When super-sleuth Ralph Quigley was called in by Sir Phillip Braithwaite to investigate a threat on his life, he was given a list of suspects: three family members, an ex-mistress and her son and his ex butler. Ralph had to work quickly to interview them, as the killer was to strike before the coming 'Blue Moon' in about two weeks. None on the list seemed to be likely candidates, but attitudes changed when he informed them that Sir Phillip, to their detriment, was preparing a new will. By the stroke of midnight on the last day, all but three of the suspects broke into the manor and were apprehended. They heard a gunshot from Sir Phillip's room but found the door secured with a key in the outside lock. They discovered him inside slumped in a chair, dead from a wound to the temple. A clear case of murder - or was it? What was the significance of the yellow pencil and rubber band? Ralph knew the case was solved but no-one gave him credit, except Inspector Love.

In *A Modern Guide to Knifemaking*, survivalist Laura Zerra, one of the stars of *Naked and Afraid* on the Discovery Channel, shares her essential knifemaking tips and tricks, including step-by-step instructions for both forging and stock removal. We all use a knife pretty much every day, but for Zerra, her daily life often depends on the blade she takes with her into the wild. She's learned about what works and what doesn't, what steel will hold an edge, and what nuances in blade design will make or break a knife. From design to sharpening, *A Modern Guide to Knifemaking* covers every step in the knifemaking process. To begin, you will consider what you want your knife to accomplish, develop a design, and make a prototype. Zerra takes you through choosing and buying steel for your knife and then teaches you to build your own forge. You will learn forging basics and then move on to forge the shape of your knife and make the blade tip. From there, you will cut the blade profile, grind in bevels to make the edge of the knife, heat treat and temper your blade, grind and polish it, and make a handle and sheath for it. You will also learn sharpening techniques to maintain the edge of your new knife. Throughout, Zerra has included Pro-Tips from some of the leading knifemakers working today including Ken Onion, Kaila Cumings, and Mike Jones. *A Modern Guide to Knifemaking* covers every detail of knifemaking so you can make yourself the perfect knife. Why are most of us so woefully uninformed about our kitchen knives? We are intimidated by our knives when they are sharp, annoyed by them when they are dull, and quietly ashamed that we don't know how to use them with any competence. For a species that has been using knives for nearly as long as we have been walking upright, that's a serious problem. *An Edge in the Kitchen* is the solution, an intelligent and delightful debunking of the mysteries of kitchen knives once and for all. If you can stack blocks, you can cut restaurant-quality diced vegetables. If you can fold a paper airplane, you can sharpen your knives better than many professionals. Veteran cook Chad Ward provides an in-depth guide to the most important tool in the kitchen, including how to choose the best kitchen knives in your price range, practical tutorials on knife skills, a step-by-step section on sharpening, and more—all illustrated with beautiful photographs throughout. Along the way you will discover what a cow sword is, and why you might want one; why chefs are abandoning their heavy knives in droves; and why the Pinch and the Claw, strange as they may sound, are in fact the best way to make precision vegetable cuts with speed and style. *An Edge in the Kitchen* is the one and only guide to the most important tool in the kitchen.
