Uncle Rico's Encore Jan 24 2020 From the 1950s through the 1970s, blue-collar Filipino Americans, or Pinoys, lived a hardscrabble existence. Immigrant parents endured blatant racism, sporadic violence, and poverty while their US-born children faced more subtle forms of racism, such as the low expectations of teachers and counselors in the public school system. In this collection of autobiographical essays, acclaimed novelist and short-story writer Peter Bacho centers the experiences of the Pinoy generation that grew up in Seattle's multiethnic neighborhoods, from the Central Area to Beacon Hill to Rainier Valley. He recounts intimate moments of everyday life: fishing with marshmallows at Madison Beach, playing bruising games of basketball at Madrona Park, and celebrating with his uncles in Chinatown as hundreds of workers returned from Alaska canneries in the fall. He also relates vivid stories of defiance and activism, including resistance to the union-busting efforts of the federal government in the 1950s and organizing for decent housing and services for elders in the 1970s. Sharing a life inextricably connected to his community and the generation that came before him, this memoir is a tribute to Filipino Seattle.

The Latinos of Asia Oct 21 2019 Is race only about the color of your skin? In *The Latinos of Asia*, Anthony Christian Ocampo shows that what "color" you are depends largely on your social context. Filipino Americans, for example, helped establish the Asian American movement and are classified by the U.S. Census as Asian. But the legacy of Spanish colonialism in the Philippines means that they share many cultural characteristics with Latinos, such as last names, religion, and language. Thus, Filipinos' "color"—their sense of connection with other racial groups—changes depending on their social context. The Filipino story demonstrates how immigration is changing the way people negotiate race, particularly in cities like Los Angeles where Latinos and Asians now constitute a collective majority. Amplifying their voices, Ocampo illustrates how second-generation Filipino Americans' racial identities change depending on the communities they grow up in, the schools they attend, and the people they befriend.

Ultimately, *The Latinos of Asia* offers a window into both the racial consciousness of everyday people and the changing racial landscape of American society.

Bandido Oct 01 2020 "I am Javier Española... and I am a criminal. Don't think of me like a mafia don or a cunning mastermind. I'm nothing more than a desperado, trying to survive and trying to succeed. I'm not fond of my criminal career, illustrious may it seem, for this was because of necessity. There is no justification for what I have done, for all the disgusting, monstrous, and cruel things I have wrought my fellow men. But for those who know of my story, it is a tale fitting for anyone who has also suffered poverty in life."Based on the harrowing real-life accounts of the Philippines' most notorious criminal gang, Bandido tells the story of Javier Española and Richie Hanopol, Waray-Waray gangsters, as they waged war on their government against poverty and injustice. The story takes readers back in time to the late 90s to the early 2000s in one of the worst decades in this country's history. Filled with social commentary and detailed historical accounts of the time, this is a must-read Noir novella for every Filipinos out there.

Story Logic Mar 18 2022 Featuring a major synthesis and critique of interdisciplinary narrative theory, Story Logic marks a watershed moment in the study of narrative. David Herman argues that narrative is simultaneously a cognitive style, a discourse genre, and a resource for writing. Because stories are strategies that help humans make sense of their world, narratives not only have a logic but also are a logic in their own right, providing an irreplaceable resource for structuring and comprehending experience. Story Logic brings together and pointedly examines key concepts of narrative in literary criticism, linguistics, and cognitive science, supplementing them with a battery of additional concepts that enable many different kinds of narratives to be analyzed and understood. By thoroughly tracing and synthesizing the development of different strands of narrative theory and provocatively critiquing what narratives are and how they work, Story Logic provides a powerful interpretive tool kit that broadens the applicability of narrative theory to more complex forms of stories, however and wherever they appear. Story Logic offers a fresh and incisive way to appreciate more fully the power and significance of narratives.

Intermediate Tagalog Feb 05 2021 At last, a way to improve your Tagalog! Written by Joi Barrios as the continuation of her best-selling Tagalog for Beginners book, Intermediate Tagalog is the first

intermediate-level book designed specifically for people who already speak or understand some basic Tagalog and now wish to achieve greater fluency in speaking, reading and writing standard Filipino--the national language of the Philippines. The carefully-constructed lessons in this book point out common grammatical errors that English speakers make when speaking Tagalog, and present "real-life" conversations demonstrating how the language is spoken in Manila today. Extensive cultural notes are provided, along with exercises and activities that introduce the use of the Tagalog language in a wide range of everyday situations. The 20 lessons give you all the basic skills needed to speak Tagalog fluently: paglalarawan (the ability to describe people, places and feelings); pagsasalaysay (the ability to tell a story--whether a news story, a folktale, or an anecdote); paglalahad (how to explain something--for example, a custom or tradition, or how to cook a dish); and pangangatwiran (reasoning and abstract thinking). Each lesson is carefully structured in six key parts: A "real-life" dialogue providing valuable conversational skills. A vocabulary list to expand your familiarity with common, everyday Tagalog words and expressions. A grammar review section (for example, on the correct uses of affixes in various sentence constructions). Insightful cultural notes presenting aspects of the Philippines that may seem "odd" to outsiders, to explain how Filipino culture shapes the way people speak. A reading passage from a story or newspaper article, with comprehension questions. A writing exercise designed to teach a specific writing skill. Using Intermediate Tagalog, you'll be able to talk about yourself, your family and your daily experiences using grammatically correct sentences and a native-speaker level vocabulary.
