sections of the textbook. Other subjects in the textbook--such as clinical pharmacodynamics, drug interactions, adverse drug reactions, and clinical lab tests and interpretation--are woven into the cases. The casebook provides students a chance to apply the foundations of therapeutics that they have learned in the textbook to simulated clinical situations. There is an Instructor's Guide that accompanies the casebook--available to instructors who adopt the casebook.

Project Management Casebook Jan 30 2023 How do project team members get the knowledge, skills, and attitudes needed to perform effectively? One proven method is through the case study approach. The book offers 50 case studies that represent the breadth and importance of project management and its impact on the everyday management of projects. Each of the cases provides new and unique challenges that have been mastered by the practice of project management. Readers will be able to apply the knowledge learned from this casebook in their work. The cases enable readers to see how and why projects are used in a wide variety of organizational settings in contemporary life. Readers are exposed to both successful and not-so-successful project management practices. The case-study approach encourages reader participation and active learning, and provides the opportunity to learn something of the real world of project management. It is essential in the curricula of project management training for both undergraduate and graduate students, as well as for continuing education, consulting, and in-house company training programs. The cases were chosen for their importance in discussing the fundamentals of project management. Most contain descriptions of actual projects, and each is followed by a series of questions to guide readers' analysis of the article to maximize the learning process.

[Instructor's Manual for Strategic Marketing Cases in Emerging Markets](#) Aug 01 2020 This is a teaching companion to the case studies provided in the book 'Strategic Marketing Cases in Emerging Markets' and is intended to help teachers and trainers follow a pedagogic line by using the case studies to develop a critical understanding of the service business scenarios and strategies for marketing in emerging markets. The authors provide extensive teaching notes for each of the cases, covering the pedagogy of the case study, the prerequisites to understanding it, case-specific teaching objectives, a suggested teaching approach, and a case synopsis. Each case is then rounded out with suggested discussion questions and concise answers, as well as additional reading to enhance the teaching and learning experience in the classroom.

[Im Cases in Mgmt Consulting](#) Nov 23 2019 This instructor's manual supports the casebook that, in turn, accompanies Greiner/Pouffelt's The Handbook of Management Consulting: The Contemporary Consultant: Insights from Leading Experts. In an effort to support instructor-led, classroom discussion of the cases or as a valuable tool for independent study, the instructor's manual offers insights into using and studying the case notes. Written by the authors of the casebook, this supplement contains a set of teaching notes for each of the cases in the casebook. The instructor's manual also includes sample syllabi for designing and organizing a course on consulting.

Pharmacotherapy Casebook: A Patient-Focused Approach, 9/E Jan 18 2022 More than 150 cases help develop the skills you need to identify and resolve the most common drug therapy problems The perfect study companion to DiPiro's Pharmacotherapy: A Pathophysiologic Approach More than 40 all-new cases! Pharmacotherapy Casebook: A Patient-Focused Approach delivers 157 patient cases designed to teach you how to apply the principles of pharmacotherapy to real-world clinical practice. The case chapters in this book are organized into organ system sections that correspond to those of the DiPiro textbook. By reading the relevant chapters in Pharmacotherapy: A Pathophysiologic Approach you will be able to familiarize yourself with the pathophysiology and pharmacology of each disease state included in this casebook. Each case teaches you how to: Identify real or potential drug therapy problems Determine the desired therapeutic outcome Evaluate therapeutic alternatives Design an optimal individualized pharmacotherapeutic plan Develop methods to evaluate the therapeutic outcome Provide patient education Communicate and implement the pharmacotherapeutic plan Everything you need to develop expertise in pharmacotherapy decision making: Realistic patient presentations include medical history, physical examination, and laboratory data, followed by a series of questions using a systematic, problem-solving approach Compelling range of cases -- from the uncomplicated (a single disease state) to the complex (multiple disease states and drug-related problems) Diverse authorship from more than 190 clinicians from nearly 100 institutions Coverage that integrates the biomedical and pharmaceutical sciences with therapeutics Appendices containing valuable information on pharmacy abbreviations, laboratory tests, mathematical conversion factors, anthropometrics, and complementary and alternative
