With a unique perspective on global multiculturalism and diversity, this book introduces a new method, the cultural metaphor, for understanding easily and quickly the cultural mindset of a nation and comparing it to other nations. Martin J Gannon identifies a key aspect of a nation's culture that most exemplifies the essence of that country. The characteristics of that metaphor become the basis for describing and understanding the cultural mindset of a society, the manner in which its members think, feel and behave, simply because they are members of that culture. 17 nations are examined in this manner. A historical atlas of America based on twenty expeditions which were undertaken by real explorers. A number of the basic tenets of Jewish belief regarding the afterlife, resurrection, immortality, judgment, messianism, and the world to come are laid out in this fascinating and accessible volume. Beginning with the Bible's references to Sheol and its allusions to resurrection, this survey explores immortality and bodily resurrection in Second Temple literature; the Mishnah's discussions of olam ha-ba, or the world to come, and how to merit entry into it; and the Talmud's depictions of paradise and hell, and the soul's journey through these metaphysical landscapes. The book also explores the views of medieval scholars such as Maimonides and Nahmanides, Jewish mystical teachings about reincarnation, and modern views of faith and belief, as well as the evolving view of the Messiah over the course of Jewish history. This absorbing study demonstrates that the afterlife is indeed a vital part of Judaism as it reveals how generations of Jews, from biblical times to the present, have grappled with the core ideas and beliefs about the hereafter. In the fully updated Sixth Edition of Understanding Global Cultures: Metaphorical Journeys Through 34 Nations, Clusters

of Nations, Continents, and Diversity, authors Martin J. Gannon and Rajnandini Pillai present the cultural metaphor as a method for understanding the cultural mindsets of individual nations, clusters of nations, continents, and diversity in each nation. A cultural metaphor is any activity, phenomenon, or institution that members of a given culture consider important and with which they identify emotionally and/or cognitively, such as the Japanese garden and American football. This cultural metaphoric approach identifies three to eight unique or distinctive features of each cultural metaphor and then discusses 34 national cultures in terms of these features. The book demonstrates how metaphors are guidelines to help outsiders quickly understand what members of a culture consider important. The main objective of this book is to provide students, scholars, and practitioners a detailed background on the human resource management (HRM) practices in Mexico. This book provides ten distinguishing chapters focusing on the core functions of HRM in Mexico. The writing and researching for this book took almost a year (June 2010 to May 2011). Scholarly databases of ABI Global Inform, Business Source Complete, Google Scholar among several others were diligently searched for relevant articles for each chapter. A comprehensive bibliography is provided at the end of the book. Each chapter has its learning goals, discussion questions, and team activities to engage students in active learning. Each chapter also provides an implication section for multinational practitioners. The chapter on "best practices" includes qualitative interviews with the HRM leaders of the "best companies." This book has 15 tables and two appendices that provide important information on the main concepts from the various chapters.. There is paucity in the literature in obtaining consolidated information on Mexican HRM practices. This book addresses this dearth in the international literature by providing individual chapters on the different HRM practices adopted in Mexico. The information in this book provided will be beneficial for both scholars and practitioners. Includes Practical hints to teachers by Rev. A.F. Schauffler. The New Living Translation breathes life into even the most difficult-to-understand Bible passages, changing lives as the words speak directly to their hearts. Revelation is probably the most read, but least understood book of the Bible. History is replete with examples of how not to interpret it, and books featuring end-of-world prophecy claims based on Revelation consistently top the bestseller lists. But how can the message of such an enigmatic book be applied to our lives today? In *Discipleship on the Edge*, Darrell W. Johnson drives home the challenging and practical message of Revelation in thirty carefully crafted sermons. Paying careful attention to the original context of Revelation and the circumstances surrounding its composition, Johnson shows that the book is not a "crystal ball" but rather a "discipleship manual." Thoroughly researched and yet accessible, this collection of sermons is a helpful resource for pastors and small group leaders who are looking for models to help them preach and teach the message of Revelation in a time when there is much confusion about the end times. Darrell W. Johnson serves as Scholar-in-Residence at The Way Church and Canadian Church Leaders Network in Vancouver, British Columbia, Canada. A popular conference and retreat speaker, he has also served as the preaching pastor for a number of congregations in North America and the Philippines, as well as serving as Adjunct Professor of Preaching for the Doctor of Ministry program at Fuller Theological Seminary in Pasadena, California, and a Teaching Fellow at Regent College. His other books include *Experiencing the Trinity* and *Fifty-Seven Words That Change The World*. The #1 bestseller that tells the remarkable story of the generations of American artists, writers, and doctors who traveled to Paris, the intellectual, scientific, and artistic capital of the western world, fell in love with the city and its people, and changed America through what they learned, told by America's master historian, David McCullough. Not all pioneers went west. In *The Greater Journey*, David McCullough tells the enthralling, inspiring—and until now, untold—story of the adventurous American artists, writers, doctors, politicians, and others who set off for Paris in the years between 1830 and 1900, hungry to learn and to excel in their work. What they achieved would profoundly alter American history. Elizabeth Blackwell, the first female doctor in America, was one of this intrepid band. Another was Charles Sumner, whose encounters with black students at the Sorbonne inspired him to become the most powerful voice for abolition in the US Senate. Friends James Fenimore Cooper and Samuel F. B. Morse worked unrelentingly every day in Paris, Morse not only painting what would be his masterpiece, but also bringing home his momentous idea for the telegraph. Harriet Beecher Stowe traveled to Paris to escape the controversy generated by her book, *Uncle Tom's Cabin*. Three of the greatest American artists ever—sculptor Augustus Saint-Gaudens, painters Mary Cassatt and John Singer Sargent—flourished in Paris, inspired by French masters. Almost forgotten today, the heroic American ambassador Elihu Washburne bravely remained at his post through the Franco-Prussian War, the long Siege of Paris, and the nightmare of the Commune. His vivid diary account of the starvation and suffering endured by the people of Paris is published here for the first time. Telling their stories with power and intimacy, McCullough brings us into the lives of remarkable men and women who, in Saint-Gaudens' phrase, longed "to soar into the blue."
