Eureka Math is a comprehensive, content-rich PreK–12 curriculum that follows the focus and coherence of the Common Core State Standards in Mathematics (CCSSM) and carefully sequences the mathematical progressions into expertly crafted instructional modules. The companion Study Guides to Eureka Math gather the key components of the curriculum for each grade into a single location, unpacking the standards in detail so that both users and non-users of Eureka Math can benefit equally from the content presented. Each of the Eureka Math Curriculum Study Guides includes narratives that provide educators with an overview of what students should be learning throughout the year, information on alignment to the instructional shifts and the standards, design of curricular components, approaches to differentiated instruction, and descriptions of mathematical models. The Study Guides can serve as either a self-study professional development resource or as the basis for a deep group study of the standards for a particular grade. Teachers familiar with the Eureka Math curriculum will also find this resource valuable as it allows for a meaningful study of the grade level content in a way that highlights the coherence between modules and topics. New Testament Study Guide, Pt. 3: The Epistles & the Book of Revelation. This volume is the third of three on the New Testament. An unusually large volume, it covers most of the Book of Acts, the New Testament epistles, and the Book of Revelation. We read of Saul's conversion and then follow him as the Apostle Paul as he takes his five major journeys throughout the Mediterranean area. The book of Acts provides the historical context to his journeys. Along the way, we read his teachings in his 14 marvelous epistles to early Church members. Eventually, we follow Paul to Rome where he was martyred for the cause of Christ. This volume also covers the epistles of James, Peter, John, and Jude. And finally, we read the Book of Revelation?John's apocalyptic messages written while he was on the Isle of Patmos. The cover features a classic painting of "St. Paul at His Writing Desk," painted by Rembrandt in 1692. Key concept summaries reinforce critical material from the primary book and enhance mastery of this complex subject. Organic chemistry is a constantly evolving field that has great relevance for all scientists, not just chemists. For chemical engineers, understanding the properties of organic molecules and how reactions occur is critically important to understanding the processes in an industrial plant. For biologists and health professionals, it is essential because nearly all of biochemistry springs from organic chemistry. Additionally, all scientists can benefit from improved critical thinking and problem-solving skills that are developed from the study of organic chemistry. Organic chemistry, like any "skill", is best learned by doing. It is difficult to learn by rote memorization, and true understanding comes only from concentrated reading, and working as many problems as possible. In fact, problem sets are the best way to ensure that concepts are not only well understood, but can also be applied to

real-world problems in the work place. Helps readers learn to categorize, analyze, and solve organic chemistry problems at all levels of difficulty Hundreds of fully-worked practice problems, all with solutions Key concept summaries for every chapter reinforces core content from the companion book In the classic Mere Christianity, C.S. Lewis, the most important writer of the 20th century, explores the common ground upon which all of those of Christian faith stand together. Bringing together Lewis' legendary broadcast talks during World War Two from his three previous books The Case for Christianity, Christian Behavior, and Beyond Personality, Mere Christianity provides an unequalled opportunity for believers and nonbelievers alike to hear this powerful apologetic for the Christian faith. The world seems more fractured each day. People are asking, "Is this the End?" Never have the headlines been this jarring, the cultural changes this rapid, or the moral decay this pronounced. What on earth is

happening? After each new occurrence, the most oft-heard questions are, "Will the world ever be the same again?" and "Where is God in all of this?" Over the last few decades, Dr. David Jeremiah has become one of the world's most sought-after Christian leaders on topics that deal with biblical application and modern culture. And few would dispute that the pace at which things are currently changing is unprecedented. The time has come to accept this new normal, Jeremiah says, and understand how God's hand is still at work on His eternal plan for mankind. No one can afford to ignore these warnings, but all can better understand the greater story and the role we each play in this changing world. From prophetic clues in Scripture to an understanding of the power of Christ in all believers, this book directs us on a clear path forward. The book is split into two sections, each covering items surrounding two important questions. Is This the End of America? and Is This the End of the World? Includes detailed chapters on: Terrorism ISIS and Radicalized Islam The New Russia The Bleeding of America's Borders The "Anything Goes" Society Polarization and Divisiveness The Coming of Christ and many more "Ask anything in my name, I will do it." (John 14:14) Charles H. Spurgeon supplies daily deposits of God's promises into the reader's personal bank of faith. Winner of the 2020 Society of Professors of Education Outstanding Book Award Drawing on personal stories, research, and historical events, an esteemed educator offers a vision of educational justice inspired by the rebellious spirit and methods of abolitionists. Drawing on her life's work of teaching and

researching in urban schools, Bettina Love persuasively argues that educators must teach students about racial violence, oppression, and how to make sustainable change in their communities through radical civic initiatives and movements. She argues that the US educational system is maintained by and profits from the suffering of children of color. Instead of trying to repair a flawed system, educational reformers offer survival tactics in the forms of test-taking skills, acronyms, grit labs, and character education, which Love calls the educational survival complex. To dismantle the educational survival complex and to achieve educational freedom—not merely reform—teachers, parents, and community leaders must approach education with the imagination, determination, boldness, and urgency of an abolitionist. Following in the tradition of activists like Ella Baker, Bayard Rustin, and Fannie Lou Hamer, *We Want to Do More Than Survive* introduces an alternative to traditional modes of educational reform and expands our ideas of civic engagement and intersectional justice.

Preached at Enfield, Connecticut on July 8, 1741, this is perhaps the greatest sermon ever preached in America—and is certainly among the most well known. Owing to its forthright dealing with God’s wrath and His intense hatred of sin and the sinner, it is also one of the most controversial. Indeed, for more than three-quarters of the sermon Edwards lays down a relentless stream of the most vivid and horrifying descriptions of the danger facing unregenerate men. While it is difficult to read such graphic language, there is abundant hope in the sermon’s conclusion. Edwards puts it this way, “And now you have an extraordinary opportunity, a day wherein Christ has thrown the door of mercy wide open and stands calling and crying with a loud voice to poor sinners.”

While those who would rather ignore God’s justice in favor of His mercy condemn Edwards and his sermon, those who were present and actually heard him preach that day reacted in a decidedly different manner. According to the diary of Reverend Stephen Williams who attended the sermon, “Before the sermon was done there was a great moaning and crying through the whole House, ‘what shall I do to be saved; oh, I am going to hell,

etc.’” The diary goes on to indicate that Edwards had to interrupt his sermon and come down to minister to those who were under such awful conviction. And so, in spite of what the scoffers might think or say, “the amazing and astonishing power of God” was manifested among the people that day—with many falling not into the hands of an angry God, but into the arms of a mighty Savior. Who Will Usher in Earth’s Final Days? Are we living in the end times? Is it possible that the players depicted in the book of Revelation could be out in force today? And if they are, would you know how to recognize them? In *Agents of the Apocalypse*, noted prophecy expert Dr. David Jeremiah does what no prophecy expert has done before. He explores the book of Revelation through the lens of its major players—the exiled, the martyrs, the elders, the victor, the king, the judge, the 144,000, the witnesses, the false prophet, and the beast. One by one, Dr. Jeremiah delves into their individual personalities and motives, and the role that each plays in biblical prophecy. Then he provides readers with the critical clues and information needed to recognize their presence and power in the world today. The stage is set, and the curtain is about to rise on Earth’s final act. Will you be ready?
