Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. In the late 19th century, Fort Worth's Quality Hill succeeded Samuels Avenue as the city's prestigious residential neighborhood. Cattle barons, bankers, attorneys, and business entrepreneurs selected this west-side locale to construct exquisite homes that reflected their wealth and prominence in the community. Bounded by Seventh Street on the north, Pennsylvania Avenue on the south, Henderson Street on the east, and the Trinity River on the west, the area had an unequalled civility. Quality Hill set the standard for fine living, elaborate entertaining, and philanthropy. Just a handful of these gracious homes have survived the years. Fort Worth's Quality Hill offers you an opportunity to explore this historic neighborhood in its finest and waning days." This book analyzes major contemporary political and security problems in Central and Eastern Europe (CEE). Presenting case studies on various CEE countries, it highlights the persistence of non-democratic political trends in the region, with particular emphasis on authoritarianism in Belarus and the illiberal shift in the politics of Hungary and Poland. Also, the book examines the growing geopolitical and military rivalry between the West and Russia in the CEE region, which led to Russia's invasion of Ukraine. After addressing the increasing involvement of external entities such as NATO, the EU, the USA, Germany, France, and China, it highlights serious internal and external challenges to the democratic institutions and international security of CEE that call for new formats of multilateral cooperation to be established by the region's countries. This book is intended for scholars and students of European politics, international relations and security studies, and for anyone interested in the political and security challenges facing the CEE region. The state of Jharkhand quintessentially reflects an enormous diversity of natural, cultural, social, political and geographical structures. This exquisite land represents swings of mellifluous music and pulchritudinous dance. Citizens enjoy the tune of dhol, mandar and flute which manifests the spirit of collectivism. The festivals and rituals such as Karma Puja, Sarhul, Tusu, Sohrai symbolize centrality of nature, its pristine simplicity, charm and harmony. This book provides complete information about various aspects of Jharkhand. It contains twenty chapters encompassing meticulous analysis of its historical, geographical, political, social, cultural and economic situations of the state. The contemporary development in terms of programs and policies has been presented along with statistical diagrams, which helps readers to comprehend the current scenario comfortably. In addition, up-to-date information has been compiled to facilitate students appearing for various competitive examinations. 893 objective questions along with their answers and fifty practice question sets make this book unique for young students aspiring to shape up their career. This book renders judicious mix of information, thoughtful interpretation of data, its analysis, and contemporary raw facts. This book is expected to be of great use not only for young students aiming at nailing competitive exams but also for researchers, teachers and avid readers who wish to explore this fascinating state. The Azores archipelago consists of nine islands that emerge from the Azores Plateau in the Central Northern Atlantic, situated within the triple junction of the American, Eurasian and African lithosphere plates. Subaerial volcanic activity has been well known since the Pliocene and continues today, with several well-documented eruptions since the settlement of the islands in the fifteenth century. The origin of the Azores Plateau has been a matter of scientific debate and thus this book provides the first comprehensive overview of geological features in the Azores from volcanological, geochemical, petrological, paleontological, structural and hydrological perspectives Diamond Power Learning has come up with a Nine Monthly-Current Affairs Manual, for the year 2014-15. The manual comprises of different sections like Add-ons which has General Knowledge topics like Important Facts about the Earth, Important Crops of India, Indian States with International Boundaries, Important National Highways, Important Rivers and River Valley Projects of India, Important Towns on the River Banks, Sanctuaries and Parks in India, Mineral Resources of India, Nation and their Emblems, Biggest-Highest-Longest and the Largest in the World, Inventions and Discoveries, Nicknames of Important Indian Places, Newspaper/Journals in the History of India, Important Institutions of India, Basic Facts about the Human Body and many more. We have a special section for the readers for the In-Press News, which have covered the important Highlights of the time when the manual was about to be printed. One special Highlight is covered in an article form which comes under the section of News of the Months, with added MCQs to them. We have covered News under various sub-topics dated from Aug' 14 till date, like Persons and Places in News, Appointments and Resignations, Awards and Honors, Bills/Laws/Constitutions, Books and Authors, Summits/Events and Conferences, Obituaries, National, International, India and the World, State, Sports, Science and Technology & Defence, Economy, Banking & RBI, Corporate, Reports and Surveys, Miscellaneous and have given various types of MCQs for the competitive Examinations. Union Budget, Railway Budget for the year 2015-16, Economic Survey for the year 2015 and Census 2011 is also there in the manual and a separate Questionnaire is also there. Articles on different burning topics have also been included. Furthermore, the magazine consists of a special section that has a collection of different types of MCQs for the competitive examinations. All in all, the Nine Monthly Manual from Diamond Magazines is a sure pathway to success in the competitive examinations. DigiCat Publishing presents to you this special edition of "The Railway Library, 1909" (A Collection of Noteworthy Chapters, Addresses, and Papers Relating to Railways, Mostly Published During the Year) by Various. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature. Drawing on examples from the global North and South, this book examines the relationship between migration, development and diaspora engagement from a governance perspective. It explores the ways that governments interact with their own extra-national diasporic populations in order to boost economic development, build global trading and investment networks, and increase their political leverage overseas. Inside, readers will find fifteen essays which highlight such issues as diaspora engagement by governments at different scales, the divisions that often exist within diaspora groups, diaspora transnationalism and return migration, diaspora knowledge networks and higher education capacity building, and the neglected issues of South-South migration and diasporas as well as North-South migration and diasporas. The book presents empirical case studies from various geographical contexts including Australia, Canada, the Philippines, India, the Caribbean, Zimbabwe, and the United States. Overall, this book presents fresh insights into how and why migrant-sending countries are increasingly turning to the diaspora option to attempt to benefit from the transfer of knowledge, skills and financial and social capital. It provides policy makers, researchers, and students with new perspectives on governance and the means by which states are attempting to utilize their diaspora resources.
