A Couple's Guide to Happy Retirement And Aging Sep 25 2020 "Wise, practical, wryly good-humored, and immensely helpful, this book is a must-read for the millions of boomers entering retirement age." —Jane Mansbridge, PhD, Adams Professor, Kennedy School, Harvard University A Couple's Guide to Happy Retirement is the most comprehensive book devoted entirely to relationship issues in retirement. Not a book on money management, this is a much-needed guide to the psychological aspects of retirement and how to make your retirement relationship happy, fruitful, loving, and successful. Written by a psychologist specializing in work and family issues, and based on actual accounts from retired couples, this book helps you prepare emotionally for the dramatic life changes during retirement, coaches you to find new purposes and meaning in life beyond work, nurtures the relationship with your companion to strengthen your friendship and love, explores sexuality after retirement and how you can enjoy it as much as you did as a younger couple, and recommends strategies to successfully navigate differences around money, time together versus apart, housework, and family relationships. It is crucial that couples prepare themselves and their marriages psychologically for what could very well comprise a quarter of their lives. A Couple's Guide to Retirement shows you how to do that—so that you'll have the time of your life. "An extremely helpful perspective in meeting the challenge of aging and retirement, young or older." —James I. Ausman, MD, PhD, and Carolyn R. Ausman, BSS, executive

producers and creators of The Leading Gen® "A wise, optimistic, straightforward practical guidebook . . . I highly recommend it." —William Pinsof, PhD, founder and president of Family Therapy Institute, Northwestern University

Mood Prep 10Jan 30 2021 "Depression in college students has reached a crisis the prevalence continues to rise. The increasing psychological distress of the current generation, Gen Z, and their greater willingness to obtaining mental health care overwhelmed most college counseling services. Despite this sobering news, parents play a critically important role and the book describes a plan for supporting and preventing depression in young people. Each chapter concludes with practical suggestions and strategies for parents. There are four sections. The first section is a description of adolescent development and the types of depressive symptoms and disorders that may emerge. The second section details the foundation that students need in order to move toward a successful college experience, including family support, communication and assertiveness skills; the development of self-efficacy and problem solving skills; the process of self-regulation, and distress tolerance. Barriers to self-regulation and optimal development include underage substance use and unsafe relationships. The third section examines vulnerabilities to depression, including cognitive distortions, perfectionism, and the stress of being a sexual minority or overweight and thus subject to harassment. Challenges faced by students are seen as "different," are explored. What happens to students who are seen as "different." The fourth section is a description of life on campus including the stresses of college life and opportunities to develop friendships, relationships with faculty, and a more meaningful view of the future. There are chapters on how to access mental health services during college. The book concludes with a call to reduce stress on students and the competitive individualistic culture"--

All she knows is an underlying fear she can't seem to shake. When two hunters find her battered and can she put aside the clear confusion she's experiencing to trust them? She wants to trust them, especially Nicholas, but fear is holding her back. Trust is incredibly hard when you are so clearly confused. Could it be he and his friend are not who they claim to be?

Jul 24 2020 It is New Year's Eve 1945 in a small Soviet town not long liberated from German occupation. Sashenka, a headstrong and self-centered teenage girl, resents her mother for taking a lover after her father's death in the war, and denounces her to the authorities for the petty theft that keeps them from going home. When she meets a Jewish lieutenant who has returned to bury his family, betrayed and murdered by their neighbors during the occupation, both must come to terms with the trauma that surrounds them as their relationship deepens. Redemption is a stark and powerful portrait of humanity caught up in Stalin's police state in the aftermath of war and the Holocaust. In this short novel, written in 1967 but unpublished for nearly 50 years, Friedrich Gorenstein effortlessly combines the concrete details of daily life in a devastated society with witness testimonies to the mass murder of Jews. He gives a realistic account of postwar Soviet suffering through nuanced psychological portraits of people confronted with harsh choices and a coming-of-age story underscored by the involvement of sexuality and violence. Interspersed are flights of philosophical reflection and consideration of the relationship between Christians and Jews, love and suffering, and forgiveness. A major addition to the canon of literature bearing witness to the Holocaust in the Soviet Union, Redemption is an important reckoning with anti-Semitism and Stalinist repression from a significant Soviet Jewish voice.

Hardball [Feb 23 2023](#) Great companies stumble and fall when they lose it. High-tech companies crash when a competitor notices they don't have it. Start-ups shut down if they don't develop it. "It" is a strategy so powerful and an execution-driven mindset so relentless that companies use it to gain more than just competitive advantage--they achieve industry dominance that is virtually unassailable and that competitors often try to steal away as unfair. In their "hardball manifesto," authors George Stalk and Rob Lachenauer of the leading strategy consulting firm The Boston Consulting Group show how competitors can build or maintain an enviable competitive edge by pursuing one of the classic "hardball strategies": unleash massive and overwhelming force, exploit anomalies, devastate profit sanctuaries, raise competitors' costs, and break competitors. Based on 25 years of experience advising and observing a range of companies, the authors argue that hardball competitors can gain extreme competitive advantage--neutralizing, marginalizing, or even destroying competitors--without violating their contracts with customers or employees and without breaking the rules. A clear-eyed paean to the timeless strategies that have driven the world's winning companies, Hardball Strategy redefines and reinterprets the meaning of competition for a new generation of business players. George Stalk and Rob Lachenauer are directors at The Boston Consulting Group. Stalk is the author of Competing Against Time, the first work on time-based competition.

The Man Who Came Up to Me Dec 17 2019 From writer and producer on HBO's THE WIRE and THE DEUCE comes one of the most critically-acclaimed crime novels of the year: 'He is, quite simply, among America's finest crime writers. This latest story does not disappoint ... lyrical, beautifully observed and constantly surprising, it is a delight to read' Mail 'In his first novel for five years, Pelecanos demonstrates why he deserves to be regarded as one of the best American crime novelists ... It's a moving tale, beautifully told' The Times * * * * * Anna Byrne is a jailhouse librarian. In a place where hope is hard to find, the power of books can be a light in the dark. For some of the prisoners, work is life-changing. Like Michael Hudson, her best student, who's been locked up awaiting trial before his sudden release. He's relieved to be free - to 'come up to the surface' they say - but can't shake the question: why is the witness who put him behind bars suddenly refusing to testify? There's a man who might have the answer, but he needs something first. Phil Ornazian is a private investigator who moonlights as a petty criminal. He's not exactly proud of it, but times are hard in Washington, D.C. People have to change to survive, or die trying. But everything comes at a price and, at some point, everyone has to pay... * * * * * Praise for George Pelecanos: 'Perhaps the greatest living American crime writer' Stephen King 'Outstanding' Sunday Telegraph 'Powerful' Observer 'American crime writing at its finest' Independent on Sunday 'Terrific' Entertainment Weekly 'Leonard' Michael Connelly 'I love the way he writes: economical, rhythmic'
