**Best Seat in the House: A Father, a**

**Daughter, a Journey Through Sports** Jan 29 2021 From the best-known and most widely read woman sports columnist in the United States comes a remarkable memoir of a father and a daughter, the story of a girl who would turn her love for sports into a trailblazing career.

Christine Brennan grew up in Toledo, Ohio, spending her summers playing with the boys on her block, memorizing baseball statistics, accompanying her dad to countless baseball and football games, and falling in love with everything about sports. While other girls were playing with Barbie dolls, Chris was collecting baseball cards and listening to the radio for the play-by-play accounts of her favorite teams. The eldest of four children, Chris was her father's daughter from the beginning. For a girl growing up in the 1960s and '70s, in the days before Title IX changed the playing fields of America, there were few opportunities to play organized sports. But Jim Brennan encouraged his daughter to believe she could play anything she wanted to,

and when she couldn't be on the field, he was by her side in the stands -- she always thought the seat next to her father was the best seat in the house -- usually cheering for the underdog, and making sure Chris knew there was a place for her in the world of sports. In her warm and inspiring memoir, the first of its kind by a female sports journalist, Brennan takes readers from her neighborhood ball fields to the press boxes and locker rooms of stadiums around the world. Guided by her father's unfailing sense of loyalty, honor, and fairness, at the age of twenty-two she became the first female sportswriter for The Miami Herald, and in 1985 was the first woman to cover the Washington Redskins as a staff writer for The Washington Post. Over the past quarter century, Brennan has reported on many of the biggest stories in sports, and led the coverage of both the 1994 Tonya Harding-Nancy Kerrigan saga and the pairs figure-skating scandal at the 2002 Salt Lake Olympics. Her USA Today column on Augusta National Golf

Club, home of the Masters, triggered a nationwide debate about the club's lack of female members. Told in the spirited, friendly voice that readers of her column have come to love, Best Seat in the House is the heartwarming chronicle of a girl who came of age as women's sports were coming of age, encouraged every step of the way by her beloved father.

*Lobsterland* Jun 21 2020 Tourists may think life on an island off the coast of Maine is quaint, but Charlotte knows better. She's tired of her island prison (it has a real name, but she calls it "Bleak"), and she's sure that a life in the great anywhere-else is heaps better than one that

revolves around catching a ferry to the mainland. She even has the perfect solution: boarding school. But who will take care of the siblets? Will clinically crazy Mom or organic-obsessed Dad be able to hold things together without her there? And is Charlotte ready to leave love-of-her-life Noah behind? Susan Carlton has created a remarkably vivid, strong character in Charlotte; her intelligence, charm, and biting sarcastic wit are sure to win over anyone who has ever wanted more than Bleak. "A realistic picture of a girl who yearns for independence but secretly fears letting go of the familiar." - Publishers Weekly

*Electric Trucks* Oct 18 2022 Welcomed at end of the 19th century as the solution to the severe problem of horse manure in city streets, electric trucks soon became the norm for short-haul commercial deliveries. Though reliable, they were gradually replaced by gasoline-powered trucks for long-haul deliveries—although a fleet of electric milk trucks survived in Great Britain

into the 1960s. Industrial electric vehicles never disappeared from factories and ports. During the past decade, with the availability of the lithium-ion battery, the electric truck is back on the road for all payloads and all distances. The fourth in a series covering the history and future of electric transport, this book chronicles the work of the innovative engineers who perfected e-trucks large and small.
