Country Doctor 54 Years Oct 12 2019 Memories, Stories, and Lessons Learned from Five Decades of Family Medicine... Dr. Robert Chambliss knows how important it is to set a good example. When he was just nine years old, he attended an Honors Day ceremony given for the beloved "country doctor" who helped his family and community, and he knew then and there that he was called to that same profession. Raised with a superb work ethic and high standards instilled in him by his steadfast, dedicated father and loving, brilliant mother, Robert broke away from the family farm to pursue his dream. He began his practice in 1964 in the Appalachian foothills as Kentucky's youngest practicing physician. After a few years, he returned home to follow in the footsteps of his inspiration, Dr. Kincheloe, also a native of Breckenridge County, Kentucky.

Growing up on a Farm Nov 12 2019 The story tells the early remembrances of the farm from a little boys perspective, including his reaching adult age and bringing his wife to visit the farm for the first days of their marriage in Boston, Massachusetts. While the stories reflect the attempts of a little boy to remember the important experiences of his life on the farm, they may also reflect the gaps and omissions that may have occurred that he no longer remembers. As he approaches ninety, his remembrances skills are beginning to fade. Nevertheless, it has been a pleasure to try to remember what important events had taken place on the Megnin Farm.

The Innocent Days of a North Dakota Farm Boy Jul 21 2020 It was a time of innocence for author Carmen James Lee, growing up on a rural farm in North Dakota in the 1950s. In *The Innocent Days of a North Dakota Farm Boy*, he shares a nostalgic collection of stories telling about his experiences as a child during a much simpler time. In this memoir, he narrates how he walked in the fresh snow to milk the cows with a kerosene lantern in his hand, what it was like attending a one-room school, and how he sawed a huge hay stack in half with a rope made of barbed wire. Recalling a fun-filled youth, Lee tells about his challenges, his dream, his successes, and his failures. *The Innocent Days of a North Dakota Farm Boy* shares real-life stories of a North Dakota boy growing up and experiencing these and many more fun and exciting things—from plowing with a tiny, two-bottom plow behind the Ford tractor to marching in the school band at the Indianapolis 500 car race.

A Farm Boy in the Rain Mar 09 2022 *A Farm Boy in the Rain* is Robert Brown's uplifting memoir of a poor farm boy who stood in the rain weeping at the hand fortune had dealt him, but who actually went on to have an interesting and fruitful life. It is a true story of how he met and overcame many daunting challenges in his life including devastating blindness. It is a story of the many people he met and worked with over the years, what he saw, and what he accomplished. Robert wrote this book from memory while in his eighties, being totally blind for over thirty years. The story starts with a description of his childhood years. As a child he witnessed the death of a beloved grandparent and the destruction of his family, agonizing sickness, and finally rescue. Throughout the book, he tries to show how miracles always accompanied the events in his life. He describes in detail what he saw and heard in those years, that slipped by rapidly — the years of economic depression, World War II, the fifties, the sixties, and all the remaining decades of the twentieth century. *A Farm Boy in the Rain* is an uplifting story of determination and perseverance.

Iowa Farm Boy Aug 02 2021 Ed Kramer was born and raised on an Iowa farm during the last half of the 1930's. He was the youngest of four brothers, so they had a profound effect, in so many ways, on his early life. He attended a rural, one-room, country school for the first eight years of his life. He describes, in detail, what a typical country school looked like, and how it functioned. Many younger people today have no idea what it was like to have only one teacher for their first eight grades. The idea of having all eight grades in a one-room school-house boggles their minds even further! Ed thoroughly enjoyed his farm experiences. He grew up in a difficult era of our country. He points out that the concept of the "good ole days" was not all true. Hardships and dangers abounded around every corner. Farming was a dangerous business. However, along with the dangers and hardships, there were so many fun and exciting times. Ed vividly describes threshing time on the farm. Many of the older generations will be able to relate to Ed's stories. Ed loved the outdoors and nature. He learned to adapt to, and live with, the outdoors and nature. Ed understood the need for mankind to appreciate the importance of both in our lives and the impact they leave on all of us. This was very evident in his outdoor hobbies and experiences. What was it like to transition from country school to high school - going from a small school to a large school, and from a class size of four to one with thirty-two? What impact did sports have on Ed's life? So many teachers! What an adjustment that he had to make! So many important decisions had to be made, and so little time. Life seemed to be moving fast now. Ed wanted to let his readers know what went through his mind, as he tried to cope with the many options available, in steering the future course for him. Should he listen to his brother's advice? Should he follow in his brother's footsteps? What process did he use to arrive at a decision? College was another phase of Ed's life. He had to decide what would be his major. What did he really want to do later in life? Again, so many more teachers, subjects and larger class size. It seemed like each phase of his life was on such a higher level. How did he feel having a brother as his professor? Did that help or hurt their relationship? He understands that each person has a different vision of what college would be like. He tries to point out some mistakes he made in college, so that others may avoid them. Ed was fortunate to have had summer employment that paid his way through many of his college years. He understood that the cost of attending college was much less during his era. However, for his family, the cost was high. His summer employment happened to be in the forest service. That gave him the opportunity to extend his horizons. It meant going out on his own to execute, or perform, what he had learned in his earlier years. Now he could put his good Iowa work ethic to good use. He learned that hard work, patience and perseverance paid off. He accepted new responsibilities and assumed a leadership role that he never experienced before. Decisions are a part of everyday life. One of Ed's most important decisions was to enter the military service. He tries to point out to his readers what a man or woman has to go through in the military. There will be good and bad days, as there are in any part of life. He mentioned before, that each phase of his life meant reaching out further to a higher level. Each phase prepared him for the next level. Each phase was a steppingstone to greater things to come. Ed wants his readers to understand that, even though growing up today is a lot different than when he grew up, there still are many similarities. Developing a good work ethic is still paramount today. Religious faith was important to

Farm Boy's Dream May 31 2021 My vision of flying started with C. Lindberg flying solo across the Atlantic and the pictures of him landing in France at night, I believe. I believe there was also a fellow by the name of Chamberlin not sure of the spelling on his name who had planned the same trip, but Lindberg beat him to it; I believe he was from Iowa. And then there was Col. Roscoe Turner, who held world's speed record at, I believe it was, 300 mph sometime in the early thirties. And then there was Wiley Post one-eyed pilot, who, with Will Rogers, a humorist from Oklahoma, attempted a round-the-world flight and crashed; and both were killed in Alaska. And then the *China Clipper* on its maiden flight John Music I used to; believe me. And then there was Amelia Earhart. Flying was in my blood, until I did not get to attend high school; so my flying dreams went out the window, knowing that I would need all the education to get there. So WW II came along, and as you see, my dream did come true to come out of service and to be qualified to fly any aircraft that was being flown in the world. And now you would wonder: why would anyone pass up an opportunity such as that? Good question . . . you were allowed only twenty hours a week flying time . . . free time that bothered me; being a farmer, we had no free time to speak of. There was nothing more boring than flying hours on end with nothing to look at. It was not boring on the way to a target but on the way back to base five hours of blue sky and water. We did not fly every day, maybe three missions a week. There was no recreation down there, believe me. Since I was the youngest, it was expected of me to take care of my parents on the farm.

Kill the Farm Boy Oct 04 2021 In an irreverent series in the tradition of Monty Python, the bestselling authors of the *Iron Druid Chronicles* and *Star Wars: Phasma* reinvent fantasy, fairy tales, and floridly written feast scenes. "Ranks among the best of Christopher Moore and Terry Pratchett."—Chuck Wendig "When you put two authors of this high caliber together, expect fireworks. Or at least laughs. What a hoot!"—Terry Brooks Once upon a time, in a faraway kingdom, a hero, the Chosen One, was born . . . and so begins every fairy tale ever told. This is not that fairy tale. There is a Chosen One, but he is unlike any One who has ever been Chosen. And there is a faraway kingdom, but you have never been to a magical world quite like the land of Pell. There, a plucky farm boy will find more than he's bargained for on his quest to awaken the sleeping princess in her cursed tower. First there's the Dark Lord, who wishes for the boy's untimely death . . . and also very fine cheese. Then there's a bard without a song in her heart but with a very adorable and fuzzy tail, an assassin who fears not the night but is terrified of chickens, and a mighty fighter more frightened of her sword than of her chain-mail bikini. This journey will lead to sinister umlauts, a trash-talking goat, the Dread Necromancer Steve, and a strange and wondrous journey to the most peculiar "happily ever after" that ever once-upon-a-timed. Praise for *Kill the Farm Boy* "A rollicking fantasy adventure that upends numerous genre tropes in audacious style . . . a laugh-out-loud-funny fusion of Monty Python-esque humor and whimsy à la Terry Pratchett's *Discworld*."—Kirkus Reviews "Dawson and Hearne's reimagining of a traditional fairy tale is reminiscent of William Goldman's *The Princess Bride* and William Steig's *Shrek!* Irreverent, funny, and full of entertaining wordplay, this will keep readers guessing until the end."—Library Journal "Will have you laughing out loud until strangers begin to look at you oddly."—Syfy "A smart comedy . . . nuanced, complicated, and human."—Tordotcom "[Delilah Dawson and Kevin Hearne] make fun of the typical 'white male power fantasies,' and in that, they succeed, with their heroes all characters of color and/or falling somewhere under the LGBTQ umbrella."—Publishers Weekly

A Dakota Farm Boy Remembers Oct 16 2022 Memoir of Clarence A. Renschler of his family, childhood, school years, life on the farm, and his experiences with being a Adventist pastor.

Remembering Rosie Sep 22 2020 Remembering Rosie is about Block's childhood on a Wisconsin dairy farm in the mid-twentieth century. Growing up on the homestead with her parents and siblings was often idyllic. Still, it never stopped Block from dreaming of making a different life for herself despite many obstacles she'd face in trying to leave the land her German great-grandparents settled in the 1880s. Block and her siblings experienced long hours of tedious and dangerous work. Educational opportunities were limited, and the Ludwig children's one-room school had poorly trained teachers and few books. There was no expectation of girls going on to higher education. Block's observations of her depressive mother, the drudgery of farm life, and the short, cruel lives of farm animals were driving forces that made her take a path less followed. During a time when going against the grain was difficult, Block's restlessness and desire to see a world outside her sheltered community catapulted her into a life that the blue-eyed, blond-haired farm girl never could have imagined.

The Adventures of a Tennessee Farm Boy Feb 25 2021 *The Adventures of a Tennessee Farm Boy*, is a true story about a farm boy growing up on a farm in rural Middle Tennessee and making the journey from the farm to the courtroom, where he was active in trial and appellate practice of law for more than fifty-six years. The author honors people who have been a positive influence in his life and shares with reader true stories about his life on the farm and in the courtroom.

Stories of a Small Town Farm Boy Jul 01 2021 *Stories of a Small Town Farm Boy* is a collection of humorous anecdotes illustrating some of the problems, solutions, and issues encountered by a boy growing up in a small town farming community. The isolation of growing up out in the country provided its own set of challenges for many young school kids of this locality. Even getting acclimated to the new routine of first grade proved to be a feat, but certain new cultural forces were at work to offer alternate areas of interest and entertainment. Television and radio were both still young but made a significant impact at a time when a transistor radio could be brought along, and music could be enjoyed while pulling weeds out in the fields. Growing up with parents who had both lived through the depression added a dimension of frugality which most young people today could never imagine. Many friends and neighbors of my parents' generation actually grew up in German speaking households but were expected to attend public school where all lessons were presented in English. This book is designed to humorously present a number of significant cultural changes that have taken place in our society. Growing up with little money and a lot of responsibility made for a childhood which was diametrically opposed to current expectations. Much of what we dreamed about then is taken for granted today. Cultural changes are illustrated from the first grade through graduate school, a teaching career and retirement. Enjoy the trip.

The Iowa That Was Dec 26 2020 "You can take the boy out of the farm, but you can't get the farm out of the boy." Wayne Gustave Johnson explores this proverb as he recounts memories of his early years on an Iowa farm rented by his immigrant Swedish parents. Nourished by these gentle parents, a little church, eight years of country school, and four older siblings, Johnson established the values that shaped his life. The labor-intensive farming of the 1930s grounded him in the dignity of labor and the sense of fulfillment which comes through cooperation with nature. A little church of fundamentalist leanings nurtured his love of choral music and gave him respect for the support provided by religious faith. While his eight years of country schooling would not quite classify as prep school experience, they did provide a basic grasp of the three Rs. Sex education--of sorts--is inevitable on an Iowa farm where the romancing of farm animals is open to view. The transfer of these observed activities to human experience was natural, but required some fine-tuning. At thirteen, the death of his father prompted the author to eventually pursue the big questions through the study of religion and philosophy.

Farm Boy Comes to the City Apr 29 2021 After having had the desire to write a book on my life for years but felt I should wait for the right time. I had no writing experience or special ability in writing skills. English wasn't one of my strong points in school, and my computer skills were limited. One thing I did know and leaned on very strongly and that was, with God all things are possible. So in Dec. 2010 I felt the time had come where I should go ahead with the project which I did. Looking back now on how well it went I believe the Lord wanted me to write this book and give Him the Honor and Glory for having helped me to make this a success. I had a strong desire to thank Him for what He has done in my journey in life. So as you read or have read remember that I could not have succeeded without the Lord's help. So this can apply to your life as well. God Bless.

Lickin' the Salt Block Jan 27 2021 thomas R was born in 1955 in rural west Kentucky and soon afterward found himself living on the family farm established by his grandfather in 1912, the same year the Titanic sank. He grew up with his parents, three sisters and a brother, multitudes of cousins belonging to thirty aunts and uncles, and more extended family than can be named. He graduated from Symsonia High School in 1973 and went on to earn a degree for ministry. After having served in two other ministries for twelve years, he is currently in his twenty-second year as the children and preteen minister of Lone Oak First Baptist Church in Paducah, Kentucky. Every book has a reason for being. This one is the result of his children climbing up next to him on the sofa and saying, aTell us a story.a Ahh, but not just any story would satisfy. They wanted stories told by their daddy of the adventures he had when he was a little boy growing up on the family farm. Because Daddy was telling these stories about aDaddy,a the collection came to be known as aDaddy Daddy Stories.a aMany an enjoyable hour has been spent remembering and retelling these stories to my children of the rural farm life I lived. I hope you also find them enjoyable. And who knows, you also might remember a story or two of your own to share with your children. It is one connection to you that they will cherish for their entire lives.a

Farm Boy, City Girl Jun 19 2020 In the 1930s, John "Gene" E. Dawson was a shy, insecure boy who had been born to a struggling Iowa farm family during the Great Depression. In his memoir, *Farm Boy, City Girl: From Gene to Miss Gina*, Gene first recalls his years as a "Farm Boy," when he and his brothers worked alongside their parents as soon as they were able and attended country school. But life wasn't all work and school, and he writes about his love for and time with his extended Irish Catholic family. As a teenager, the "Farm Boy" realized that he never would be like his male peers and interested in girls. When Gene eventually decided that he could not lead a double life and pretend to be heterosexual, he began his life away from the farm as a "City Girl," complete with beautiful clothes and makeup. But that chapter in his life came to an abrupt halt when tragedy struck his family. It would be four more years before he again could live in a city. Gene's life story takes the reader through the twists and turns of reconciling his love of family, God, and the Catholic Church with being able to accept himself. As Gene tried to live a life true to himself, there were some turbulent times in a world where not everyone was accepting of the gay lifestyle.

Seneca Seasons Aug 14 2022 In *Seneca Seasons*, Larry Scheckel takes us to his boyhood days, growing up with eight siblings on the family farm in the hill country of southwestern Wisconsin. With both humor and grace, he shares his memories of seasonal farm life and the one-room country school out on Oak Grove Ridge, which was the social heart of the community, from the basket social to the Christmas program and the end-of-the-year school picnic. Join Scheckel on his nostalgic and evocative journey back to a simpler time when life revolved around family, farm, Church, and seasons. The is what Larry has to say about this memoir: "All the events in the book really happened, but the mind is not a video camera, so my stories are only as accurate as my memory. This memoir is a collection of impressions that still linger in my heart. When I was 18 years old, I left the farm and joined the Army. I was sent to Fort Leonard Wood, Missouri, in October 1960. After that, I often visited, but never again worked on the farm. Our Crawford County farm was located in the middle of Seneca Township. Called the Driftless area, it was roughed up by the glaciers 10,000 years ago. Hill country is where farmers plow the narrow ridge hilltops and the coulee bottoms. People think that all farm country is flat, and a lot of it is. If you look at a plat book or county road map of Iowa, you will see roads that are straight lines. That is flat country. But if you glance at a road map of Crawford County, the roads look like spaghetti on a plate. The roads follow the ridge tops and "are so crooked they could run for Congress," we often joked. Most families on Oak Grove Ridge were either German, Norwegian, Irish or English. The Scheckels were German. People celebrated their heritage by keeping traditions alive. The Norwegians made their lefse flatbread and lutefisk and sent their children to Norwegian language summer schools. Germans were fond of their wurst sausages and ale beers. The Irish celebrated their music, St. Patrick's Day, and their Catholic heritage. Saints and sinners lived on Oak Grove Ridge. Most attended a church of their chosen religion. The Scandinavians gravitated to the Lutheran Church. The Irish were partial to the Catholic faith. The Germans practiced both. Most people behaved themselves. Some drank more than they should. A few farmers treated their spouses and children harshly. Most people stayed married to the same mate their entire life. Divorce was a rarity. If a farmer found "a new lily to pollinate," it was rumored he was "tilling other fields." Nobody thought they were better than anybody else. Arguments and feuds rarely occurred. Everybody just tried to get along and get ahead. Farmers helped other farmers, especially if one was injured or sick. Late-summer threshing crews bound neighbors together. The sense of community was strong. The Oak Grove District #15 one-room country school was a focal point that drew all families together three times a year. Appropriately, it sat on a hill in the middle of Oak Grove Ridge. The children of those farmers mingled, worked together, learned together, and played together. Kids talked. There were few family secrets. Perhaps there were easier places to grow up in America in the 1940s and 1950s, but I'd pick the 238-acre farm on Oak Grove Ridge. The lessons learned from Dad, Mom, my brothers and sisters, the one-room country school, and St. Patrick's Catholic Church have lasted me a lifetime. This narrative means to capture a slice of an unique era in Wisconsin history. It was the age when horses were supplanted by tractors and when a threshing band of neighbors was replaced by the combine. Through all these changes, though, the beat of the heartland, of its simple people and their direct ways, has remained ever the same. In the end, that is why that farm on Oak Grove Ridge has never stopped calling me home."

Limping through Life Feb 08 2022 *Limping through Life A Farm Boy's Polio Memoir* Jerry Apps "Families throughout the United States lived in fear of polio throughout the late 1940s and early 1950s, and now the disease had come to our farm. I can still remember that short winter day and the chilly night when I first showed symptoms. My life would never be the same." —from the Introduction Polio was epidemic in the United States starting in 1916. By the 1930s, quarantines and school closings were becoming common, as isolation was one of the only ways to fight the disease. The Sauk vaccine was not available until 1955; in that year, Wisconsin's Fox River valley had more polio cases per capita than anywhere in the United States. In his most personal book, *Jerry Apps*, who contracted polio at age twelve, reveals how the disease affected him physically and emotionally, profoundly influencing his education, military service, and family life and setting him on the path to becoming a professional writer. A hardworking farm kid who loved playing softball, young Jerry Apps would have to make many adjustments and meet many challenges after that winter night he was stricken with a debilitating, sometimes fatal illness. In *Limping through Life* he explores the ways his world changed after polio and pays tribute to those family members, teachers, and friends who helped him along the way.

Dawson's life growing up in Depression-era Iowa in a poor farming Irish-Catholic family and his adult years spent living on the LGBTQ cultural edge in Cedar Rapids, Iowa, and St. Louis. The book offers a rare glimpse into the Mid-20th Century history of both rural Iowa and of LGBTQ individuals in Middle America—told by one who was there. Part One, *Farm Boy 1931–1949*: Gene recounts his years growing up in the Great Depression, moving with his family from rental farm to rental farm until his parents could afford to purchase their own land and home. Life was difficult and often brutal for anyone during this time, but especially so for a gender-fluid gay child/teenager. Part Two, *Transition and Tragedy 1950–1959*: Gene initially leaves the farm and begins transitioning into his new life as a gay man in the cities of Cedar Rapids and St. Louis, adopting the "city girl" persona of Gina. But the tragic accidental death of his mother forces him to move back to his family's home in Iowa where he faces gut-wrenching family drama and the loving burden of helping to raise his three younger brothers. Part Three, *City Girl*

1960—: Gene returns to Cedar Rapids before finally moving on to live an open, full existence as Miss Gina in St. Louis. Even in the city though, life was quite hard for openly gay men, and Gene recounts multiple harrowing tales involving the brutality of police, gay bar life, and the unsung heroism of Midwestern LGBTQ people—years before the famous Stonewall riot in New York City.

A Farm Boy Sees the World Nov 24 2020 This story about a farm boy who for the first time is really exposed to the world as he had never envisioned it to be, but grew up fascinated by the variety and unique types of people whom he has encountered over the course of his lifetime. Obviously, a great deal has been left out or omitted: some intentionally, and some inadvertently. The aging mind begins to remember people, places and events which have had a lasting impact as the years have gone by. Ive no doubt left out some very salient points which others may remember, but I have forgotten. I also, however, have remembered events people and places which some persons may have preferred to forget. Hence, as time goes by those whose lives have had the greatest impact upon my own life may already be among those who have gone on while the rest of us await our own end one of these years.
